CAROTE Hokkaido Collection 16-Piece Nonstick Induction Cookware Set

MODEL: A09035

Introduction

Thank you for choosing the CAROTE Hokkaido Collection 16-Piece Nonstick Induction Cookware Set. This manual provides essential information for the proper setup, operation, care, and maintenance of your new cookware. Designed for durability and performance, this set features a titanium nonstick coating, reinforced die-cast aluminum construction, and compatibility with various cooktops. Please read these instructions carefully before first use to ensure optimal performance and longevity of your cookware.

Setup Instructions

- Unboxing:** Carefully remove all cookware pieces and accessories from the packaging. Retain packaging for future storage or transport if needed.
- Handle Assembly:** Some handles may require attachment. Align the handle with the designated attachment point on the cookware and secure it firmly using the provided screw and screwdriver. Ensure all handles are tightly fastened before use.
- Initial Cleaning:** Before first use, wash all cookware pieces and lids with warm, soapy water. Rinse thoroughly and dry completely with a soft cloth.
- Seasoning (Optional but Recommended):** For enhanced nonstick performance and longevity, lightly coat the interior surface of each pan with a small amount of cooking oil (e.g., vegetable, canola). Heat the pan over low heat for 1-2 minutes, then remove from heat and wipe off excess oil with a paper towel. Repeat this process periodically.

Operating Instructions

- **Heat Settings:** The nonstick coating performs best on low to medium heat. High heat is generally not required and can damage the nonstick surface over time. Always preheat your pan for a minute or two before adding food.
- **Oil Usage:** While the nonstick surface allows for cooking with minimal oil, a small amount of oil or butter is recommended for flavor and to further protect the coating. Avoid aerosol cooking sprays, as they can leave a residue that may affect nonstick performance.
- **Utensil Compatibility:** Use only silicone, wooden, or plastic utensils to prevent scratching the nonstick surface. Metal utensils are not recommended.
- **Cooktop Compatibility:** This cookware set is compatible with gas, electric, glass stove, and induction cooktops. Ensure the pan's base matches the size of your burner for efficient heating.
- **Oven Use:** The cookware is oven safe. Refer to the specifications section for maximum oven temperature. Always use oven mitts when handling hot cookware.
- **Lids:** The high-quality silicone lids provide an excellent seal, locking in flavor and enhancing heat retention.

Image: CAROTE cookware displayed on different stove types, including gas, induction, and electric, illustrating its universal

compatibility.

Care and Maintenance

- **Cool Down:** Always allow cookware to cool completely before washing to prevent warping.
- **Cleaning:** Hand washing with warm, soapy water and a soft sponge or cloth is recommended for best results and to prolong the life of the nonstick coating. While the pans are dishwasher safe, hand washing is gentler. The included slotted turner and ladle should be hand washed to preserve their material.
- **Stubborn Food:** For stubborn food residues, soak the pan in warm, soapy water for a few minutes before cleaning.
- **Avoid Abrasives:** Do not use abrasive cleaners, steel wool, or harsh scouring pads, as these can damage the nonstick surface.
- **Storage:** Use the provided pan protectors when stacking cookware to prevent scratches and damage to the nonstick coating.

Image: A CAROTE pan being easily cleaned with a brush, demonstrating the effortless cleanup due to its nonstick properties.

Troubleshooting

- **Food Sticking:** Ensure you are using low to medium heat. High heat can degrade the nonstick coating over time. Re-seasoning the pan (as described in Setup Instructions) can also help. Avoid using metal utensils.
- **Handles Getting Hot:** While Bakelite handles are designed to stay cool, prolonged exposure to high heat or oven use can cause them to warm up. Always use oven mitts or a pot holder when handling hot cookware, especially after oven use. Be cautious if water enters the handle during washing, as it can heat up and cause burns.
- **Uneven Heating:** Ensure the cookware base is centered on the burner and that the burner size is appropriate for the pan. The reinforced die-cast aluminum is designed for even heat distribution.
- **Missing Parts:** If any components are missing upon arrival, please contact customer support immediately for assistance.

Specifications

Feature	Detail
Brand	CAROTE
Model Number	A09035
Material	Aluminum, Titanium (coating)
Color	Black
Size	16 PCS
Handle Material	Bakelite
Lid Material	Glass with Silicone
Nonstick Coating	Titanium Infused, PFOS/PFOA Free
Dishwasher Safe	Yes (Pans), Hand wash recommended for accessories
Oven Safe	Yes (Specific temperature limits may apply, generally up to 350°F/175°C for Bakelite handles)
Induction Compatible	Yes
Cooktop Compatibility	Gas, Electric, Glass Stove, Induction
Item Weight	16.48 pounds (7.49 Kilograms)
Product Dimensions	8 x 10 x 5 inches (packaging)

Warranty and Support

CAROTE provides a **12-month warranty** from the date of purchase. This warranty covers manufacturing defects and issues arising from normal use. Please retain your proof of purchase for warranty claims.

For any quality problems, missing parts, or support inquiries, please do not hesitate to contact CAROTE customer service. You will be guaranteed a satisfying solution.

Contact Information:

- Refer to your product packaging or the official CAROTE website for the most current customer service contact details.
- Online support may be available through the retailer where the product was purchased.
