1. Setup

Upon receiving your Serta Perfect Sleeper X Knox mattress, carefully remove it from its packaging. This mattress is not compressed into a smaller box, ensuring it retains its original form and support. Allow the mattress to air out for approximately one week to dissipate any new mattress odors and to allow it to fully reach its maximum comfort level.

Ensure your mattress is placed on a suitable foundation. Compatible foundations include a Serta Foundation, traditional box springs, platform frames with slats no more than 2 inches apart, or adjustable bases. Proper support is crucial for increasing the lifespan of your mattress.

Perfect Conform™ Memory Foam

Contours and cradles your body
for targeted pressure relief

Image: What to expect with your new Serta mattress. Allow 30-45 days for the mattress to adjust to its proper feel. A new mattress smell is normal and should dissipate in a few days. Support your mattress properly to increase its lifespan. Protect your investment by purchasing a mattress protector.

Adjustable Base Compatible

Create your perfect sleep setup with customizable features designed to enhance your sleep

*Adjustable base sold separately

Image: Compatibility with All Bases. The Serta Perfect Sleeper X Knox mattress is compatible with box springs, platform beds, wooden slats (with appropriate spacing), and adjustable bases. Refer to Serta's Mattress Warranty Information for specific guidelines on foundation requirements.

2. Operating the Mattress (Features & Use)

The Serta Perfect Sleeper X Knox mattress is designed for a firm feel, ideal for stomach and back sleepers, or anyone preferring a solid, reassuring surface with adequate cushioning. It features a 5 ZoneResponse Design, combining Perfect Conform Memory Foam with 5-zoned coils for full-body spinal alignment.

The mattress incorporates cooling technology with graphite-infused memory foam to redistribute heat away from your body, promoting a comfortable sleep temperature throughout the night. The quilted top provides a classic feel and an added layer of plush foam.

3. Maintenance

To ensure the longevity and cleanliness of your Serta Perfect Sleeper X Knox mattress, follow these maintenance guidelines:

- Cleaning:** For soiled areas, apply baking soda and let it sit for approximately 15 minutes. Then, vacuum the area thoroughly. Repeat as needed.

- **Air Circulation:** Ensure the mattress is aired out as much as possible to maintain freshness.
- **Avoid Liquids:** Do not apply liquids directly to the mattress. Liquids can stain the fabric, potentially worsen soiled areas, and cause premature breakdown of the foam, damaging the product.
- **Mattress Protector:** It is highly recommended to use a mattress protector. This will shield your mattress from stains and spills, significantly contributing to its overall health and lifespan.

4. Troubleshooting

Here are solutions to common concerns you might encounter with your new mattress:

- **New Mattress Smell:** It is normal for a new mattress to have a slight odor upon unboxing. This smell should dissipate within a few days to a week as the mattress airs out. Ensure good ventilation in the room.
- **Initial Firmness/Softness:** Your mattress may feel firmer or softer than expected initially. Please allow 30-45 days for the mattress to fully break in and adjust to its proper feel.
- **Mattress Indentations:** Minor body impressions are normal over time as the materials conform to your body. To minimize significant indentations, ensure your mattress is on a proper, supportive foundation as outlined in the Setup section. Rotating your mattress periodically (if recommended by Serta, check warranty details) can also help distribute wear evenly.
