- **Versatile Connectivity:** The AU-4 speaker has Bluetooth capability and line inputs that allow it to accept various music signals, making it suitable for home, professional, or mobile use. It can also operate with any international AC voltage, catering to travelers and users worldwide.
- **Suitable for Any Space:** This compact speaker is designed to fit seamlessly in any room. Whether it's the kitchen counter, living room, bedroom, dining room, office, shelf, or any other space, this versatile speaker can be placed practically anywhere.

WHAT'S IN THE BOX

- AirPulse Wireless Bluetooth Home-use Speaker (AU-4)
- Power Cable
- User Manual (this document)

SETUP

1. Power Connection

1. Connect the provided power cable to the power input port on the back of the speaker.

2. Plug the other end of the power cable into a standard AC power outlet.

2. Initial Power On

1. Locate the Power ON/OFF switch on the top panel of the speaker.
2. Flip the switch to the 'ON' position to power on the speaker.

3. Connecting Audio Sources

The AU-4 speaker supports multiple input methods:

- **Bluetooth Pairing:**

1. Ensure the input switch is set to the 'Bluetooth' (middle) position. The Bluetooth indicator light will blink, indicating pairing mode.
2. On your device (smartphone, tablet, computer), enable Bluetooth and search for 'AU-4'.
3. Select 'AU-4' from the list of available devices to pair. Once connected, the Bluetooth indicator light will become solid.
4. To reset Bluetooth and pair with a new device, push up and hold the 'RESET' switch for 3 seconds.

- **AUX Input:**

1. Set the input switch to the 'AUX' (up) position.
2. Connect your audio device (e.g., smartphone, MP3 player) to the 'AUX IN' 3.5mm stereo input using a 3.5mm audio cable.

- **Line Input:**

1. Set the input switch to the 'LINE' (down) position.
2. Connect your musical instrument or audio device (e.g., acoustic guitar, electric bass, keyboard) to the 'LINE IN' 6.35mm (1/4 Inch) stereo input using a 6.35mm audio cable.

EASY TO CONTROL

 **Bluetooth™ 5.1**

Setup and Operation Video Guide

Video: An official guide from the seller demonstrating how to set up and use the AirPulse AU-4 Compact Bluetooth Speaker, including power on, input selection, Bluetooth pairing, and control adjustments.

OPERATING THE SPEAKER

1. Adjusting Audio

Use the control knobs on the top panel to fine-tune your audio experience:

- **BASS:** Adjusts the low-frequency output. Turn clockwise for more bass, counter-clockwise for less.
- **TREBLE:** Adjusts the high-frequency output. Turn clockwise for more treble, counter-clockwise for less.
- **VOLUME:** Controls the overall output volume. Turn clockwise to increase volume, counter-clockwise to decrease.

2. Play/Pause Function

In Bluetooth mode, push down the 'RESET' switch to pause or resume music playback.

MAINTENANCE

To ensure the longevity and optimal performance of your AirPulse AU-4 speaker, follow these maintenance guidelines:

- **Cleaning:** Use a soft, dry cloth to wipe down the speaker's exterior. Avoid using abrasive cleaners, solvents, or chemical sprays, as these can damage the finish.
- **Storage:** When not in use for extended periods, store the speaker in a cool, dry place away from direct sunlight and extreme temperatures.
- **Handling:** Handle the speaker with care. Avoid dropping it or subjecting it to strong impacts, which can damage internal components.
- **Ventilation:** Ensure proper ventilation around the speaker to prevent overheating. Do not block any ventilation openings.

TROUBLESHOOTING

If you encounter any issues with your AirPulse AU-4 speaker, please refer to the following common problems and solutions:

Problem	Possible Cause	Solution
No power	Power cable not connected; Power switch off	Ensure power cable is securely plugged in; Flip power switch to 'ON'
No sound	Volume too low; Incorrect input selected; Audio cable loose/damaged	Increase volume; Select correct input (Bluetooth, AUX, Line); Check/replace audio cables
Bluetooth not connecting	Speaker not in pairing mode; Device too far; Interference	Ensure input is set to Bluetooth and indicator is blinking; Move device closer; Reset Bluetooth on speaker (hold RESET for 3s) and device
Sound distortion	Volume too high; Source audio quality poor	Lower volume; Try a different audio source or file

If the problem persists after trying these solutions, please contact AirPulse customer support for further assistance.
