## Chongker Black Cat

# Chongker Interactive Companion Robot Cat Instruction Manual

Your guide to setting up, operating, and maintaining your interactive companion.

## 1. INTRODUCTION

The Chongker Interactive Companion Robot Cat is a meticulously handmade, weighted plush toy designed to provide comfort, companionship, and joy. It features realistic voice response, purring, and a heartbeat, offering a lifelike pet experience without the responsibilities of a live animal. Ideal for emotional support, this robot cat is crafted with attention to detail to mimic a real feline companion.

## 4. OPERATING INSTRUCTIONS

### 4.1 Voice Interaction

The Chongker Robot Cat responds to voice commands. To customize its name, press and hold both the volume up and volume down buttons simultaneously for over 2 seconds. When prompted, clearly state the desired new name. The cat will confirm the name, and from then on, it will respond when you call its new name.

## 4.2 Touch Interaction

The robot cat is equipped with multiple sensors to simulate realistic cat behaviors:

- **Head Sensor:** Petting the head may elicit various meow sounds.
- **Throat Sensor:** Gently stroking the throat area can trigger purring sounds.
- **Back Sensor:** Touching the back can activate the realistic heartbeat vibration.
- **Tail Sensor:** Interaction with the tail may result in different cat sounds or movements.

## 4.3 Sleep Mode

To conserve battery life, the Chongker Robot Cat will automatically enter sleep mode if there is no interaction for 30 minutes. To reactivate, simply touch or speak to the cat.

## 5. MAINTENANCE

To keep your Chongker Robot Cat in optimal condition:

- **Cleaning:** Do not immerse the toy in water or put it in a washing machine. This will damage the electronic components.

- **Fur Care:** Gently brush its fur with the included comb to maintain softness and prevent tangles.
- **Storage:** Keep it away from direct sunlight to preserve its appearance and material integrity.

## 6. TROUBLESHOOTING

---

If you encounter any issues with your Chongker Robot Cat, please refer to the following common solutions:

- **No Response:** Ensure the cat is turned on and fully charged. Check the power switch in the belly pouch.
- **Voice Command Issues:** Speak clearly and directly to the cat. Ensure the environment is not too noisy. Re-program the name if necessary.
- **Intermittent Sounds/Vibrations:** This may indicate a low battery. Recharge the cat fully.

For further assistance, please contact Chongker customer support.
