- Up to 10 days of battery life (700 mAh battery)
- IP68 Water Resistance (up to 1.5 meters for 30 minutes)
- Compatible with iOS and Android smartphones

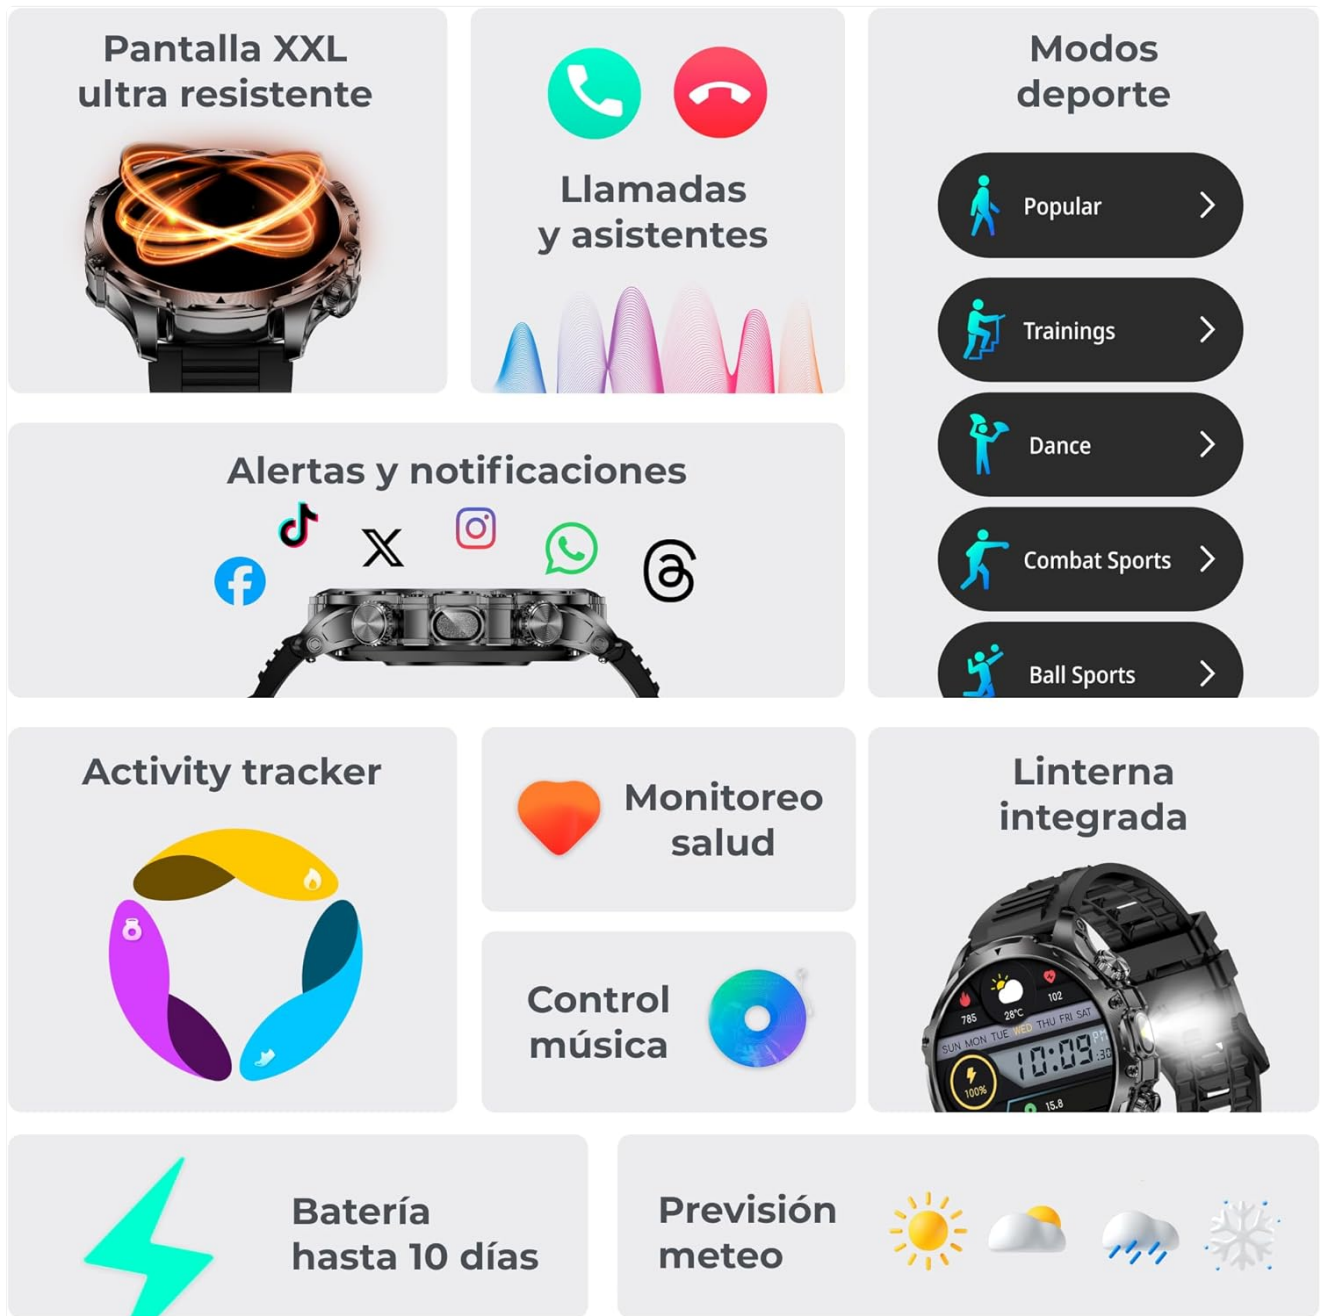

Image 2.1: Visual summary of the smartwatch's main functionalities.

3. SETUP

3.1 Charging the Smartwatch

Before first use, fully charge your smartwatch. Connect the charging cable to the charging port on the back of the watch and to a USB power adapter (not included). The screen will indicate charging status. A full charge takes approximately 4 hours.

3.2 Power On/Off

- **Power On:** Press and hold the power button (usually the top right button) until the screen lights up.
- **Power Off:** Press and hold the power button, then select "Power Off" on the screen.

3.3 Pairing with Your Smartphone

1. Download the **Da Fit** app from your smartphone's app store (iOS or Android).
2. Ensure Bluetooth is enabled on your smartphone.
3. Open the Da Fit app and follow the on-screen instructions to create an account or log in.
4. In the app, navigate to "Device" or "Add Device" and select your KSIX Venture Smartwatch from the list of available devices.
5. Confirm the pairing request on both your smartwatch and smartphone.
6. Once paired, the smartwatch will synchronize data with the app.

4. OPERATING INSTRUCTIONS

4.1 Basic Navigation

- **Touch Screen:** Swipe left/right, up/down to navigate through menus and features. Tap to select.
- **Side Buttons:** Use the physical buttons on the side for quick access to functions or to return to the home screen.

4.2 Customizing Watch Faces

You can change the watch face directly on the smartwatch by long-pressing the home screen or through the Da Fit app for more options.

5. HEALTH MONITORING

The KSIX Venture Smartwatch offers continuous health monitoring features. For accurate readings, ensure the watch is worn snugly on your wrist.

- **Heart Rate:** Monitors your heart rate throughout the day.
- **Blood Oxygen (SpO2):** Measures the oxygen saturation level in your blood.
- **Blood Pressure:** Provides an estimate of your blood pressure.
- **Sleep Tracking:** Analyzes your sleep patterns, including deep sleep, light sleep, and wake times.
- **Stress Monitoring:** Tracks your stress levels.
- **Menstrual Cycle Tracking:** Helps women track their menstrual cycles.

Note: The health data provided by this device is for reference only and should not be used for medical diagnosis or treatment. Consult a medical professional for any health concerns.

Image 5.1: Health and activity tracking interface.

6. SPORTS MODES

The smartwatch includes multiple sports modes to track your workouts.

1. Navigate to the "Sports" menu on your smartwatch.
2. Select your desired activity (e.g., Running, Cycling, Walking, etc.).
3. Press the start button to begin tracking. The watch will record duration, calories burned, heart rate, and other relevant metrics.
4. Press the stop button to end the workout. Data will be synchronized with the Da Fit app.
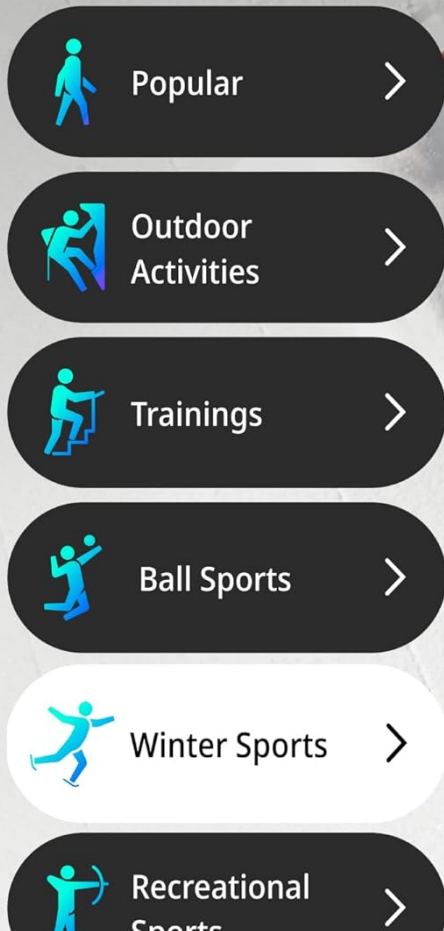

Image 6.1: Sports mode selection and weather integration.

7. CALLS AND NOTIFICATIONS

Stay connected by managing calls and notifications directly from your wrist.

7.1 Bluetooth Calling

- **Making Calls:** Access your contacts or dial a number directly from the smartwatch.
- **Receiving Calls:** Answer, reject, or mute incoming calls without taking out your phone.

7.2 App Notifications

Receive alerts from your favorite social media and messaging apps. Ensure notification permissions are enabled in the Da Fit app and your phone settings.

9. MAINTENANCE

9.1 Water Resistance (IP68)

The KSIX Venture Smartwatch is IP68 water-resistant, meaning it can withstand immersion in water up to 1.5 meters deep for a maximum of 30 minutes. It is suitable for daily use and light water activities like hand washing or rain exposure. Avoid hot water, steam, or prolonged immersion in water. Do not press buttons underwater.

9.2 Cleaning

Clean your smartwatch regularly with a soft, dry cloth. If necessary, use a slightly damp cloth and then dry thoroughly. Avoid using harsh chemicals or abrasive materials.

9.3 Storage

When not in use for extended periods, store the smartwatch in a cool, dry place.

10. TROUBLESHOOTING

10.1 Smartwatch Not Turning On

- Ensure the battery is charged. Connect the smartwatch to its charger for at least 30 minutes.
- Try pressing and holding the power button for 10-15 seconds.

10.2 Unable to Pair with Smartphone

- Make sure Bluetooth is enabled on your smartphone.
- Ensure the smartwatch is within Bluetooth range of your phone.
- Restart both your smartphone and smartwatch.
- Clear the Bluetooth cache on your phone (if applicable) and try pairing again.
- Ensure the Da Fit app has necessary permissions.

10.3 Inaccurate Health Data

- Ensure the smartwatch is worn snugly on your wrist, not too loose or too tight.
- Avoid excessive movement during measurements.
- Clean the sensors on the back of the watch.

10.4 Notifications Not Appearing

- Check if the smartwatch is properly connected to the Da Fit app.
- Verify that notification permissions are enabled for the Da Fit app in your phone's settings.
- Ensure notifications are enabled for specific apps within the Da Fit app.
