> eeTao 5V USB-C Charging Cable for AsperX AX60 AX1500 Tire Inflator - User Manual

eeTao AsperX AX60 AX1500 USBC Cable

eeTao 5V USB-C Charging Cable User Manual

Compatible with AsperX AX60 and AX1500 Tire Inflators

1. PRODUCT OVERVIEW

This eeTao 5V USB-C Charging Cable is designed to provide reliable power to your AsperX AX60 and AX1500 portable tire inflators. It ensures efficient charging for the rechargeable battery power supply, allowing for consistent performance of your device.

What's in the Box

- 1 x eeTao 5V USB-C Charging Cable

eeTao[®] Power Cord Cable

Compatible with:

Machine Not Included

Image 1.1: The eeTao USB-C Charging Cable shown alongside compatible AsperX AX60 and AX1500 portable tire inflators. Note: Tire inflators are not included with the cable.

2. SETUP INSTRUCTIONS

To begin charging your compatible AsperX tire inflator, follow these simple steps:

1. **Connect to Power Source:** Insert the standard USB-A end of the charging cable into a compatible 5V USB power adapter (not included), such as a wall charger, car charger, or power bank. Ensure the power source is active.
2. **Connect to Device:** Insert the USB-C end of the charging cable into the USB-C charging port on your AsperX AX60 or AX1500 tire inflator.

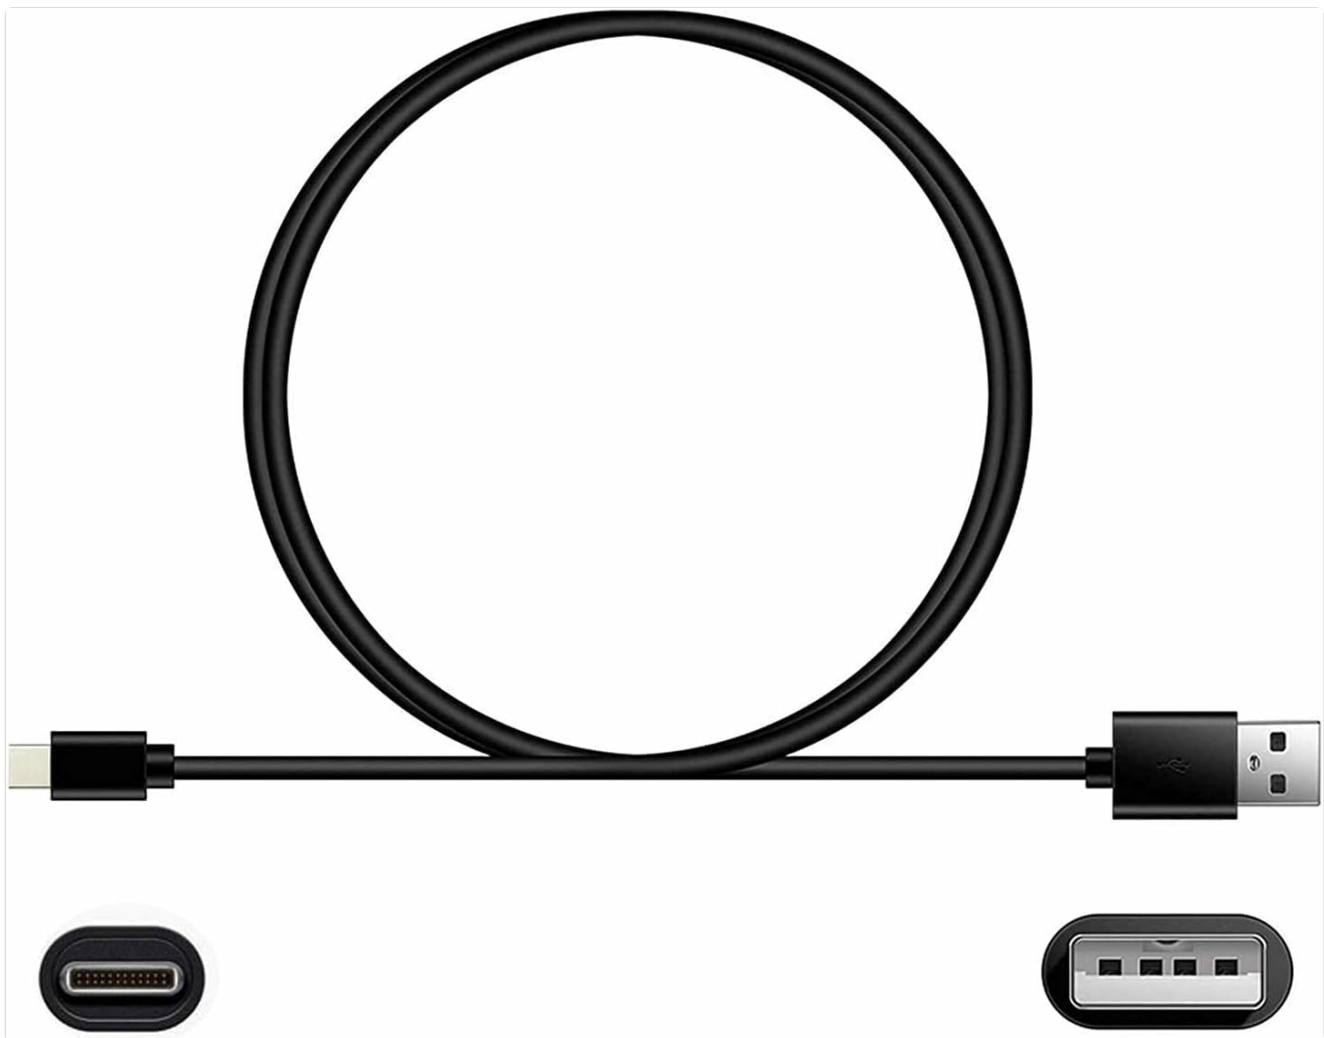

Image 2.1: The eeTao USB-C Charging Cable, illustrating its USB-A and USB-C connectors for proper connection.

3. OPERATING INSTRUCTIONS

Once the cable is properly connected to both a power source and your AsperX tire inflator, the device should begin charging automatically. Refer to your AsperX tire inflator's manual for specific charging indicators and expected charging times.

- Ensure the power source provides 5V DC output for optimal charging.
- The cable is designed for charging only and does not support data transfer.

4. CARE AND MAINTENANCE

Proper care of your charging cable will extend its lifespan and ensure consistent performance:

- **Storage:** Store the cable in a cool, dry place away from direct sunlight and extreme temperatures.
- **Handling:** Avoid sharp bends, kinks, or excessive pulling on the cable, especially near the connectors.
- **Cleaning:** If necessary, gently wipe the cable with a dry, soft cloth. Do not use harsh chemicals or abrasive cleaners.
- **Inspection:** Periodically inspect the cable and connectors for any signs of damage, such as fraying, cuts, or bent pins. Discontinue use if damage is observed.

Premium Cable

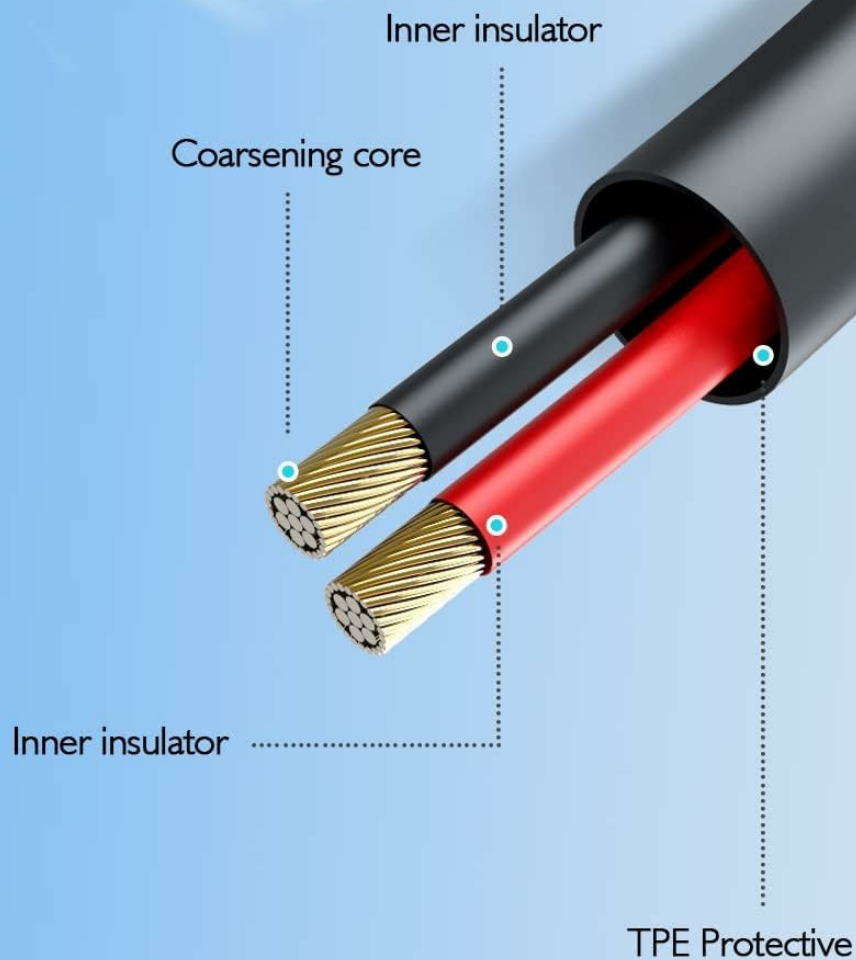

Image 4.1: An illustration detailing the internal construction of a premium cable, highlighting components like the inner insulator, coarsening core, and TPE protective layer, which contribute to durability.

5. TROUBLESHOOTING

If you encounter issues with your charging cable, consider the following:

- **Device Not Charging:**
 - Ensure both ends of the cable are securely connected.

- Try a different 5V USB power adapter to rule out issues with the power source.
- Verify that your AsperX tire inflator's charging port is clean and free of debris.
- Test the cable with another compatible USB-C device if available, to confirm cable functionality.

• **Slow Charging:**

- Ensure your power adapter provides sufficient current (amperage) for optimal charging.
- Avoid using the device while it is charging, as this can slow down the charging process.

- **Cable Damage:** If the cable shows any signs of physical damage (fraying, cuts, bent connectors), discontinue use immediately and replace it.

6. PRODUCT SPECIFICATIONS

Feature	Detail
Brand	eeTao
Model Name	AsperX AX60 AX1500 USBC Cable
Connector Type	USB Type C (Male-to-Female)
Cable Type	USB
Compatible Devices	AsperX AX60, AsperX AX1500 Tire Inflators
Connectivity Technology	USB
