

Matast DY210

Matast DY210 Portable Charger Power Bank User Manual

Model: DY210

1. INTRODUCTION

Welcome and thank you for choosing the Matast DY210 Portable Charger Power Bank. This manual provides essential information for the safe and efficient use of your device. Please read it thoroughly before operation and retain it for future reference.

2. IMPORTANT SAFETY INSTRUCTIONS

To ensure safe operation and prevent damage, please observe the following precautions:

- Do not expose the power bank to extreme temperatures (above 60°C/140°F or below 0°C/32°F).
- Avoid dropping, disassembling, or attempting to repair the device yourself.
- Keep the power bank away from water, moisture, and flammable materials.
- Use only certified charging cables and adapters.
- Do not use the power bank if it is damaged, swollen, or leaking.
- Keep out of reach of children.
- Dispose of the power bank according to local regulations; do not discard with household waste.

3. PRODUCT OVERVIEW

The Matast DY210 is a compact and versatile 10000mAh portable power bank designed for on-the-go charging. It features both magnetic wireless charging and wired charging capabilities, along with a digital display for battery status.

Device Components

A front view of the Matast DY210 Portable Charger Power Bank, showcasing its compact design and digital display.

- **Magnetic Wireless Charging Pad:** For compatible devices.
- **USB Type-C Port (Input/Output):** For charging the power bank and charging devices.
- **Micro USB Port (Input):** For charging the power bank.
- **Power Button:** To activate the power bank and check battery status.
- **Digital Display:** Shows remaining battery percentage and charging status.

4. SETUP

Initial Charging of the Power Bank

Before using your Matast DY210 for the first time, it is recommended to fully charge it.

1. Connect a USB-C cable to the Type-C port on the power bank.
2. Connect the other end of the cable to a compatible USB wall adapter (not included).
3. The digital display will show the charging progress, indicating 100% when fully charged.

5. OPERATING INSTRUCTIONS

Charging Devices Wirelessly (Magnetic)

The Matast DY210 supports magnetic wireless charging for compatible devices.

1. Press the power button once to activate the power bank.
2. Align your compatible smartphone (e.g., iPhone 12 series or newer with MagSafe) with the magnetic charging area on the power bank. The magnets will automatically snap into place.
3. Ensure the device is properly aligned for optimal charging. The digital display may show a charging indicator.

This image demonstrates the magnetic wireless charging feature, showing a smartphone securely attached to the power bank while charging.

Strong Magnetic Attachment

Strong Magnetic

No wires

Easy to carry

This image emphasizes the strong magnetic attachment, showing the power bank securely fastened to a smartphone for convenient, wire-free charging.

Charging Devices via Cable

The power bank can charge devices using its USB Type-C port.

1. Press the power button once to activate the power bank.
2. Connect your device to the power bank using a compatible USB-C to USB-C or USB-C to Lightning cable.
3. The power bank can charge two devices simultaneously (one wirelessly, one via cable).

Charge 2 Devices

Adopts the advanced bi-directional charging technology

The power bank is shown charging two devices concurrently: one wirelessly and another through its USB-C port, demonstrating its dual-charging capability.

Recharging the Power Bank

When the power bank's battery is low, recharge it using either the USB Type-C or Micro USB input.

1. Connect a USB-C or Micro USB cable to the corresponding input port on the power bank.
2. Connect the other end of the cable to a power source (e.g., wall adapter, computer USB port).
3. The digital display will show the charging percentage.

Digital Display

The integrated digital display provides real-time information:

- **Battery Percentage:** Shows the remaining charge level of the power bank.
- **Charging Indicator:** May show an icon or specific text when a device is being charged or when the power bank itself is recharging.

LED Digital Display

Remaining power, clearly visible

A close-up of the Matast DY210's LED digital display, clearly showing the remaining power percentage.

6. MAINTENANCE

Care and Storage

- **Cleaning:** Use a soft, dry cloth to clean the power bank. Do not use liquid cleaners or aerosols.
- **Storage:** Store the power bank in a cool, dry place away from direct sunlight and extreme temperatures.
- **Battery Longevity:** For optimal battery life, fully charge and discharge the power bank at least once every three months if not in regular use.

7. TROUBLESHOOTING

Common Issues and Solutions

Problem	Possible Cause	Solution
Power bank not charging device	Power bank is off; low battery; incompatible cable/device; poor magnetic alignment.	Press power button; recharge power bank; use a compatible cable/device; adjust magnetic alignment.
Power bank not recharging	Faulty charging cable/adaptor; power source issue.	Try a different cable/adaptor; ensure power source is active.
Slow charging	Cable/adaptor not fast charging compatible; device drawing high power.	Use a fast-charging compatible cable/adaptor; close background apps on device.
Device overheating	Environmental factors; prolonged use; device case interference.	Remove device case; ensure good ventilation; discontinue use if excessive.

8. SPECIFICATIONS

Feature	Detail
Model Number	DY210
Battery Capacity	10000 Milliamp Hours (mAh)
Product Dimensions	2 x 2 x 3 inches
Item Weight	9.1 ounces
Connector Type	USB Type C, Micro USB
Special Feature	Digital Display
Manufacturer	Shenzhen Guangxun Lishen Technology Co., Ltd. DongguanTangxia Branch
Date First Available	September 10, 2024

10000mAh Big Capacity

 iPhone 8 3.8 charges	 iPhone 15 2.1 charges	 iPad mini 1 1.6 charges
 Samsung S23 1.8 charges	 AirPods Pro 13.2 charges	 Smart Watch 13.2 charges
