Product Overview

This lot includes three authentic Pokémon cards that represent an evolutionary line: Froakie, Frogadier, and Greninja ex. These cards are designed for use within the Pokémon Trading Card Game (TCG) and are also valuable collectibles. The Greninja ex card is a powerful Stage 2 Pokémon, evolving from Frogadier, which in turn evolves from Froakie.

This image displays the three Pokémon cards included in the lot: Greninja ex (left), Frogadier (center), and Froakie (right). Each card features unique artwork, HP, attacks, and other game-relevant information.

Gameplay Integration

These cards form an evolutionary chain, allowing players to evolve Froakie into Frogadier, and then into Greninja ex during a game. This strategy provides a progression of increasing HP and attack power, culminating in the powerful Greninja ex. Understanding the evolution mechanics and energy requirements for each attack is crucial for effective gameplay.

Evolution Steps:

1. Start with **Froakie** as your Basic Pokémon.
2. On a subsequent turn, you can evolve Froakie into**Frogadier** by placing the Frogadier card on top of Froakie.
3. On another subsequent turn, you can evolve Frogadier into**Greninja ex** by placing the Greninja ex card on top of Frogadier.

Remember to manage your energy attachments to power up Greninja ex's attacks and be mindful of its Pokémon ex

Rule, which grants your opponent two Prize cards if it is Knocked Out.

Care and Storage

To maintain the condition and value of your Pokémon cards, follow these care and storage guidelines:

- **Sleeving:** Always place cards in protective sleeves immediately after handling to prevent scratches and wear.
- **Binders/Toploaders:** For long-term storage or display, use acid-free binders with nine-pocket pages or rigid toploaders to prevent bending and damage.
- **Environment:** Store cards in a cool, dry place away from direct sunlight, extreme temperatures, and humidity. These conditions can cause warping, fading, or mold.
- **Handling:** Handle cards by their edges to avoid transferring oils and dirt from your hands to the card surface.
