3. PRODUCT OVERVIEW

Key Features

- **Official Google TV Built-In:** Seamless streaming with pre-installed apps like Netflix, Disney+, Prime Video, and YouTube. No additional TV stick required. Features 2GB RAM and 16GB storage for smooth performance.
- **1100 ANSI Lumens & Native 1080P Resolution (4K Supported):** Delivers vivid colors and crisp images, suitable for both day and night viewing.
- **Built-in Voice Control with Google Assistant:** Control apps, content, and settings using voice commands via the remote.
- **Instant Auto Focus, Keystone Correction & Zoom:** Automatically adjusts focus and angle for a perfect picture. Zoom function (50%–100%) allows screen size adjustment without moving the projector.
- **Enhanced Sound & Whisper-Quiet Cooling:** DSP technology-powered HiFi speakers provide rich audio. Fan noise is reduced to 26dB for an immersive viewing experience.
- **Effortless Casting with Google Cast:** Mirror content from Android or iOS devices wirelessly.
- **Multiple Mounting Options & Broad Device Support:** Can be mounted on ceiling, wall, tripod, or table. Connects via HDMI ARC, USB, or 3.5mm audio for gaming consoles, laptops, and smartphones.

4. SETUP GUIDE

Initial Placement

Choose a stable, flat surface for your projector. For optimal viewing, position the projector directly in front of your projection surface (wall or screen). The projector can be placed on a table, mounted on a tripod, or installed on the ceiling.

Powering On

Connect the power cord to the projector and then to a power outlet. Press the power button on the projector or the remote control to turn it on. The projector will initiate its startup sequence.

Auto Focus and Keystone Correction

The Wanbo X5 Pro features instant auto-focus and auto-keystone correction. Upon startup or movement, the projector will automatically adjust the image for clarity and a perfectly rectangular display. You can also manually adjust the zoom (50%-100%) via the settings menu without physically moving the projector.

Connecting External Devices

The projector supports various external devices:

- **HDMI:** Connect gaming consoles, laptops, Blu-ray players, or other HDMI-enabled devices using an HDMI cable.
- **USB:** Plug in USB drives to play media files directly.
- **3.5mm Audio Jack:** Connect external speakers or headphones for enhanced audio.
- **Bluetooth:** Pair Bluetooth audio devices wirelessly for a more immersive sound experience.

Google Cast

Utilize Google Cast to effortlessly mirror content from your Android or iOS smartphone or tablet directly to the projector. Ensure both devices are connected to the same Wi-Fi network, then select the Cast option from your device's compatible app.

6. MAINTENANCE

Regular maintenance ensures the longevity and optimal performance of your Wanbo X5 Pro projector.

- **Cleaning the Lens:** Gently wipe the projector lens with a soft, lint-free cloth specifically designed for optical surfaces. Avoid using abrasive materials or harsh chemicals.
- **Cleaning the Dust Box:** The projector features a detachable dust box for easy cleaning. Regularly remove and clean the dust box to prevent dust accumulation, which can affect performance and cooling. Refer to the unboxing video or product diagrams for the location of the detachable dust box.
- **Ventilation:** Ensure the projector's ventilation vents are clear of obstructions to allow for proper airflow and prevent overheating.

7. TROUBLESHOOTING

If you encounter any issues with your projector, refer to the following common solutions:

- **No Picture:** Check power connections, ensure the correct input source is selected (HDMI, USB), and verify the lens cap is removed.
- **Blurred Image:** Allow the auto-focus to complete its cycle. If still blurry, ensure the projector is on a stable surface and the projection surface is flat.
- **No Sound:** Check the volume settings on the projector and any connected external audio devices. Ensure the correct audio output is selected.
- **Remote Control Not Responding:** Check the remote's batteries. Ensure there are no obstructions between the remote and the projector's IR receiver.
- **Overheating Warning:** Ensure the projector's vents are not blocked and there is sufficient space around the device for airflow.
