## YUCHANLUCK JX-318

# YUCHANLUCK Nut Milk Maker JX-318

Instruction Manual

## 1. IMPORTANT SAFEGUARDS

---

Please read all instructions carefully before using the YUCHANLUCK Nut Milk Maker. Failure to follow these instructions may result in injury or damage to the appliance.

- Always ensure the lid is securely in place before operating the machine. The appliance features an **Automatic Safety Sensor** that prevents operation if the lid is not properly closed.
- The container is made of **Heat Resistant Glass**. Handle with care, especially when hot.
- Do not immerse the main unit (base with motor) in water or other liquids. Clean with a damp cloth.
- Keep hands and utensils out of the container while blending to prevent injury.
- This appliance includes safety features such as **automatic shut-off** and **overheat protection** to ensure safe operation.
- Ensure the appliance is placed on a stable, flat, and dry surface. The **Shock-Absorbing and Non-Slip Base** helps maintain stability.

Image: The automatic safety sensor ensures the machine operates only when the lid is securely closed.

## 2. PRODUCT COMPONENTS

---

The YUCHANLUCK Nut Milk Maker JX-318 package includes the following items:

- Nut Milk Maker Main Unit (with integrated glass container and motor)
- Lid

#### 4. SETUP

1. **Unpacking:** Carefully remove all components from the packaging. Retain packaging for future

storage or transport.

2. **Initial Cleaning:** Before first use, clean the glass container and lid with warm, soapy water. Use the provided cleaning brush for the blades. Wipe the main unit with a damp cloth. Ensure all parts are dry before assembly.
3. **Placement:** Place the Nut Milk Maker on a stable, flat, and dry countertop, away from heat sources or direct sunlight.
4. **Power Connection:** Plug the power cord into a standard 110V AC outlet. The control panel will illuminate.

## 5. OPERATING INSTRUCTIONS

### General Operation

The YUCHANLUCK Nut Milk Maker features a **One-Touch Color Control Panel** for easy selection of various functions.

1. **Add Ingredients:** Place your desired ingredients (e.g., soaked nuts, beans, oats, fruits, vegetables) into the glass container. Add water, ensuring it is between the minimum and maximum fill lines (500mL to 1400mL).
2. **Secure Lid:** Place the lid firmly on the container. The machine will not operate if the lid is not correctly positioned.
3. **Select Function:** Use the touch control panel to select your desired program (e.g., Fast Soymilk, Thick Soymilk, Baby Food, Heat Water, Juice, Health Paste).
4. **Start:** The machine will begin processing automatically after selection.

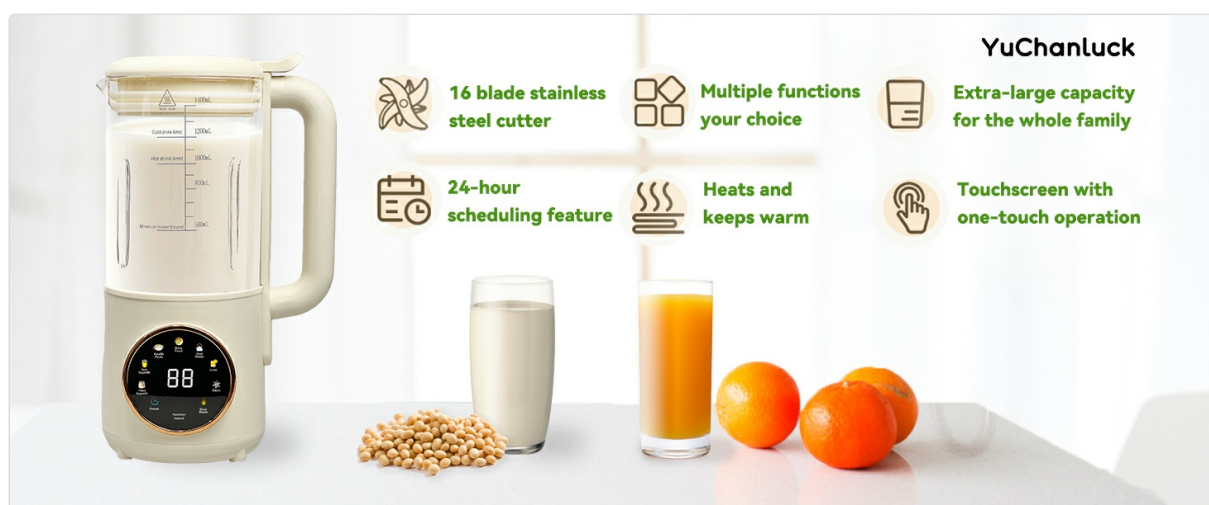

Image: Simple three-step process for using the Nut Milk Maker.

### Specific Functions

- **Plant-Based Milks (Fast Soymilk, Thick Soymilk):** These programs are designed to process nuts, beans, and oats into smooth, creamy milk using the **16-Blade Stainless Steel Cutter**. No pre-soaking steps are required for many ingredients.
- **Baby Food / Health Paste:** Ideal for preparing nutritious purees and pastes.
- **Juice:** Blends fruits and vegetables into fresh juices.
- **Heat Water:** Functions as a kettle to boil water.
- **Delay Start / 24 Hours Timer:** Allows you to set a delayed start time for up to 24 hours, so your beverage or food is ready when you need it.
- **Keep Warm:** Maintains the temperature of your hot beverages or food after preparation.

## Multifunction Milk Maker Machine

Easy Operation with **One**-Touch Automatic

- ✓ **6 Heating & Blending Setting**
- ✓ **6 Temp Boil Setting**
- ✓ **Keep Warm**
- ✓ **Self Clean**

## 6. MAINTENANCE AND CLEANING

Proper maintenance ensures the longevity and hygiene of your Nut Milk Maker.

- **Auto-Cleaning Function:** After use, add water to the container and select the 'Clean' function on the control panel. This feature automatically cleans the interior, saving time and ensuring thorough hygiene.
- **Manual Cleaning:** For thorough cleaning, especially after making thick pastes or milks, use the provided cleaning brush to clean around the blades and the interior of the glass container. The main unit (base) is not detachable from the glass container and should not be immersed in water. Wipe the exterior of the main unit with a damp cloth.
- **Drying:** Ensure all parts are completely dry before storing the appliance.

# SELF CLEAN

Cleaning is quick and clean with **one touch**

Image: The self-cleaning function simplifies post-use cleanup.

## 7. TROUBLESHOOTING

If you encounter any issues with your YUCHANLUCK Nut Milk Maker, please refer to the following common solutions:

- **Appliance Not Starting:** Ensure the power cord is securely plugged in and the lid is properly closed. The safety sensor prevents operation if the lid is open.
- **Error Codes:** If an error code appears on the display, unplug the machine, wait for 5 minutes, and then plug it back in. If the error persists, contact customer support.
- **Incomplete Blending:** Ensure ingredients and water levels are within the specified limits. For tougher ingredients, consider cutting them into smaller pieces.
- **Overflow:** Do not exceed the maximum fill line (1400mL) to prevent overflow, especially with ingredients that expand during heating or blending.

## 8. WARRANTY AND SUPPORT

Your YUCHANLUCK Nut Milk Maker JX-318 comes with comprehensive support and warranty:

- **Lifetime Warranty:** The product is covered by a Lifetime Warranty, ensuring long-term reliability.
- **1 Year Free Replacement:** Enjoy a free replacement within the first year of purchase for any manufacturing defects.
- **Customer Support:** For any inquiries or assistance, our support team offers **24 Hours Quick Response** via phone or email. Refer to your product packaging or the official YUCHANLUCK website for contact details.
