SETUP

1. Charging the Headphones

Before first use, fully charge your Awei A200BL headphones. Connect the charging cable to the headphone's charging port and a DC 5V power source. The battery capacity is 400mAh, and a full charge typically takes approximately 2.5 hours.

2. Power On/Off

- **To Power On:** Press and hold the Power button until the indicator light illuminates.
- **To Power Off:** Press and hold the Power button until the indicator light turns off.

3. Bluetooth Pairing

The Awei A200BL features Bluetooth version 5.0 for stable and efficient wireless connection.

1. Ensure the headphones are powered off.
2. Press and hold the Power button for approximately 5-7 seconds until the indicator light flashes red and blue alternately, indicating pairing mode.

3. On your device (smartphone, laptop, tablet), enable Bluetooth and search for available devices.
4. Select "Awei A200BL" from the list of found devices.
5. Once connected, the indicator light will turn solid blue or flash slowly. The transmission distance is approximately 10 meters in a barrier-free environment.

4. Wired Connection (AUX)

For devices without Bluetooth or when battery is low, you can use the included AUX cable. Simply plug one end into the headphone's AUX port and the other into your audio device's 3.5mm jack.

5. Micro-SD Card Playback

Insert a Micro-SD card with your favorite music into the designated slot on the headphones. The headphones will automatically switch to Micro-SD card playback mode.

OPERATING INSTRUCTIONS

1. Music Playback Control

- **Play/Pause:** Press the Multi-function button once.
- **Next Track:** Press and hold the Volume Up button.
- **Previous Track:** Press and hold the Volume Down button.
- **Volume Up:** Press the Volume Up button briefly.
- **Volume Down:** Press the Volume Down button briefly.

2. Call Management

- **Answer/End Call:** Press the Multi-function button once.
- **Reject Call:** Press and hold the Multi-function button for 2 seconds.

3. Dual Mode Auto Decoding (Music/E-Sports)

The headphones support automatic switching between Music Mode and E-Sports Mode for an optimized audio

experience.

- **Music Mode:** Provides built-in HD chip and HiFi OST restoration for an immersive audio experience with balanced latency and sound quality.
- **E-Sports Mode:** Offers ultra-low latency and positional audio cues, designed for dynamic and stimulating gaming experiences.

4. FM Radio Function

To activate the built-in FM radio, press the Mode button (if available) or refer to specific button combinations in the quick start guide. Use the Volume Up/Down buttons to scan for stations.

5. Breathing Lights

The headphones feature cool breathing lights to enhance the aesthetic. These lights can typically be toggled on or off by a dedicated button or a combination of buttons. Refer to the quick start guide for specific controls.

Cool Breathing Lights Ignite the Atmosphere

High-quality materials, nice -looking design, fine workmanship, and excellent quality... All are the crystallization of craftsman spirit and fashion aesthetics

MAINTENANCE

1. Cleaning

Wipe the headphones with a soft, dry cloth. Do not use abrasive cleaners or immerse the headphones in water. Keep the charging port and Micro-SD card slot free from dust and debris.

2. Storage

The Awei A200BL headphones feature foldable earmuffs for easy storage and portability. When not in use, fold the headphones and store them in a cool, dry place away from direct sunlight and extreme temperatures.

TROUBLESHOOTING

- **Headphones do not power on:** Ensure the headphones are fully charged.
- **Cannot pair with device:** Make sure the headphones are in pairing mode (flashing red and blue). Ensure Bluetooth is enabled on your device and it is within 10 meters of the headphones. Try restarting both devices.
- **No sound:** Check the volume level on both the headphones and your connected device. Ensure the

headphones are properly paired or the AUX cable is securely connected.

- **Poor audio quality:** Move closer to your connected device to reduce interference. Ensure there are no physical obstructions between the headphones and the device.
- **Micro-SD card not playing:** Ensure the Micro-SD card is inserted correctly and contains compatible audio files.
