2.3 Initial Charging

For optimal performance, it is recommended to fully charge the gamepad before its first use.

1. Connect the small end of the USB charging cable to the charging port on the gamepad.
2. Connect the larger end of the USB charging cable to a USB power source (e.g., computer USB port, USB wall adapter).
3. The indicator lights on the gamepad will show the charging status. A full charge typically takes approximately 3 hours.

3. Operating Instructions

3.1 Button Layout

The REVOLVER II WGP12 features a familiar console-like layout, designed for intuitive control and quick adaptation. It includes a D-pad, dual analog sticks, action buttons (A, B, X, Y), shoulder buttons, triggers, and dedicated Start/Select buttons.

BUILT-IN RECHARGABLE BATTERY

A built-in lithium-ion battery lasts for 10 hours of play on a single charge, so you won't need to worry about running out of power, keep playing while the controller charges.

3.2 Dual Vibration Feedback

Experience enhanced immersion with the gamepad's dual vibration motors. These motors provide tactile feedback for in-game events such as collisions, explosions, and other actions, bringing a new level of realism to your gaming sessions. Ensure your game supports vibration feedback for this feature to function.

DUAL VIBRATION FEEDBACK MOTORS

Feel the game. Discover a new level of feedback you can feel with every hit, crash and explosion in games that support vibration feedback.

3.3 Wired and Wireless Modes

The REVOLVER II WGP12 supports both wireless and wired connectivity. For wireless play, use the 2.4GHz USB dongle. If you prefer a wired connection or need to charge while playing, simply connect the gamepad to your device using the USB charging cable. The gamepad will automatically switch to wired mode when connected via cable.

FAMILIAR CONSOLE-LIKE LAYOUT

Pick up and play. Your instincts will guide your actions over the familiar layout. You'll be off and gaming in no time. Crafted for a console-like control experience and innovated from traditional design, REVOLVER II WGP12 fits like a glove.

4. Maintenance

4.1 Battery Care

The gamepad features a built-in 600mAh rechargeable lithium-ion battery. To prolong battery life:

- Avoid fully discharging the battery frequently.
- Charge the gamepad using the provided USB cable and a compatible power source.
- If storing the gamepad for an extended period, charge it to approximately 50% and store in a cool, dry place.
- A full charge provides approximately 10 hours of standby time.

4.2 Cleaning

To clean your gamepad, use a soft, dry cloth. For stubborn dirt, a slightly damp cloth can be used, followed by immediate drying. Avoid using harsh chemicals, abrasive cleaners, or solvents, as these can damage the surface and internal components.

4.3 Storage

Store the gamepad in a clean, dry environment away from direct sunlight, extreme temperatures, and excessive moisture. Keep it away from strong magnetic fields to prevent potential interference with its electronic components.

5. Troubleshooting

Problem	Possible Cause	Solution
Gamepad does not turn on.	Low or depleted battery.	Charge the gamepad for at least 30 minutes.

Problem	Possible Cause	Solution
