Enabot EBO ROLA Smart Pet Water Fountain

Enabot EBO ROLA Cat Water Fountain User Manual

Model: ROLA Smart Pet Water Fountain | Brand: Enabot EBO

Introduction

The Enabot EBO ROLA Cat Water Fountain is a cordless, battery-operated smart pet fountain designed to provide fresh and clean drinking water for your cats. Featuring a pumpless design, stainless steel tray, and wireless connectivity via a phone app, it offers convenience and ensures optimal hydration for your furry companions. This manual provides essential information for setup, operation, maintenance, and troubleshooting.

Product Features

- **Magnetic Induction Wireless Water Pump:** Ensures complete water-electricity separation for safety and fresh drinking water.
- **Remote Hydration Check with ROLA App:** Monitor your cat's hydration and fountain status from anywhere via the ROLA App (requires 2.4 GHz Wi-Fi).
- **Easy Setup and Cleaning:** Features a detachable water tank and wireless pump for effortless cleaning. Includes a 304 stainless steel tray and a 3-layer filter for clean water.
- **Long Battery Life & Silent Circulation:** Powered by a 5000 mAh rechargeable battery, providing quiet operation.
- **Customized Water Modes:** Choose between a continuous stream (requires being plugged in) or a sensing stream mode that activates when your pet approaches.

What's in the Box

Your Enabot EBO ROLA Cat Water Fountain package includes the following items:

- ROLA Smart Pet Water Fountain x1
- Sponge x1
- USB-C cable x1
- Filter x1
- User manual x1

Image: All components included in the product packaging: the ROLA Smart Pet Water Fountain, a sponge, a filter, a USB-C charging cable, and the user manual.

Setup

Initial Assembly

1. Unpack all components from the box.
2. Ensure the wireless pump is correctly seated in the detachable water tank.
3. Place the 3-layer filter and sponge into their designated slots within the water tank.
4. Fill the water tank with clean water up to the maximum fill line.
5. Place the stainless steel tray on top of the water tank.
6. Align the water tank assembly with the battery-operated base unit and gently place it on top. The magnetic induction will connect the pump to the power source.

App Connection (2.4 GHz Wi-Fi Only)

To utilize smart features and remote monitoring, connect your fountain to the ROLA App:

1. Download the ROLA App from your device's app store.
2. Open the app and follow the on-screen instructions to create an account or log in.
3. Add a new device and select the ROLA Smart Pet Water Fountain.
4. Ensure your smartphone is connected to a 2.4 GHz Wi-Fi network. The fountain only works with 2.4 GHz Wi-Fi.
5. Follow the app's prompts to connect the fountain to your Wi-Fi network. This may involve pressing a button on the fountain to enter pairing mode.

Operating Instructions

Powering On/Off

The fountain automatically powers on when the water tank is correctly placed on the base unit and water is detected. To turn off, simply lift the water tank from the base.

Changing Water Modes

The ROLA Smart Pet Water Fountain offers two primary water modes:

- **Continuous Stream Mode:** Provides a constant flow of water. This mode requires the fountain to be plugged in via the USB-C cable.
- **Sensing Stream Mode:** Activates the water flow only when your pet approaches the fountain, conserving battery life.

You can switch between modes using the button on the front of the base unit or through the ROLA App.

Monitoring Hydration with the App

The ROLA App allows you to:

- View daily hydration times and duration.
- Check the current water level.
- Receive notifications for low water level, low battery, filter replacement, and device cleaning reminders.
- Adjust settings and modes remotely.

Maintenance

Regular maintenance is crucial for the longevity of your fountain and the health of your pet. Keep the fountain indoors.

Weekly Cleaning

- Disassemble the water tank, stainless steel tray, and wireless pump.
- Wash all parts that come into contact with water using mild soap and water. The detachable design allows for easy cleaning without special tools.

- Rinse thoroughly to remove any soap residue.
- **Note:** The battery-operated base unit is not washable and should not be submerged in water. Wipe it clean with a damp cloth if necessary.

Monthly Filter Replacement

It is recommended to change the 3-layer filter monthly to ensure optimal water quality and filtration of impurities, hair, and odors.

Troubleshooting

If you encounter issues with your ROLA Smart Pet Water Fountain, refer to the following common solutions:

Problem	Possible Cause	Solution
Fountain not dispensing water.	Low water level, pump not properly seated, low battery, continuous mode not plugged in.	Refill water tank. Ensure water tank is correctly placed on the base. Charge the fountain. If in continuous mode, ensure it is plugged in.
App not connecting to fountain.	Incorrect Wi-Fi frequency, poor Wi-Fi signal, pairing mode not activated.	Ensure your Wi-Fi is 2.4 GHz. Move fountain closer to router. Re-enter pairing mode on the fountain and try connecting again via the app.
Fountain is noisy.	Low water level.	Add more water to the tank. The fountain is designed for ultra-quiet operation when water levels are adequate.
Water appears dirty or has odor.	Filter needs replacement, fountain needs cleaning.	Replace the 3-layer filter. Perform a thorough cleaning of all washable components.
