## FIXR PG50

# FIXR PG50 Dog Grooming Vacuum and Pet Grooming Kit Instruction Manual

Model: PG50

## 1. INTRODUCTION

This manual provides comprehensive instructions for the safe and effective use of your FIXR PG50 Dog Grooming Vacuum and Pet Grooming Kit. This 5-in-1 system is designed to assist with pet grooming and home cleaning by combining powerful vacuum suction with various grooming tools. Please read this manual thoroughly before operating the device and retain it for future reference.

## 2. IMPORTANT SAFETY INFORMATION

**Failure to follow these safety instructions may result in injury or damage to the product.**

- Always unplug the device before cleaning or storing.
- Keep the trimmer away from water sources. Do not use the trimmer on wet pets or in wet environments.
- Do not use the trimmer on infants or humans. This product is designed for pet grooming only.
- Always supervise pets during use to ensure their safety and comfort.
- Avoid contact with skin and eyes.
- Always follow recommended cleaning and maintenance procedures outlined in this manual.
- If the trimmer becomes hot during use, stop and allow it to cool before continuing.
- This product is only suitable for 110-120V voltage. Use with a transformer is recommended in regions with 220-230V voltage.

### 3. PACKAGE CONTENTS

Verify that all items listed below are included in your package. If any items are missing or damaged, please contact customer support.

## Package List

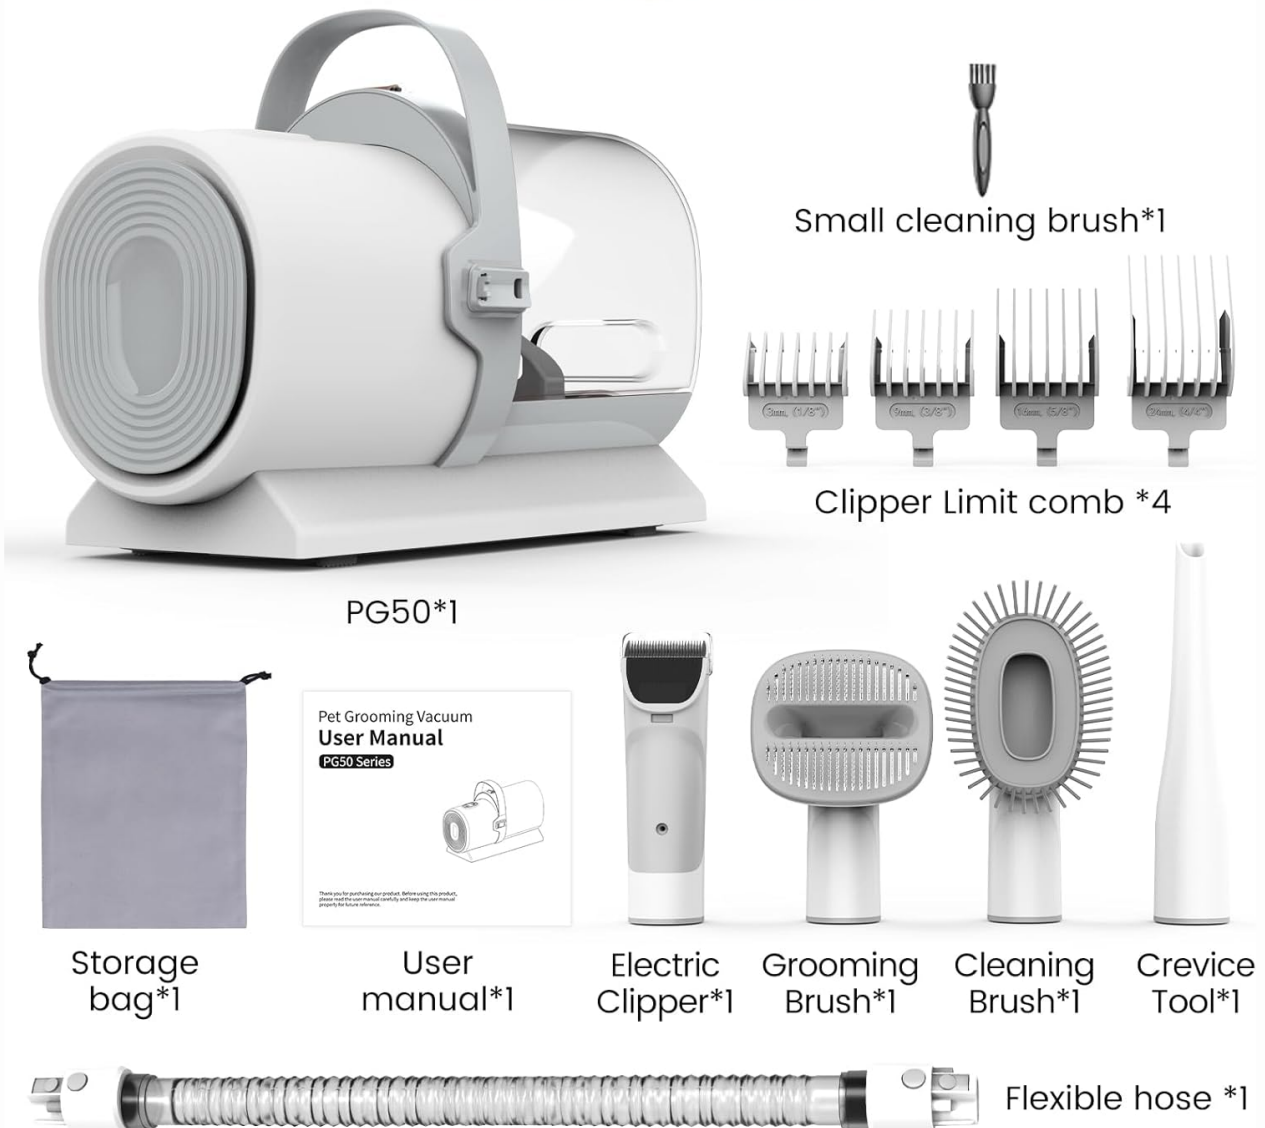

Image 3.1: All components included in the FIXR PG50 package.

- FIXR PG50 Pet Grooming Vacuum Unit (1)
- Flexible Hose (1)

- Grooming Brush (1)
- Cleaning Brush (1)
- Nozzle Head / Crevice Tool (1)
- Small Cleaning Brush (1)
- Storage Bag (1)

## 4. PRODUCT OVERVIEW

The FIXR PG50 is a versatile pet grooming system designed for efficiency and cleanliness. It integrates a powerful vacuum with multiple grooming attachments to capture loose hair directly at the source.

### 4.1 Main Unit Features

- **Powerful Suction:** 11000Pa suction power effectively collects 99.99% of pet hair.
- **Large Dust Cup:** 2.5L capacity minimizes the need for frequent emptying during grooming sessions.
- **Low Noise Operation:** Operates at less than 65 decibels to reduce pet anxiety.
- **Adjustable Suction Levels:** Three adjustable suction levels for different grooming needs and pet sensitivities.
- **Extended Hose:** A 4.6ft hose allows for comfortable grooming, keeping the main unit at a distance from your pet.

## 4.2 Grooming Tools

The kit includes five specialized tools for various grooming and cleaning tasks:

- **Electric Clipper:** Used for trimming pet hair to desired lengths. Comes with four guide combs for precise cutting.
- **Grooming Brush:** Designed to remove loose or tangled pet hair and debris from your pet's coat.
- **Cleaning Brush:** Ideal for collecting and cleaning scattered pet hair from clothes, carpets, sofas, and other surfaces.
- **Nozzle Head / Crevice Tool:** For cleaning pet hair from tight spaces and corners.
- **Small Cleaning Brush:** For cleaning the grooming tools and the vacuum unit itself.

## 5. SETUP INSTRUCTIONS

Follow these steps to set up your FIXR PG50 grooming vacuum:

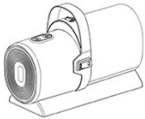

1. **Unpack Components:** Carefully remove all items from the packaging and verify against the package contents list.
2. **Connect Flexible Hose:** Attach one end of the flexible hose to the suction port on the main vacuum unit. Ensure it clicks securely into place.
3. **Attach Desired Tool:** Select the appropriate grooming tool (e.g., electric clipper, grooming brush) and attach it to the other end of the flexible hose. Ensure it is firmly connected.
4. **Power Connection:** Plug the power cord into a standard 110-120V electrical outlet.

### User Manual

## 6. OPERATING INSTRUCTIONS

### 6.1 General Operation

1. **Power On:** Press the power button on the main unit to turn on the vacuum.
2. **Adjust Suction Level:** Use the suction level control buttons to select one of the three available suction settings. Start with the lowest setting, especially for sensitive pets, and adjust as needed.
3. **Begin Grooming:** Gently apply the chosen tool to your pet's coat or the surface you wish to clean. The vacuum will simultaneously collect loose hair.
4. **Power Off:** Once grooming is complete, press the power button to turn off the unit and unplug it from the power outlet.

### 6.2 Using the Electric Clipper

1. **Select Guide Comb:** Choose one of the four guide combs (3mm, 9mm, 16mm, 24mm) based on the desired hair length. Attach it securely to the electric clipper.
2. **Prepare Pet:** Ensure your pet's coat is clean and dry. Brush out any tangles before clipping.
3. **Clipping:** With the vacuum running, gently move the clipper against the direction of hair growth. The vacuum will collect the trimmed hair.

Image 6.1: Using the electric clipper with guide combs.

### 6.3 Using the Grooming Brush

Attach the grooming brush to the hose. Gently brush your pet's coat in the direction of hair growth to remove loose fur and stimulate the skin. The vacuum will collect the shed hair.

### 6.4 Using the Cleaning Brush and Nozzle Head

Attach the cleaning brush or nozzle head to the hose. Use the cleaning brush to remove pet hair from fabrics like clothing, carpets, and upholstery. Use the nozzle head for reaching into crevices and tight spaces on furniture or in your car.

### 6.5 Low Noise Operation

The FIXR PG50 operates at a low noise level (below 65dB) to minimize stress for your pets. The extended hose also allows you to keep the main unit further away from your pet during operation.

## 7. MAINTENANCE

Regular maintenance ensures optimal performance and extends the lifespan of your grooming kit.

### 7.1 Emptying the Dust Cup

1. Ensure the unit is turned off and unplugged.
2. Detach the dust cup from the main unit.
3. Open the dust cup and empty the collected pet hair into a waste bin.

4. Close the dust cup and reattach it to the main unit, ensuring it is securely locked.

Image 7.1: The 2.5L dust cup capacity and emptying process.

## 7.2 Cleaning Tools and Filters

1. After each use, detach all grooming tools from the hose.
2. Use the small cleaning brush to remove any trapped hair or debris from the tools, especially the clipper blades and brush bristles.
3. The dust cup and filters (HEPA and sponge filters are pre-installed) can be rinsed with water. Ensure they are completely dry before reassembling and using the unit.
4. Wipe the exterior of the main unit and hose with a damp cloth. Do not immerse the main unit in water.

### 7.3 Storage

Store the grooming kit in the provided storage bag in a cool, dry place, away from direct sunlight and out of reach of children and pets.

## 8. TROUBLESHOOTING

If you encounter any issues with your FIXR PG50, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Reduced suction power	Dust cup is full; filters are clogged; hose or attachment is blocked.	Empty the dust cup. Clean or replace filters. Check hose and attachments for blockages and clear them.
Clipper not cutting effectively	Blades are dull or dirty; hair is tangled; incorrect guide comb used.	Clean clipper blades thoroughly. Ensure pet's hair is detangled before clipping. Use the appropriate guide comb for hair length.
Unit does not turn on	Not plugged in; power outlet malfunction; power cord damage.	Ensure the power cord is securely plugged into a working outlet. Check the power cord for any visible damage. Try a different outlet.
Excessive noise or vibration	Foreign object in the fan or motor; unit not on a stable surface.	Turn off and unplug the unit. Inspect for any foreign objects and remove them. Place the unit on a flat, stable surface.

If the problem persists after attempting these solutions, please contact FIXR customer support.
