## 4. SETUP

---

The SUNGOOYUE ME-MPP303 Stylus Pen is designed for immediate use with compatible devices. No battery installation or Bluetooth pairing is typically required for basic functionality, as it utilizes MPP (Microsoft Pen Protocol) technology for automatic connection.

1. **Power On:** The pen is generally always on and ready for use.
2. **First Use:** Simply touch the pen tip to the screen of your compatible device. The device should automatically recognize the pen.
3. **Custom Button Configuration:** For advanced features and custom button assignments, refer to your device's operating system settings (e.g., Windows Pen & Windows Ink settings) or specific application settings.

## 5. OPERATING INSTRUCTIONS

---

The stylus pen offers a natural and precise input experience:

- **Writing and Drawing:** Use the pen tip directly on the screen. The 4096 pressure levels allow for varying line thickness and opacity based on how firmly you press.
- **Navigation:** Tap to select, drag to move items, and use gestures as you would with your finger.
- **Custom Buttons:** The two side buttons can be configured for functions such as right-click, erase, or launching specific applications. Check your device's pen settings for customization options.

## 7. MAINTENANCE

To ensure the longevity and optimal performance of your stylus pen, follow these maintenance guidelines:

- **Cleaning:** Wipe the pen body with a soft, dry, lint-free cloth. Do not use harsh chemicals or abrasive materials.
- **Pen Tip Replacement:** If the pen tip becomes worn or damaged, use the provided tip removal tool to gently pull out the old tip and insert a new one. Ensure the new tip is fully seated.
- **Storage:** Store the pen in a safe place to prevent damage to the tip or body. Avoid extreme temperatures.

## 8. TROUBLESHOOTING

If you encounter issues with your stylus pen, refer to the following common solutions:

Problem	Solution
---------	----------

Problem	Solution
Pen is not responding.	<ul style="list-style-type: none"> <li>◦ Ensure your device is compatible with MPP technology.</li> <li>◦ Check if your device's screen is clean and free of obstructions.</li> <li>◦ Restart your device.</li> <li>◦ Verify that the pen tip is securely installed.</li> </ul>
Inaccurate or inconsistent input.	<ul style="list-style-type: none"> <li>◦ Replace the pen tip if it appears worn or damaged.</li> <li>◦ Ensure your device's screen is clean.</li> <li>◦ Update your device's display and pen drivers.</li> <li>◦ Calibrate the pen in your device's settings.</li> </ul>
Custom buttons are not working.	<ul style="list-style-type: none"> <li>◦ Check your device's pen settings (e.g., Windows Pen &amp; Windows Ink) to ensure buttons are configured correctly.</li> <li>◦ Ensure the application you are using supports pen button functions.</li> </ul>
