## Hotdot HW-09

# Hotdot Rechargeable Hand Warmer HW-09 Instruction Manual

Model: HW-09

## INTRODUCTION

Thank you for choosing the Hotdot Rechargeable Hand Warmer HW-09. This device is designed to provide portable and rapid warmth, featuring a long-lasting battery and intelligent temperature control. Please read this manual thoroughly before use to ensure proper operation and to maximize the product's lifespan.

## SAFETY INFORMATION

- Do not expose the device to extreme temperatures (above 140°F / 60°C or below 0°F / -18°C).
- Avoid dropping or subjecting the device to strong impacts.
- Do not immerse the device in water or other liquids.
- Keep out of reach of children and pets.
- Do not attempt to disassemble, repair, or modify the device. This will void the warranty and may cause harm.
- Use only the provided charging cable or a certified equivalent.
- If the device becomes excessively hot, emits smoke, or shows any signs of damage, discontinue use immediately and contact support.
- Do not use while sleeping.
- Individuals with sensitive skin or circulatory issues should consult a physician before use.

## SETUP

---

## Initial Charging

1. Before first use, fully charge the hand warmer.
2. Connect the provided charging cable to the hand warmer's charging port.
3. Connect the other end of the cable to a USB power adapter (not included) or a computer's USB port.
4. The indicator light will show charging status (e.g., blinking while charging, solid when fully charged).
5. Charging typically takes 2-3 hours for a full charge.

## OPERATING INSTRUCTIONS

---

### Power On/Off

- To turn on: Press and hold the power button for 3 seconds. The device will activate and begin heating to the last used temperature setting.
- To turn off: Press and hold the power button for 3 seconds. The heating function will cease, and the indicator lights will turn off.

### Temperature Settings

The hand warmer offers three temperature levels. Once the device is on, short press the power button to cycle through the settings:

- **Level 1 (Low):** 104°F - 113°F (40°C - 45°C) - Up to 20 hours of warmth.
- **Level 2 (Medium):** 113°F - 122°F (45°C - 50°C) - Up to 13 hours of warmth.
- **Level 3 (High):** 122°F - 131°F (50°C - 55°C) - Up to 9.5 hours of warmth.

The indicator lights will change to reflect the current temperature level.

Image: Graphic highlighting the extended battery life of up to 20 hours on the lowest heat setting, with a note that actual battery life may vary based on usage conditions.

## CHARGING INSTRUCTIONS

---

- When the battery is low, the indicator lights will flash rapidly.
- Connect the hand warmer to a power source using the provided USB charging cable.
- Ensure the power source is 5V/2A for optimal charging speed.
- Do not use the hand warmer's heating function while it is charging.
- Disconnect the charger once the device is fully charged to preserve battery health.

## MAINTENANCE

---

### Cleaning

- Ensure the device is turned off and cool before cleaning.
- Wipe the surface with a soft, dry cloth.
- Do not use abrasive cleaners, solvents, or immerse in water.

## Storage

- Store the hand warmer in a cool, dry place when not in use.
- Avoid storing in direct sunlight or areas with high humidity.
- For long-term storage, charge the device to approximately 50% every 3 months to maintain battery health.

## TROUBLESHOOTING

Problem	Possible Cause	Solution
Device does not turn on.	Battery is depleted.	Charge the device fully.
Device not heating.	Not powered on, or low battery.	Ensure device is powered on. Check battery level and charge if necessary.
Short battery life.	Using high temperature setting, or battery degradation over time.	Use lower temperature settings for longer duration. Ensure full charge.
Device gets too hot.	Malfunction.	Immediately turn off the device and contact customer support.

## SPECIFICATIONS

Feature	Detail
