3. ASSEMBLY INSTRUCTIONS

Assembly typically requires two people and takes approximately 30-60 minutes. Follow the numbered steps below.

3.1 Preparation

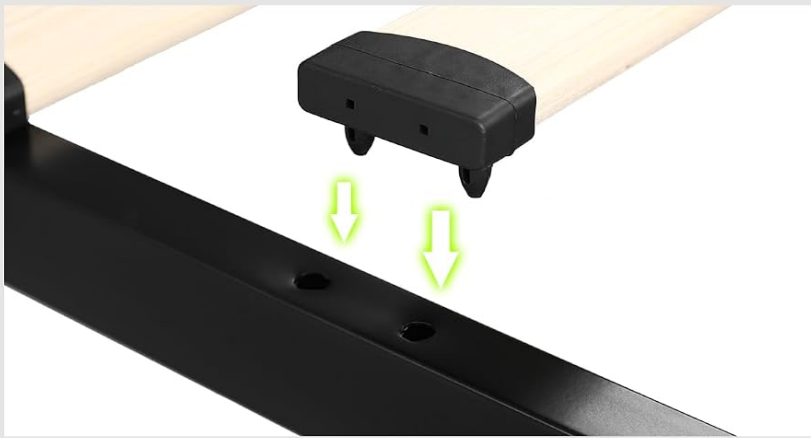

1. Clear a spacious area for assembly.
2. Unpack all components and lay them out on a soft, clean surface to prevent scratches.
3. Identify all parts against the package contents list.

3.2 Step-by-Step Assembly

1. **Attach Side Rails to Headboard:** Connect the side rails to the upholstered headboard using the provided bolts and Allen wrench. Do not fully tighten bolts until all major components are connected.
2. **Attach Footboard:** Connect the footboard to the other end of the side rails. Ensure all connections are secure.
3. **Install Center Support Beam:** Place the center support beam along the middle of the frame and secure it to the headboard and footboard brackets.
4. **Insert Wooden Slats:** Place the wooden slats across the frame, ensuring they fit into the designated slots or are evenly spaced. Secure them using any provided fasteners or Velcro strips. The EVA foam on metal slats helps reduce noise.
5. **Assemble Storage Drawers:** Assemble the four storage drawers according to their individual instructions. Attach the wheels and the upholstered front panels.
6. **Insert Drawers:** Slide the assembled drawers under the bed frame. The pulleys and clips are designed to fix and pull out the drawers easily.
7. **Final Tightening:** Once all components are in place and aligned, fully tighten all bolts and screws.
8. **Connect Charging Station:** Plug the power cord from the headboard's charging station into a wall outlet.

4. OPERATING INSTRUCTIONS

4.1 Using the Storage Drawers

The Feonase bed frame includes four large under-bed storage drawers. These drawers are designed with pulleys for smooth movement and clips for secure closure.

- **Opening:** Gently pull the drawer handle to slide it out from under the bed.
- **Closing:** Push the drawer back into place until the clips engage, securing it.
- **Capacity:** Utilize the drawers for storing clothing, bedding, shoes, or other items. Avoid overloading to ensure smooth operation and prevent damage.

4.2 Using the Charging Station

The headboard features an integrated charging station for your convenience.

- **Power Connection:** Ensure the bed frame's power cord is securely plugged into a functional wall outlet.

- **Ports:** The charging station includes 2 AC outlets, 1 USB port, and 1 Type-C port.
- **Usage:** Plug in your electronic devices such as phones, tablets, or headphones for charging.
- **Storage Shelf:** The 4-inch storage shelf on top of the headboard provides a convenient space for placing your devices, remote controls, or other small items while charging.

5. MAINTENANCE

5.1 Cleaning

- **Upholstered Parts:** For routine cleaning, vacuum the upholstered headboard and drawer fronts with a soft brush attachment. For spills, blot immediately with a clean, dry cloth. For stubborn stains, use a mild fabric cleaner following the product's instructions, testing on an inconspicuous area first.
- **Metal Frame:** Wipe the metal frame with a soft, damp cloth. Avoid abrasive cleaners that may damage the finish.
- **Wooden Slats:** Periodically check the wooden slats for dust and wipe clean if necessary.

5.2 General Care

- **Tighten Fasteners:** Periodically check and tighten all bolts and screws to ensure the frame remains stable and noise-free.
- **Drawer Functionality:** Keep the drawer tracks and wheels free of debris to ensure smooth operation.
- **Avoid Excessive Force:** Do not drag the bed frame when moving it; lift it to prevent damage to the legs and frame structure.

6. TROUBLESHOOTING

Problem	Possible Cause	Solution
Bed frame is squeaking or noisy.	Loose bolts; slats not properly seated; friction between metal parts.	Ensure all bolts are tightened. Check that all wooden slats are correctly positioned and secured. The EVA foam on the metal slats is designed to prevent noise; ensure it is intact.
Storage drawers do not slide smoothly.	Debris in tracks; overloaded drawer; damaged wheels.	Clean any debris from the drawer wheels and the area under the bed. Reduce the load in the drawer. Inspect wheels for damage.
Charging station is not working.	Power cord unplugged; wall outlet not functional; device issue.	Verify the bed frame's power cord is securely plugged into a working wall outlet. Test the wall outlet with another device. Ensure your device's charging cable is functional.
Mattress slides on the frame.	Mattress not properly aligned; embedded design not fully utilized.	Ensure the mattress is centered on the frame. The embedded design of the frame is intended to prevent sliding; verify the mattress fits within this boundary.
