Pibbs PIB-520

Pibbs 520 Futura Dri Gold Salon Hair Dryer: Instruction Manual

Model: PIB-520

1. Introduction

The Pibbs 520 Futura Dri Gold Dryer is a professional-grade, Italian-made hair dryer designed for efficient hair drying, setting, and processing treatments. This model features an 1100-watt motor, adjustable stand, and mobile casters for versatile use in various environments.

2. Safety Information

- **Electrical Safety:** Always ensure the dryer is plugged into a grounded outlet with the correct voltage (110-125V, 60Hz). Do not operate with wet hands or near water.
- **Heat Caution:** The dryer operates at high temperatures. Avoid direct contact with the heating elements. Ensure adequate ventilation during use.
- **Adjusting Height:** When adjusting the stand height, ensure the locking mechanism is securely fastened to prevent accidental drops. Refer to the adjustment knob instructions.
- **Proposition 65 Warning:** This product may contain chemicals known to the State of California to cause cancer and birth defects or other reproductive harm.

3. Product Features

- **Professional-Grade Construction:** Manufactured in Italy with robust materials for durability and high-volume use.
- **Powerful Motor:** Equipped with an 1100-watt motor for consistent and even heat distribution.
- **Adjustable Stand:** Features a fully height-adjustable base and a tilting dryer hood to accommodate various user heights and positions.
- **Mobility:** Mounted on smooth-rolling casters for easy movement and positioning within a salon or home

environment.

- **Control Options:** Includes a 0-60 minute timer and an adjustable temperature dial for precise heat management.
- **CE Certified:** Ensures compliance with European safety, health, and environmental protection standards.

4. Package Contents

Upon unpacking, verify that all components are present:

- Pibbs 520 Futura Dri Gold Dryer Head
- Adjustable Stand Pole
- Caster Base with Wheels
- Power Cord
- Instruction Manual

5. Setup and Assembly

1. **Attach Caster Base:** Securely attach the caster base to the bottom of the adjustable stand pole. Ensure all wheels are properly inserted and the base is stable.
2. **Attach Dryer Head:** Mount the dryer head onto the top of the adjustable stand pole. Ensure it is firmly seated and the tilting mechanism operates smoothly.
3. **Adjust Height:** Loosen the height adjustment knob on the stand pole. Extend or retract the pole to the desired height. Tighten the knob firmly to secure the position.
4. **Connect Power:** Plug the power cord into a suitable electrical outlet.

6. Operating Instructions

1. **Power On:** Locate the power switch on the dryer head and turn it to the 'ON' position.
2. **Set Timer:** Use the timer dial to select the desired drying duration, from 0 to 60 minutes. The dryer will automatically shut off once the set time has elapsed.
3. **Adjust Temperature:** Rotate the temperature control dial to select the appropriate heat level for the hair type and treatment.
4. **Position Hood:** Gently lower the dryer hood over the client's head. The flip-top visor provides convenient access. Ensure the hood is comfortably positioned without touching the hair directly.
5. **Monitor Progress:** Periodically check the hair's condition and temperature to prevent overheating.
6. **Power Off:** Once drying is complete, turn the power switch to 'OFF' and allow the dryer to cool before moving or storing.

Figure 4: The control panel features a timer and temperature dial for precise operation.

7. Maintenance

- **Cleaning:** Regularly wipe down the exterior of the dryer with a soft, damp cloth. Avoid abrasive cleaners.
- **Vent Cleaning:** Periodically inspect the air intake and exhaust vents for any lint or hair buildup. Gently clean with a soft brush or vacuum cleaner attachment to ensure optimal airflow and prevent overheating.
- **Storage:** When not in use, store the dryer in a cool, dry place. Ensure the power cord is neatly wrapped to prevent damage.

Figure 5: The underside of the dryer hood, showing the air vent that requires periodic cleaning.

8. Troubleshooting

- **Dryer Not Turning On:** Check if the power cord is securely plugged into a working outlet. Ensure the power switch is in the 'ON' position.
- **No Heat:** Verify that the temperature dial is set to a heat setting and not 'COOL'. Allow a few minutes for the heating element to warm up.
- **Unusual Noise/Smell:** Immediately turn off the dryer and unplug it. Inspect for any obstructions in the vents. If the issue persists, contact customer support.
- **Dryer Shuts Off Unexpectedly:** This may indicate overheating. Turn off the dryer, unplug it, and allow it to cool down. Check for blocked vents.

9. Specifications

Product Dimensions	13 x 16 x 72 inches
Item Weight	30 Pounds
Model Number	PIB-520
Brand	Pibbs
Color	Gold
Material	Plastic
Wattage	1100 watts
Power Source	Corded Electric
