MEREDO G38-US

MEREDO G38 3.1CH Sound Bar with Subwoofer RGB Light

Instruction Manual

Model: G38-US | Brand: MEREDO

1. INTRODUCTION

The MEREDO G38 is a 3.1 channel sound bar system designed to elevate your home entertainment experience. Featuring a powerful wired subwoofer and integrated RGB lighting, it delivers immersive audio for movies, music, and gaming. With multiple connectivity options and customizable sound and light settings, the G38 is a versatile audio solution for various devices and environments.

3. PRODUCT OVERVIEW

The MEREDO G38 sound bar system is engineered for a captivating audio-visual experience. It features an ultra-slim design with a 39.9mm profile, housing 2 full-range speakers and 2 treble speakers. The powerful 5-inch wired subwoofer utilizes BassMax technology to deliver deep, resonant bass, contributing to a peak power output of 160W.

Integrated RGB Lighting

The sound bar includes an RGB ambient light strip that synchronizes with audio, offering 6 colors, colorful flow, and 4 rhythm modes. This allows for customizable lighting effects to match various scenes, enhancing your home theater, gaming, or music party experience. The lights can also be turned off if desired.

Simple Control Buttons

4. SETUP AND INSTALLATION

The MEREDO G38 offers flexible placement options to suit your setup, including tabletop and wall-mounting.

Placement Options

- **Tabletop Placement:** Use the included short or tall stands to position the sound bar on a flat surface, such as a TV stand or desk. This helps prevent blocking the TV's infrared receiver.
- **Wall Mount:** Utilize the provided wall brackets and mounting screws to securely attach the sound bar to a wall.

Image 4.1: Various placement options for the MEREDO G38, including tabletop with different stand heights and wall mounting.

Connecting Your Devices

The G38 sound bar supports a wide range of connectivity options:

- **HD-ARC:** Connect to your TV's ARC/eARC port using the included ARC cable for high-quality audio and TV remote control integration. Ensure your TV's ARC function is enabled.
- **Optical:** Use the optical cable to connect to devices with an optical audio output.
- **AUX:** Connect via the 3.5mm AUX cable to devices with an analog audio output.
- **USB:** Connect to PCs or use a USB stick for audio playback. Ensure your PC's USB port supports audio output for cable connections.
- **Bluetooth 5.3:** Pair wirelessly with smartphones, tablets, and other Bluetooth-enabled devices for seamless audio streaming.

Image 4.2: The MEREDO G38 supports various connectivity options including HD-ARC, Optical, USB, Bluetooth 5.3, and AUX.

Image 4.3: Detailed view of the rear panel ports on the MEREDO G38 Sound Bar, showing DC IN, Optical, HD-ARC, AUX, USB, and SUB connections.

Note:

- The MEREDO sound bar does not support Dolby/DTS audio formats.
- The included subwoofer is wired, not wireless.

5. OPERATING INSTRUCTIONS

Remote Control Functions

The included remote control provides full command over the sound bar's features, including power, input selection, volume, EQ modes, and lighting effects. Insert 2 AAA batteries (not included) into the remote before use.

Lighting That Reacts To Your Beats

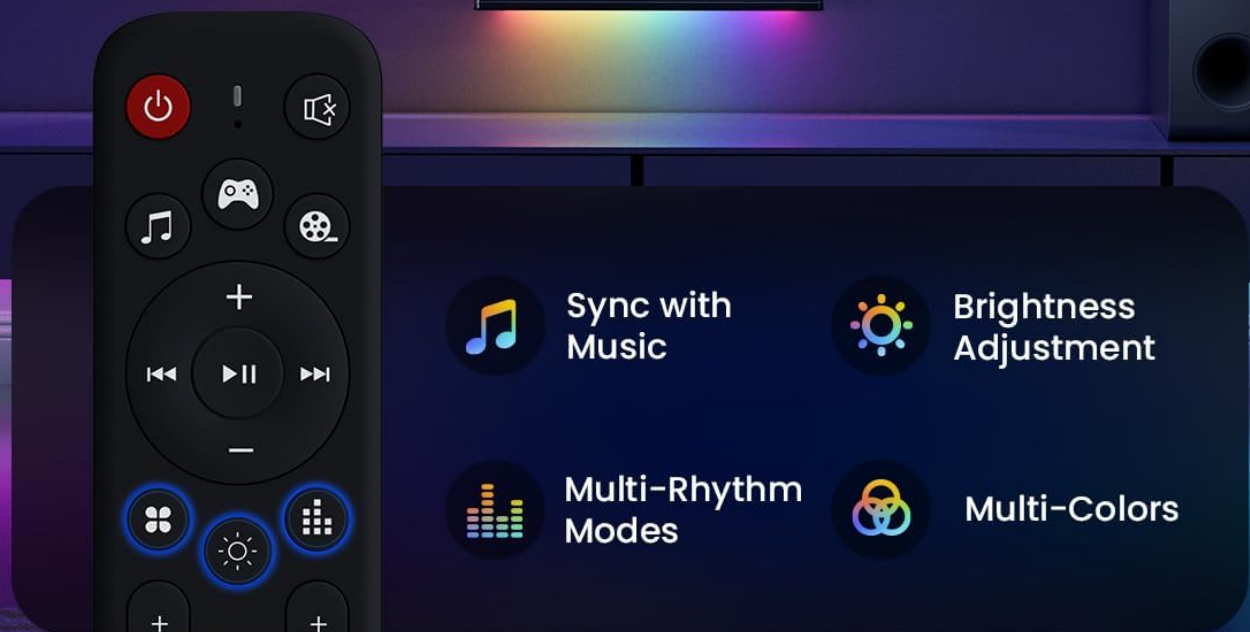

Image 5.1: The MEREDO G38 remote control, illustrating its functions for syncing lighting with music, brightness adjustment, multi-rhythm modes, and multi-colors.

EQ Modes and Audio Customization

The G38 offers 3 classic EQ modes to optimize your listening experience:

- **Movie EQ:** Enhances dialogue clarity and cinematic effects.
- **Game EQ:** Optimizes sound for gaming, enhancing immersion and directional audio cues.

- **Music EQ:** Provides a balanced sound profile for music playback.

You can also customize bass and treble levels independently using the remote control to fine-tune the audio to your preference.

RGB Lighting Control

Adjust the RGB ambient lighting to create the perfect atmosphere:

- Select from 6 static colors or a colorful flow mode.
- Choose from 4 rhythm modes that synchronize with the audio.
- Adjust the brightness of the lights.
- The lights can be turned off completely if not desired.

6. PC GAMING FEATURES

The MEREDO G38 is specifically designed to enhance the PC gaming experience, offering features beyond standard sound bars.

- **Easy USB Connection:** Connect directly to your computer via USB for high-quality audio transfer.
- **Dedicated Headphone Jack:** A convenient headphone jack allows for quick switching between sound bar audio and private listening with headphones.
- **One-click Game EQ:** Instantly optimize audio settings for gaming, enhancing immersion and sound cues.
- **Dynamic Game Lighting:** The Light Rhythm F4 mode uses red, blue, and yellow colors to distinguish sound intensity in shooting games, providing a unique tactical advantage.

7. MAINTENANCE

To ensure the longevity and optimal performance of your MEREDO G38 Sound Bar, follow these simple maintenance guidelines:

- **Cleaning:** Use a soft, dry cloth to wipe down the surfaces of the sound bar and subwoofer. Avoid using abrasive cleaners, waxes, or solvents as they may damage the finish.
- **Ventilation:** Ensure proper ventilation around the sound bar and subwoofer. Do not block any ventilation openings.
- **Environment:** Keep the unit away from direct sunlight, heat sources, excessive dust, moisture, or extreme temperatures.
- **Handling:** Handle the sound bar and subwoofer with care. Avoid dropping or subjecting them to strong impacts.

8. TROUBLESHOOTING

If you encounter any issues with your MEREDO G38 Sound Bar, please refer to the following common troubleshooting steps:

No Sound

- Ensure the sound bar is powered on and the volume is not muted or set too low.
- Verify that the correct input source (e.g., ARC, Optical, AUX, USB, BT) is selected on the sound bar.
- Check all cable connections (power, audio cables) to ensure they are securely plugged in.
- If using ARC, confirm that your TV's ARC/eARC function is enabled and the TV's audio output is set to the external speaker.
- If using Bluetooth, ensure the sound bar is paired correctly with your device and the device's volume is up.

Distorted Sound or Low Bass

- Adjust the bass and treble settings using the remote control.
- Ensure the subwoofer cable is securely connected to the sound bar.
- Check the audio source for quality issues. Try a different source or file.
- Ensure the sound bar and subwoofer are placed on a stable surface and not vibrating against other objects.

Remote Control Not Working

- Check and replace the batteries in the remote control (requires 2 AAA batteries).
- Ensure there are no obstructions between the remote control and the sound bar's sensor.
- Point the remote directly at the sound bar.

RGB Lights Not Functioning

- Ensure the lighting feature is enabled via the remote control.
- Try cycling through different lighting modes and colors.

If the issue persists after trying these steps, please refer to the [Warranty and Support](#) section for further assistance.
