domi outdoor living LE-GC0808C

Domi 8'x8' Universal Winter Gazebo Cover Instruction Manual

Model: LE-GC0808C

1. PRODUCT OVERVIEW

The Domi 8'x8' Universal Winter Gazebo Cover is designed to provide protection for your gazebo and its contents during colder seasons. Constructed from premium PE material, it offers water resistance and durability. This cover can convert an existing hardtop gazebo into a sheltered storage area, protecting outdoor furniture and other items from environmental elements.

Key features include an enhanced windproof design with an extended 8.7-inch length on all sides and pre-drilled holes for secure anchoring. For user convenience, it incorporates a zippered door for access and mesh curtains for ventilation and dust control. The top four corners feature a 3-layer polyester fabric for reinforced waterproofing and insulation.

2. SETUP INSTRUCTIONS

This gazebo cover is designed for straightforward installation. It is recommended that three individuals assist with the setup process to ensure ease and safety.

1. **Unpack Components:** Carefully remove all components from the packaging and verify that all parts are present.
2. **Position the Cover:** With assistance, carefully lift the cover and drape it over the top of your existing gazebo structure. Ensure it is centered and aligned with the gazebo frame.
3. **Secure the Sides:** Pull the sidewalls down evenly around the gazebo frame.
4. **Anchor the Cover:** Utilize the extended 8.7-inch length at the bottom of the cover and the pre-drilled holes to securely anchor the cover to the ground. This is crucial for stability, especially in windy conditions. Use appropriate anchoring hardware (not included) for your ground type.
5. **Adjust for Fit:** Ensure all zippers are closed and Velcro fasteners are secured to create a snug fit around the gazebo.

Important Safety Note:

- Always ensure proper anchoring for stability, particularly during strong winds, to prevent displacement and potential damage.
- Exercise caution during assembly to avoid injury.

3. OPERATING YOUR GAZEBO COVER

The Domi Winter Gazebo Cover is designed for practical use, offering various features to enhance your outdoor space.

- **Access:** The cover includes a zippered door for easy entry and exit. Ensure the zipper is fully closed when not in use to maintain the enclosed environment.
- **Ventilation and Light Control:** Mesh curtains are integrated for ventilation and dust control. These can be rolled up or down using the Velcro design to adjust the amount of light and airflow.
- **Weather Protection:** When fully enclosed and anchored, the cover provides a barrier against cold, moisture, and wind, protecting items stored inside.

Mesh Window

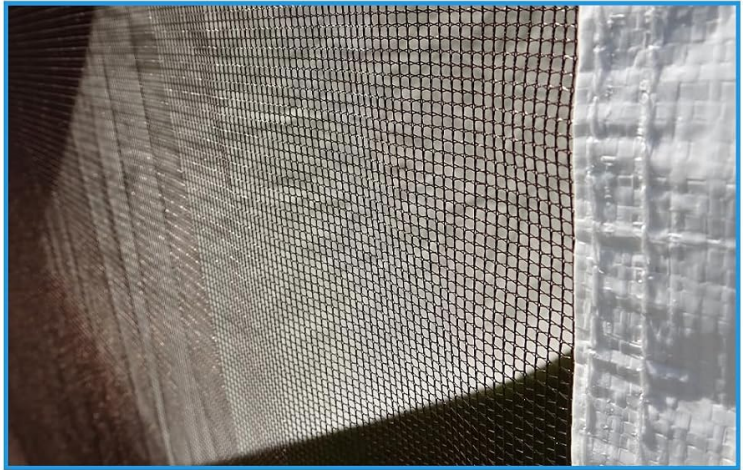

Mesh design can increase air circulation.

Maintain indoor ventilation

Enhance comfort

Velcro Design

With Velcro design, you can choose the amount of light and meet different levels of demand by rolling up or down.

High flexibility

Easy to use

4. CARE AND MAINTENANCE

Proper care and maintenance will extend the lifespan of your Domi Winter Gazebo Cover.

- **Cleaning:** The PE material is easy to clean. Use a soft cloth, mild soap, and water to wipe down surfaces. Avoid harsh chemicals or abrasive cleaners that could damage the fabric.
- **Drying:** Ensure the cover is completely dry before folding and storing to prevent mold or mildew growth.
- **Storage:** When not in use, especially during off-season, store the cover in a cool, dry place away from direct sunlight and extreme temperatures.
- **Inspection:** Periodically inspect the cover for any signs of wear, tears, or damage. Address minor issues promptly to prevent further deterioration.

REINFORCED DETAILS

The top four corners of the gazebo cover liner use a 3-layer polyester fabric, providing exceptional waterproofing, insulation, durability, and comfort.

Image 4.1: The high-quality PE fabric (200gsm/M2) used in the gazebo cover, known for its durability and ease of maintenance.

5. TROUBLESHOOTING

This section addresses common issues you might encounter with your gazebo cover.

- **Issue: Cover blows off or shifts in wind.**

Solution: Ensure the cover is properly anchored using the pre-drilled holes and appropriate ground stakes or weights. Verify that all zippers are fully closed and Velcro fasteners are securely attached. Consider additional tie-downs in areas prone to high winds.

- **Issue: Difficulty installing the cover.**

Solution: Installation is easier with multiple people (recommended three). Ensure the cover is unfolded completely and oriented correctly before attempting to lift it over the gazebo frame. Evenly distribute the weight and pull down the sides simultaneously.

- **Issue: Water pooling on the cover.**

Solution: While the cover is waterproof, ensure the gazebo frame underneath provides adequate tension to prevent water from pooling, which can stress the fabric. Clear any debris (leaves, snow) that might accumulate and cause pooling.

6. PRODUCT SPECIFICATIONS

Attribute	Detail
Brand	domi outdoor living
Model Number	LE-GC0808C
Material	Polypropylene (PE)
Style	Compact
Product Dimensions	97.2"L x 97.2"W x 121"H (8'x8' footprint)
Item Weight	17.9 Pounds
Frame Material	Polypropylene
Water Resistance Level	Water Resistant
Shape	Square
Ultraviolet Light Protection	99% UV-proof, UPF 50+
Assembly Required	No (referring to the cover itself, not the gazebo frame)
