Volkano Splash Series Round Smartwatch User Manual

Model: VK-5096-PR

INTRODUCTION

The Volkano Splash Series Round Smartwatch, model VK-5096-PR, is designed to enhance your daily life with its advanced features and durable construction. This smartwatch offers connectivity, health monitoring, and communication capabilities directly from your wrist. It features a high-resolution full-touch screen and is built to be water and dust resistant, ensuring reliability in various environments.

SETUP

1. Charging the Smartwatch

Before initial use, fully charge your Volkano Splash Series Smartwatch. Connect the provided USB charging cable to the charging port on the back of the smartwatch and to a standard USB power adapter (not included). A full charge typically takes approximately 2.5 hours. The watch will indicate charging status on its screen.

2. Powering On

Press and hold the side control button for a few seconds until the Volkano logo appears on the screen. The smartwatch will then boot up.

3. Pairing with Your Smartphone

1. Ensure Bluetooth is enabled on your smartphone.
2. Download and install the companion application for your Volkano smartwatch from your smartphone's app store (compatible with Apple iOS and Android smartphones).
3. Open the application and follow the on-screen instructions to search for and connect to your smartwatch. The smartwatch uses Bluetooth Version 5.3 for a stable connection.
4. Confirm the pairing request on both your smartphone and the smartwatch.

OPERATING INSTRUCTIONS

1. Navigating the Interface

- Full Touch Screen Control:** Swipe left, right, up, or down on the screen to access different menus, notifications, and features. Tap to select an option.
- Side Control Button:** Press the side button to return to the home screen or to wake the device. A long press may access power options or specific functions depending on the context.

2. Making and Receiving Calls

Once paired with your smartphone, you can make and receive calls directly from your smartwatch. When a call comes in, the watch will display the caller ID. Tap the green icon to answer or the red icon to decline. To make a call, access the dialer or contacts list through the smartwatch interface.

3. Health and Activity Monitoring

The smartwatch includes a heart rate monitor and multi-sport monitoring capabilities. Access these features through the main menu. Swipe to find the relevant icons for heart rate, step counter, or specific sport modes. Ensure the watch is worn snugly on your wrist for accurate readings.

4. Battery Life

The smartwatch offers up to 5 days of battery life with typical usage and up to 15 days on standby. Actual battery performance may vary based on usage patterns and settings.

MAINTENANCE

1. Cleaning Your Smartwatch

To clean your smartwatch, gently wipe the screen and body with a soft, lint-free cloth. For stubborn dirt, slightly dampen the cloth with water. Avoid using harsh chemicals or abrasive materials, as these can damage the device.

2. Water and Dust Resistance

The Volkano Splash Series Smartwatch has an IP67 rating, meaning it is resistant to dust and can withstand immersion in water up to 1 meter for 30 minutes. It is suitable for everyday use, including hand washing and light rain. However, it is not recommended for swimming, diving, or exposure to high-pressure water.

3. Charging Best Practices

- Use only the provided charging cable.
- Avoid charging in extreme temperatures.

- Do not leave the watch charging for extended periods after it is fully charged.

TROUBLESHOOTING

- **Smartwatch not turning on:** Ensure the device is fully charged. Connect it to the charger and wait a few minutes before attempting to power it on again.
- **Unable to pair with smartphone:**
 - Check that Bluetooth is active on your phone and the smartwatch.
 - Ensure the smartwatch is within range of your phone.
 - Restart both your smartphone and the smartwatch.
 - Try unpairing and re-pairing the devices through the companion app.

- **Screen unresponsive:** If the screen is frozen, try restarting the smartwatch by holding down the side control button until it powers off and then on again.
- **Inaccurate health data:** Ensure the smartwatch is worn correctly, snugly on your wrist, and that the sensors on the back are clean.
