Oakley OO 4145

Oakley OO4145 Sunglasses and Leash Accessory Kit User Manual

Introduction

This manual provides instructions for the proper use, care, and maintenance of your Oakley OO4145 Sunglasses and the accompanying leash accessory kit. Please read this manual thoroughly before using your product to ensure optimal performance and longevity.
The Oakley OO4145 sunglasses are designed for comfort and durability, featuring a lightweight frame and Prizm Daily Polarized lenses. The included leash accessory kit provides added security during activities.

Package Contents

Verify that all items are present in your package:

- Oakley OO4145 Sunglasses (Pewter frame with Prizm Daily Polarized lenses)
- Large Black Leash Accessory
- Protective Carrying Case

Setup

Attaching the Leash Accessory

1. Locate the ends of the black leash accessory. Each end has a small, flexible loop or connector designed to fit securely onto the sunglass temples.
2. Gently slide one loop of the leash onto the end of one sunglass temple (arm). Ensure it is pushed firmly into place to prevent accidental detachment.
3. Repeat the process for the other end of the leash and the other sunglass temple.
4. Once attached, the leash should hang freely, allowing the sunglasses to rest comfortably around your neck when not worn on your face.

Operating Instructions

Wearing the Sunglasses

- Place the sunglasses on your face, ensuring the nose pads rest comfortably on your nose bridge and the temples extend over your ears.
- The lightweight frame is designed for all-day comfort. If the fit feels too loose or too tight, minor adjustments to the nose pads may be possible by a qualified optician.

Using the Leash Accessory

- When not wearing the sunglasses on your face, the attached leash allows them to hang securely around your neck, preventing accidental drops or loss during activities.
- Ensure the leash is not twisted or caught on clothing to avoid discomfort or damage to the sunglasses.

Maintenance and Care

Cleaning Lenses and Frame

- To clean your lenses, use a clean microfiber cloth specifically designed for eyewear. Avoid using paper towels, clothing, or abrasive materials, as these can scratch the lenses.
- For stubborn smudges, rinse the lenses with lukewarm water and a mild soap (avoid harsh chemicals or alcohol-based cleaners). Gently dry with a clean microfiber cloth.
- Clean the frame and temples with a damp cloth and mild soap if necessary.

Storage

- Always store your Oakley sunglasses in the provided protective carrying case when not in use. This protects them from scratches, dust, and impact.
- Avoid leaving sunglasses in direct sunlight for extended periods, especially in hot environments like a car dashboard, as extreme heat can damage the frame and lens coatings.

Leash Accessory Care

- The leash accessory can be wiped clean with a damp cloth. Ensure it is dry before reattaching to the sunglasses.
- Inspect the leash periodically for any signs of wear or damage. Replace if necessary to maintain security.

Troubleshooting

Common Issues and Solutions

- **Lenses appear smudged or dirty:** Clean with a microfiber cloth and, if needed, lukewarm water with mild soap. Avoid harsh chemicals.
- **Sunglasses feel loose:** Check if the screws on the hinges are tight. If not, a small eyewear screwdriver can be used to gently tighten them. For persistent fit issues, consult a professional optician.
- **Leash detaches easily:** Ensure the leash connectors are fully seated onto the sunglass temples. If the connectors are worn, consider replacing the leash accessory.
- **Scratched lenses:** Unfortunately, scratches on lenses are generally permanent. Proper cleaning and storage in the protective case can prevent future scratches.

Specifications

Feature	Detail
Model Number	OO 4145
Brand	Oakley
Frame Color	Pewter
Lens Color	PRIZM DAILY POLARIZED

Lens Type	Polycarbonate
Polarization Type	Polarized
Lens Coating	UV Protection Coating
