COCLUB OHT001

COCLUB Inflatable Square Hot Tub Spa Set User Manual

Model: OHT001

INTRODUCTION

Welcome to the COCLUB Inflatable Square Hot Tub Spa Set. This manual provides essential information for the safe and efficient setup, operation, and maintenance of your new portable hot tub. Please read all instructions carefully before use to ensure optimal performance and longevity of your product.

This hot tub is designed for outdoor use, providing a relaxing bubble massage experience for 4-6 persons. It features a built-in heater pump and comes with an insulated cover for energy efficiency.

PRODUCT FEATURES

- **Ultimate Backyard Luxury:** Crafted from premium laminated PVC for long-lasting durability and comfort.
- **Personalized Temperature Control:** Adjustable water temperature up to 104°F (40°C) for a customized spa experience.
- **Immersive Bubble Massage Experience:** Features 130 powerful air jets powered by a 600W motor for full-body relaxation.
- **Versatile Covers for Efficiency and Safety:** Includes an inflatable cover for faster heating and debris prevention, and a heat-retaining cover with a child safety lock.
- **Comprehensive Accessory Kit:** Comes with high-performance filters, an inflatable hose, a protective PE ground mat, and a stylish storage bag.

WHAT'S IN THE BOX

The COCLUB Inflatable Hot Tub Spa Set includes the following components:

- Inflatable Spa Pool x 1
- Heated Insulation Cover x 1
- Inflatable Cover x 1
- Filter Cartridges x 6
- Filter Cover x 2
- Inflation Hose x 1

- Wrench x 1
- Child Safety Key x 2
- PE Ground Mat x 1
- Adapter x 1
- Storage Bag x 1
- Repair Patch x 2

SETUP GUIDE

- Choose a Suitable Location:** Select a flat, stable surface outdoors that can support the weight of the filled hot tub (approximately 240 gallons of water plus occupants). Ensure the area is clear of sharp objects and debris. A protective PE ground mat is included for this purpose.
- Lay Out the Ground Mat:** Place the protective PE ground mat on your chosen surface.
- Position the Hot Tub:** Carefully unfold and position the inflatable spa pool on the ground mat.
- Inflate the Hot Tub:** Connect the inflation hose to the hot tub's air valve and use the built-in pump to inflate the spa until it is firm. Do not overinflate.
- Install Filters:** Insert the filter cartridges into their designated compartments inside the hot tub.
- Fill with Water:** Fill the hot tub with water using a garden hose. Ensure the water level is between the 'Min' and 'Max' fill lines indicated on the interior wall of the hot tub. The hot tub has a capacity of 240 gallons.

7. **Inflate Covers:** Inflate the inflatable cover and prepare the heat-retaining cover.

OPERATING INSTRUCTIONS

Control Panel Overview

The hot tub features a user-friendly digital control panel for easy operation of all functions.

MULTIFUNCTIONAL DIGITAL CONTROL PANEL

Filtration Rate
6 gpm

Max Temperature
104°F

Min Temperature
Adjustable

Filter Filtration
30W

Heating Power
1350W

Wave-Making
600W

Image: Close-up of the digital control panel showing various functions like filtration rate, max/min temperature, filter, heating, and wave-making.

Temperature Control

Use the temperature adjustment buttons on the control panel to set your desired water temperature, up to a maximum of 104°F (40°C). The heater function can be activated via the control panel.

Bubble Massage System

Activate the 130 powerful air jets using the 'Bubble' button on the control panel for a relaxing massage experience.

Heating Guide

The heating time for the hot tub varies depending on the ambient temperature and the starting water temperature. On average, the water temperature increases by 1-1.5°C (2-3°F) per hour. Using the insulated cover significantly helps in retaining heat and speeding up the process.

Ambient Temp	Water Temp (Start)	Set Temp (104°F/40°C)	Estimated Heating Time
--------------	--------------------	-----------------------	------------------------

10°C / 50°F	10°C / 50°F	40°C / 104°F	23 Hours
15°C / 59°F	15°C / 59°F	40°C / 104°F	18 Hours
20°C / 68°F	20°C / 68°F	40°C / 104°F	14 Hours
25°C / 77°F	25°C / 77°F	40°C / 104°F	11 Hours
30°C / 86°F	30°C / 86°F	40°C / 104°F	8 Hours

MAINTENANCE

Filter Maintenance

Regularly clean and replace the filter cartridges to ensure optimal water quality and pump efficiency. Dirty filters can impede water flow and heating performance. The hot tub comes with 6 filter cartridges for convenience.

Water Treatment

Maintain proper water chemistry by regularly testing and adjusting pH and sanitizer levels. Consult a pool or spa professional for specific water treatment recommendations.

Cleaning and Draining

Periodically drain and clean the hot tub. Use a soft cloth and mild, non-abrasive cleaner for the interior and exterior surfaces. Ensure the hot tub is completely dry before storage.

Cover Care

Keep the insulated cover clean and free of debris. Ensure the child safety locks are engaged when the hot tub is not in use to maintain heat and prevent unauthorized access.

TROUBLESHOOTING

If you encounter any issues with your COCLUB Inflatable Hot Tub, please refer to the following common troubleshooting tips:

- **Hot Tub Not Heating:**

- Ensure the heater function is activated on the control panel.
- Check that the water level is between the 'Min' and 'Max' lines.
- Clean or replace filter cartridges.
- Verify the power supply is stable and the plug is securely connected.
- Ensure the insulated cover is properly in place to minimize heat loss.

- **Weak Bubble Jets:**

- Check for blockages in the air jets.
- Ensure the air pump is functioning correctly.

- **Water Leaking:**

- Inspect the hot tub for any visible punctures or tears. Use the included repair patch for minor damages.
- Ensure all valves and connections are securely tightened.

- Check the drain plug for a secure fit.

- **Error Codes:**

If an error code appears on the digital display, consult the specific error code section in the full product manual (if available) or contact customer support for assistance. For example, an "H5" code has been reported by some users, which may indicate a sensor issue.

For issues not covered here, or if troubleshooting steps do not resolve the problem, please contact COCLUB customer support.

WARRANTY AND SUPPORT

COCLUB products are designed for quality and durability. For warranty information, product support, or to inquire about replacement parts, please refer to the contact details provided on the product packaging or visit the official COCLUB website. Keep your purchase receipt as proof of purchase for warranty claims.

Customer happiness is a top priority for COCLUB, ensuring trust and satisfaction through exceptional service and support.
