ZERTRAN 9-inch Android Car Stereo for VW Tiguan (4G 64G)

ZERTRAN 9-inch Android Car Stereo Headunit Instruction Manual

For VW Tiguan Models (2010-2021)

1. IMPORTANT COMPATIBILITY INFORMATION

Before installation, verify your vehicle's compatibility. This headunit is designed for VW Tiguan models from 2012-2021 with a square hazard button. It is not compatible with models from 2007-2011 that have a triangular hazard button.

Image: Compatibility check based on hazard button shape. Square button (top) indicates compatibility for 2012-2016 models.
Triangular button (bottom) indicates incompatibility for 2007-2011 models.

2. SETUP AND INSTALLATION

Proper installation is crucial for optimal performance. Refer to the following videos and instructions for guidance. If you encounter any issues, please contact after-sales support.

2.1 General Installation Guide

Your browser does not support the video tag.

Video: Comprehensive installation guide for the 4+64G Radio for VW, covering removal of the old radio, power-on test, feature test, and rearview camera wiring.

4. MAINTENANCE

To ensure the longevity and optimal performance of your ZERTRAN car stereo, follow these general maintenance guidelines:

- **Cleaning:** Use a soft, dry cloth to clean the touchscreen and exterior surfaces. Avoid abrasive cleaners or solvents that could damage the finish.
- **Software Updates:** Periodically check for software updates to ensure you have the latest features and bug fixes. Follow the on-screen instructions for any available updates.
- **Temperature Control:** Avoid exposing the unit to extreme temperatures. Prolonged exposure to direct sunlight or very cold conditions can affect performance and lifespan.
- **Cable Connections:** Ensure all cables are securely connected. Loose connections can lead to intermittent issues.

5. TROUBLESHOOTING

If you encounter any issues during installation or operation, refer to the following common solutions or contact support.

5.1 Camera Display Issues (Snow/9-grid display)

If your rearview camera displays a snowy or 9-grid image, this can often be fixed by adjusting the image format settings. Long-press the screen for 5 seconds to access image format settings and select **AHD720P25**.

Alternatively, navigate via: **Settings > Factory Settings (Password) > Camera > RVC Channel Config > AHD**.

If the issue persists, please contact after-sales support.

Video preview showing a snowy or 9-grid display on the car stereo screen, indicating a camera display issue.

Video Preview: Demonstrates a camera display issue (snow/9-grid) and how to access settings to fix it.

5.2 General Issues and Support

For any problems during the installation process, including the unit not turning on, not turning off, draining battery, camera not working, or steering wheel control not functioning, please contact the seller for support at the first time. Your consultation is always welcomed.
