LG XG2T

LG XBOOM Go Wireless Speaker XG2T User Manual

Introduction

The LG XBOOM Go XG2T is a portable wireless speaker designed for robust sound and extended battery life, suitable for various outdoor and indoor environments. This manual provides essential information for setting up, operating, and maintaining your speaker.

Package Contents

Ensure all items are present in the package:

- LG XBOOM Go Wireless Speaker (XG2T)
- Adjustable Strap
- USB Type-C Cable
- Warranty Card

Figure 1: LG XBOOM Go Wireless Speaker XG2T.

Setup

1. Charging the Speaker

Before initial use, fully charge the speaker. Connect the supplied USB Type-C cable to the speaker's charging port and to a compatible USB power adapter (not included). A full charge takes approximately 4 hours and provides up to 10 hours of playback.

Figure 2: USB Type-C charging port and battery indicator on the rear of the speaker.

2. Power On/Off

Press and hold the **Power button** (⏻) located on the top surface of the speaker to turn it on or off. An indicator light will confirm the power status.

Figure 3: Power button and other controls on the speaker's front panel.

3. Bluetooth Pairing

1. Ensure the speaker is powered on.

2. The speaker will automatically enter Bluetooth pairing mode if no device is connected. The Bluetooth indicator will flash.
3. On your smartphone, tablet, or other Bluetooth-enabled device, go to the Bluetooth settings and search for available devices.
4. Select "LG XBOOM Go XG2T" from the list.
5. Once connected, the Bluetooth indicator on the speaker will glow solid.
6. To pair with a new device, press and hold the Bluetooth button (if available, otherwise power cycle or disconnect from current device).

4. LG XBOOM App Connection

For enhanced control and features, download the LG XBOOM App (available for Android and iOS). The app allows you to manage audio settings, lighting effects, playlists, and equalizer settings via a Bluetooth connection. Activate one-touch mode in the app to remember and automatically apply your preferred settings.

Operating Instructions

1. Basic Controls

- **Power Button**: Press and hold to turn on/off.
- **Play/Pause Button**: Press to play or pause audio.
- **Volume Controls**: Use the volume buttons on your connected device or the speaker's dedicated volume controls (if present, typically on the side or top) to adjust the sound level.

Figure 4: Side view showing control buttons and strap attachment.

2. Sound Boost Mode

Activate Sound Boost mode to enhance bass and vocal clarity, filling your space with more powerful audio. This feature is typically activated via a dedicated button on the speaker or through the LG XBOOM App.

3. Using the Adjustable Strap

The LG XBOOM Go XG2T includes an adjustable strap for convenient portability. Securely fasten the speaker to backpacks, bike handles, tent poles, or other outdoor equipment. This allows for hands-free

carrying and optimal sound projection during activities.

4. IP67 Dust & Water Resistance

The speaker is rated IP67, meaning it is protected against dust ingress and can withstand immersion in water up to 1 meter for 30 minutes. This makes it suitable for use in various outdoor conditions, including near water or in dusty environments. Ensure the charging port cover is securely closed to maintain water resistance.

5. Military Standard Grade Durability

The LG XBOOM Go XG2T has passed seven military standard tests, demonstrating its durability against high temperature, rain, salt fog, blowing dust, water immersion, and shock. This robust construction ensures reliable performance in challenging environments.

Maintenance

- **Cleaning**: Wipe the speaker with a soft, dry cloth. For stubborn dirt, use a slightly damp cloth. Do not use harsh chemicals or abrasive cleaners.
- **Water Exposure**: After exposure to water, ensure the speaker is thoroughly dried before charging. Do not charge if the port is wet.
- **Battery Care**: To prolong battery life, avoid fully discharging the speaker frequently. Charge it regularly, even if not in use for extended periods. Store in a cool, dry place.
- **Storage**: When storing the speaker for a long time, ensure it is charged to about 50% and stored in a cool, dry place away from direct sunlight and extreme temperatures.

Troubleshooting

Problem	Solution
Speaker does not power on.	Ensure the speaker is charged. Connect it to a power source using the USB Type-C cable.
No sound from the speaker.	Check the volume level on both the speaker and the connected device. Ensure the device is properly paired via Bluetooth.
Cannot pair via Bluetooth.	Make sure the speaker is in pairing mode (Bluetooth indicator flashing). Turn off and on the Bluetooth on your device. Try disconnecting from any previously paired devices.
Poor sound quality.	Ensure the speaker and the connected device are within Bluetooth range (typically 10 meters/33 feet) and there are no obstructions. Check audio source quality.
Speaker not responding.	Perform a soft reset by pressing and holding the Power button for about 10 seconds until it restarts.

Specifications
