Hulaed Q26S

Hulaed Q26 Sleep Headphones User Manual

Model: Q26S

Introduction

Thank you for choosing the Hulaed Q26 Sleep Headphones. These invisible earbuds are designed for ultimate comfort, especially for side sleepers, offering noise blocking capabilities and high-quality audio. Featuring Bluetooth 5.3 connectivity, they are suitable for various activities including sleeping, running, driving, and hiking. This manual provides detailed instructions on how to set up, operate, maintain, and troubleshoot your new headphones.

What's in the Box

Please check the contents of your package to ensure all items are present:

- Hulaed Q26 Sleep Headphones (Left and Right Earbuds)
- Charging Case
- Charging Cable (USB-C)
- User Manual (this document)
- Additional Eartips/Eartip Caps (if included)

Note: The product description mentions "Blu-ray" as an included component, which is likely an error. The actual included components are typically the earbuds, charging case, and charging cable.

Product Overview

Figure 1: The Hulaed Q26 Sleep Headphones, showing both earbuds nestled in their compact pink charging case. The case is open, displaying the earbuds' design and the charging indicators.

Figure 2: Illustration of the earbuds designed for side sleepers, showing a person comfortably resting on their side with one earbud in place, highlighting its low-profile design.

Figure 3: Demonstrates the IPX6 water resistance feature. The image shows an ear with the earbud, with water droplets on the skin, signifying its ability to withstand sweat and light splashes.

Figure 4: Shows the compact and comfortable fit of the earbud when worn. A person is seen with the earbud, emphasizing its small size and discreet appearance.

Figure 5: Depicts the earbuds being worn during a physical activity (cycling), demonstrating their secure and snug fit, making them suitable for sports and movement.

Figure 6: A conceptual image highlighting the "Dynamic Drivers" of the earbuds, with sound waves visually representing the quality and nature of the audio output, designed for sleep-inducing sound.

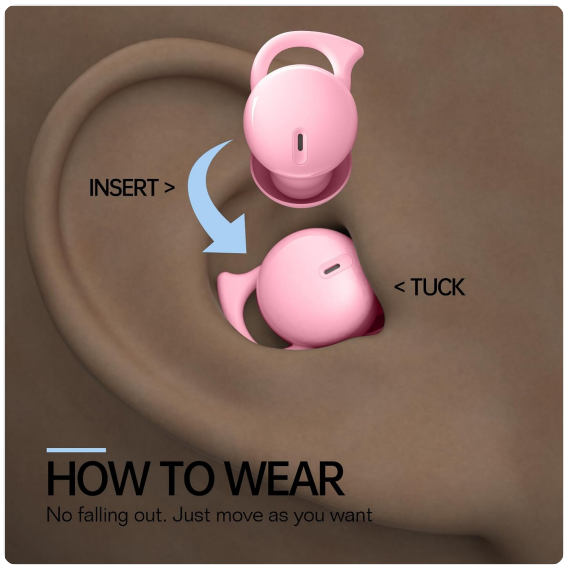

Figure 7: A visual guide on "How to Wear" the earbuds, illustrating the two-step process of inserting and then tucking the earbud into the ear for a firm and comfortable fit that prevents falling out.

Setup

1. Charging the Earbuds and Case

Before first use, ensure both the earbuds and the charging case are fully charged.

1. Place the earbuds into the charging case, ensuring they are correctly seated in their respective slots.
2. Connect the charging cable (USB-C) to the charging port on the case and the other end to a USB power source (e.g., wall adapter, computer USB port).

3. The indicator lights on the case will show the charging status. Once fully charged, the lights will indicate completion (refer to specific light behavior in the quick start guide if provided with the product).

2. Pairing with Your Device

The Q26 Sleep Headphones use Bluetooth 5.3 for a stable and efficient connection.

1. Open the charging case. The earbuds will automatically enter pairing mode (or manually activate by pressing and holding the touch area on both earbuds if they don't pair automatically).
2. On your device (smartphone, tablet, computer), go to the Bluetooth settings.
3. Turn on Bluetooth.
4. Search for available devices. You should see "Q26" or "Hulaed Q26" appear in the list.
5. Select "Q26" to connect. Once connected, you will hear a confirmation tone, and the indicator lights on the earbuds may change.
6. If prompted for a passcode, enter "0000" (four zeros).

Note: The earbuds will automatically reconnect to the last paired device when taken out of the case, if Bluetooth is enabled on the device.

Operating Instructions

Wearing the Earbuds

For optimal comfort and sound quality, ensure the earbuds are worn correctly, especially for side sleeping.

1. Identify the Left (L) and Right (R) earbuds.
2. Gently insert the earbud into your ear canal.
3. Adjust the earbud by slightly twisting and tucking it into your outer ear (as shown in Figure 7) until it feels secure and comfortable. The design is intended to sit discreetly without causing pressure, even when lying on your side.

Basic Controls (Touch Sensitive)

The Q26 Sleep Headphones feature touch controls for easy operation. The exact functions may vary slightly, but common controls include:

- **Play/Pause:** Single tap on either earbud.
- **Next Track:** Double tap on the Right earbud.
- **Previous Track:** Double tap on the Left earbud.
- **Volume Up:** Triple tap on the Right earbud.
- **Volume Down:** Triple tap on the Left earbud.
- **Answer/End Call:** Single tap on either earbud during an incoming call.
- **Reject Call:** Press and hold on either earbud for 2 seconds during an incoming call.
- **Activate Voice Assistant:** Press and hold on either earbud for 3 seconds.

Refer to the quick start guide included with your product for precise touch control mappings.

IPX6 Water Resistance

The earbuds are IPX6 professional deep waterproof, meaning they are resistant to strong jets of water and sweat. This makes them suitable for:

- Workouts and sweating
- Running in light rain

- Swimming, surfing, snorkeling (brief immersion)

Important Note:

- Do not use the earbuds underwater continuously for more than 6 hours.
- The charging case is NOT waterproof. Ensure earbuds are completely dry before placing them back in the charging case to prevent damage.
- Avoid exposing the earbuds to saltwater or chemicals, as this can degrade the waterproof seals over time.

Maintenance

Proper maintenance will extend the lifespan of your Hulaed Q26 Sleep Headphones.

Cleaning

- **Earbuds:** Gently wipe the earbuds with a soft, damp cloth. For earwax or debris, use a dry cotton swab or a small, soft brush. Do not use harsh chemicals or abrasive materials.
- **Charging Case:** Wipe the exterior of the charging case with a dry, soft cloth. Keep the charging contacts inside the case clean and free of dust.
- Ensure earbuds are completely dry before placing them back into the charging case.

Storage

- When not in use, store the earbuds in their charging case to protect them and keep them charged.
- Store in a cool, dry place, away from extreme temperatures, humidity, and direct sunlight.

Battery Care

- To preserve battery life, avoid fully discharging the earbuds and case frequently.
- If storing for an extended period, charge the battery to approximately 50% every few months.

Troubleshooting

If you encounter any issues with your Q26 Sleep Headphones, try the following solutions:

Problem	Possible Solution
Earbuds not turning on/charging	◦ Ensure the charging case has power. ◦ Check if the charging cable is securely connected to both the case and the power source. ◦ Clean the charging contacts on both the earbuds and inside the case. ◦ Try a different charging cable or power adapter.
Cannot pair with device	◦ Ensure Bluetooth is enabled on your device. ◦ Make sure the earbuds are in pairing mode (usually indicated by flashing lights). ◦ Forget/delete "Q26" from your device's Bluetooth list and try pairing again. ◦ Move the earbuds closer to your device. ◦ Restart your device and the earbuds (by placing them in the case and taking them out).

Problem	Possible Solution
No sound or low volume	◦ Increase the volume on both your device and the earbuds. ◦ Ensure the earbuds are properly connected to your device. ◦ Try playing different audio. ◦ Clean any debris from the earbud speakers.
Intermittent connection/audio drops	◦ Move closer to your device and away from potential interference sources (e.g., Wi-Fi routers, other Bluetooth devices). ◦ Ensure there are no physical obstructions between the earbuds and your device. ◦ Reset the earbuds (refer to product-specific reset instructions if available, usually involves holding touch controls for a long time while in case).
