

PawHut D06-160V00GY

PawHut Pet Stairs with Scratching Post and Condo (Model D06-160V00GY) - Instruction Manual

INTRODUCTION

This manual provides detailed instructions for the assembly, operation, and maintenance of your PawHut Pet Stairs with Scratching Post and Condo, Model D06-160V00GY. This product is designed to assist small pets, particularly cats, with reaching elevated surfaces such as beds or sofas, while also providing a comfortable resting area, a scratching surface, and an interactive toy.

The pet stairs feature an adjustable height design, allowing for either a three-step or four-step configuration to suit various furniture heights and pet needs. It includes a cozy cat condo for privacy and rest, integrated scratching posts to promote healthy claw maintenance, and a hanging toy ball for entertainment.

SAFETY INSTRUCTIONS

- **Weight Limit:** This product is suitable for cats under 10 lbs (4.5 kg). Do not exceed this weight limit to prevent damage or injury.
- **Indoor Use Only:** This pet stairs unit is designed for indoor use. Exposure to outdoor elements can compromise its structural integrity and materials.
- **Regular Inspection:** Periodically check all screws, bolts, and connections to ensure they are tight and secure. Inspect for any signs of wear or damage to the particle board or plush material.
- **Placement:** Place the pet stairs on a flat, stable surface to prevent tipping. Ensure it is positioned securely against the furniture it is intended to access.
- **Children and Pets:** Keep children away from the unit during assembly. Supervise pets during initial use to ensure safe interaction.
- **Avoid Obstructions:** Ensure no objects are placed on or around the stairs that could impede your pet's movement or cause them to fall.

PACKAGE CONTENTS

Before assembly, verify that all components listed below are present and undamaged. If any parts are missing or damaged, please contact customer support.

- Particle board panels (various sizes for base, steps, condo)
- Plush fabric covers (pre-attached to panels)
- Scratching posts (wrapped in sisal rope)
- Hanging toy ball
- Assembly hardware (screws, bolts, Allen wrench)
- Instruction manual

ASSEMBLY INSTRUCTIONS

Assembly is required for this product. Please follow these steps carefully. An additional person may be helpful for certain steps.

Image: The pet stairs can be configured as 3-step or 4-step by adding or removing the top platform.

1. **Unpack Components:** Carefully remove all parts from the packaging and lay them out on a clean, soft surface to prevent scratches.
2. **Identify Base Unit:** Locate the largest particle board panel, which serves as the base of the

structure.

3. **Assemble Condo:** Attach the side panels and top panel to form the cat condo unit, ensuring the entrance hole is facing the desired direction. Secure with provided screws.
4. **Attach Lower Steps:** Connect the lower step platforms and scratching posts to the base and condo unit as indicated in the assembly diagram (refer to the included paper manual for specific diagrams).
5. **Install Middle Platforms:** Secure the middle platforms and associated scratching posts.
6. **Adjustable Top Platform (3-Step or 4-Step):**
 - For a **3-step configuration**, attach the top platform directly to the highest available support post.
 - For a **4-step configuration**, add the additional support posts and then attach the top platform to achieve the maximum height.
7. **Attach Toy Ball:** Secure the hanging toy ball to the designated loop or attachment point on one of the platforms or posts.
8. **Final Check:** Once assembled, gently shake the unit to ensure all connections are secure and the structure is stable. Tighten any loose screws.

OPERATING INSTRUCTIONS

The PawHut Pet Stairs are designed for ease of use by your pet. Here's how to encourage and ensure proper utilization:

MULTIFUNCTION

Image: A cat utilizing the integrated condo and stairs.

- **Placement:** Position the pet stairs next to the furniture your pet needs to access (e.g., bed, sofa). Ensure the top step is at a comfortable height for your pet to transition onto the furniture.
- **Introducing Your Pet:** Gently guide your pet onto the first step. You can use treats or their favorite toy to encourage them to climb the stairs. Repeat this process until they are comfortable using the stairs independently.
- **Using the Condo:** The enclosed condo provides a secure and private space for your pet to rest or hide. Encourage use by placing a favorite blanket or toy inside.
- **Scratching Posts:** The sisal-wrapped posts are designed for scratching. Encourage your cat to use them instead of furniture by gently placing their paws on the posts or using catnip.
- **Toy Ball:** The hanging toy ball offers an interactive element for play and exercise.

Suitable for injured, obese or small pets to climb and reach the sofa or bed

MAINTENANCE

Regular maintenance will extend the life of your PawHut Pet Stairs and ensure your pet's safety and comfort.

- **Cleaning:** Use a vacuum cleaner to remove pet hair and dust from the plush surfaces. For spot cleaning, use a mild pet-safe cleaner and a damp cloth. Avoid saturating the material. Allow to air dry completely.
- **Scratching Post Care:** As the sisal rope on the scratching posts wears down, monitor its condition. Severely worn posts may need replacement to maintain effectiveness and prevent injury.
- **Structural Integrity:** Periodically check all screws and connections for tightness. Re-tighten if necessary. Inspect the particle board for any cracks or damage.
- **Toy Ball:** Check the attachment of the toy ball regularly to ensure it is secure and not a choking hazard if it detaches.

TROUBLESHOOTING

If you encounter issues with your pet stairs, consider the following common solutions:

- **Pet Not Using Stairs:**

- Ensure the stairs are stable and do not wobble.
- Use treats or favorite toys to lure your pet up and down the stairs.
- Place a familiar scent (e.g., a blanket) on the steps.
- Confirm the stairs are positioned correctly for easy access to the target furniture.

- **Unit Wobbles:**

- Check that all screws and bolts are fully tightened.
- Ensure the unit is placed on a completely flat and level surface.

- **Scratching Post Not Used:**

- Apply catnip spray to the sisal posts.
- Gently guide your cat's paws to the scratching surface.
