HOGYME HG61P1384-A02

HOGYME 10x12 FT Outdoor Metal Storage Shed Instruction Manual

Model: HG61P1384-A02

Brand: HOGYME

1. INTRODUCTION

This instruction manual provides detailed guidance for the assembly, operation, and maintenance of your HOGYME 10x12 FT Outdoor Metal Storage Shed. Designed for durability and functionality, this shed offers a robust and spacious solution for outdoor storage, protecting your garden tools, lawn equipment, and other outdoor items from various weather conditions. Please read this manual thoroughly before beginning assembly or use to ensure proper installation and safe operation.

2. SAFETY INFORMATION

- **Caution:** This product is heavy and requires multiple individuals for safe assembly.
- Ensure the installation surface is stable, level, and free from obstructions.
- Wear appropriate personal protective equipment, including gloves and eye protection, during assembly to prevent injuries from sharp edges or falling components.
- Keep children and pets away from the assembly area to avoid accidents.
- Do not assemble the shed in strong winds or adverse weather conditions.
- Periodically check all fasteners for tightness and re-tighten as necessary to maintain structural integrity.

3. PACKAGE CONTENTS

The HOGYME 10x12 FT Outdoor Metal Storage Shed is delivered in two separate packages. Please ensure all parts are present and undamaged before beginning assembly. All components are well-packed and labeled for easy identification.

- Metal panels for walls and roof
- Frame components and support beams
- Hardware kit (screws, nuts, bolts, washers)
- Door panels and locking mechanism
- Ventilation grilles
- Ground anchors
- Two pairs of PU gloves for handling components
- Instruction manual (this document)

4. SETUP AND ASSEMBLY INSTRUCTIONS

Assembly of this storage shed is designed to be straightforward, typically requiring two adults. Follow the detailed steps provided in this manual for optimal results. A stable and level foundation is crucial for the shed's stability and longevity.

Key Assembly Considerations:

- **Foundation:** Ensure a perfectly level and solid base (e.g., concrete slab, treated timber frame) before starting assembly.
- **Part Identification:** Carefully identify all parts using the provided labels and diagrams.
- **Frame Assembly:** Begin by assembling the base frame, followed by the wall frames. The upgraded stable alloy steel structure is designed for easier installation and enhanced durability.
- **Panel Installation:** Attach the wall panels to the frame, ensuring proper alignment and secure fastening.
- **Roof Assembly:** Construct the gable roof, ensuring all panels are correctly overlapped to prevent water ingress. The roof features plastic protection corners for reinforcement.
- **Door Installation:** Install the two hinged doors, ensuring they open and close smoothly and the lockable mechanism functions correctly.
- **Securing:** Utilize the provided ground anchors to secure the shed firmly to its foundation.

HOGYME | UPGRADED STABLE ALLOY STEEL STRUCTURE

After 1000+ Tests

- ✂ Easier installation
- 🏠 More stable structure
- 🛡 More durable construction

✘ Others

✔ **Ours**

The image shows a 3D cutaway of a shed with a gable roof and a metal frame. Above the shed, there are two comparison boxes. The first box shows a simple rectangular frame labeled 'Others' with a red 'X'. The second box shows a more complex frame with diagonal bracing labeled 'Others' with a red 'X'. Below the shed, a green button with a white checkmark and the word 'Ours' is displayed.

5. FEATURES

The HOGYME 10x12 FT Outdoor Metal Storage Shed incorporates several design elements for enhanced functionality and durability:

- **Spacious Storage:** A generous 10 x 12 ft footprint provides ample space for lawnmowers, bicycles, gardening tools, and seasonal items, helping to organize your outdoor area.
- **Heavy-Duty Construction:** Constructed from galvanized steel with reinforced top beams and ground anchors, ensuring windproof and waterproof performance. The gable roof design facilitates efficient rain and snow runoff.
- **Secure Access:** Features two large doors, each measuring approximately 50"W x 65"H, allowing easy entry and exit. The doors are equipped with a lockable mechanism for enhanced security of your stored items.
- **Optimal Ventilation:** Built-in vents ensure excellent air circulation, helping to prevent moisture buildup and maintain the condition of stored goods.
- **Enhanced Safety:** Includes plastic screw sleeves to cover sharp screw ends, preventing potential injuries during use.
- **Roof Protection:** Roof plastic protection corners are used to reinforce eaves and cover sharp metal corners for added safety and durability.

Image: The shed with its double doors open, showcasing the interior space suitable for various storage needs.

6. OPERATING INSTRUCTIONS

- **Door Operation:** To open the doors, unlatch the locking mechanism and pull the doors outwards. To close, push the doors inward until they meet, then engage the latch and lock for security.
- **Ventilation:** The built-in vents are designed for continuous air circulation. Ensure these vents remain unobstructed to maintain proper airflow and reduce humidity inside the shed.
- **Storage:** Distribute weight evenly inside the shed. Avoid leaning heavy objects against the walls. Consider using shelving units for organized storage.

Image: Interior of the shed demonstrating potential storage configurations with shelves and various items.

7. MAINTENANCE

- **Cleaning:** Clean the exterior of the shed periodically with mild soap and water. Avoid abrasive cleaners or harsh chemicals that could damage the galvanized steel finish.
- **Inspection:** Regularly inspect all fasteners (screws, bolts) for tightness. Re-tighten any loose hardware to ensure the structural integrity of the shed.
- **Roof and Base:** Keep the roof clear of heavy snow accumulation and debris. Ensure the area around the base is free of vegetation or debris that could trap moisture.
- **Door Mechanisms:** Lubricate door hinges and the locking mechanism annually to ensure smooth operation and prevent rust.
- **Vents:** Check that the ventilation grilles are clear of obstructions to maintain proper airflow.

8. TROUBLESHOOTING

- **Difficulty during Assembly:** Double-check part numbers against the manual's diagrams. Ensure the

foundation is perfectly level. If a part seems misaligned, re-evaluate the previous steps.

- **Water Leakage:** Verify that all roof panels are correctly overlapped and all screws are tightened. Inspect for any gaps and apply appropriate sealant if necessary.
- **Door Misalignment:** Adjust the door hinges or the frame if the doors do not close properly. Ensure the shed is on a level surface, as an uneven base can cause door issues.
- **Poor Ventilation/Condensation:** Ensure all built-in vents are clear of obstructions. If condensation persists, consider adding a moisture absorber inside the shed.

9. SPECIFICATIONS

Specification	Detail
Brand	HOGYME
Model Number	HG61P1384-A02
Color	Gray
Material	Alloy Steel
Product Dimensions (D x W x H)	117.72"D x 141.75"W x 79.92"H
Item Weight	1 Pounds
Base Material	Metal
Top Material Type	Metal
Water Resistance Level	Waterproof
Frame Material	Metal
Door Style	Single Hinged, Lockable Doors
Assembly Required	Yes
Manufacturer	HOGYME
Door Height	12 Feet (Note: Feature bullets indicate door dimensions of 50"W x 65"H)
ASIN	B0DHCK4KWH

10. WARRANTY AND SUPPORT

This product is typically eligible for a 30-day easy return policy. For specific warranty details, claims, or technical support, please refer to the purchase documentation or contact HOGYME customer service directly. Contact information can usually be found on the seller's page or through your purchase platform.

For customer support, please visit the HOGYME Store on Amazon.
