SETUP

Charging the Mouse

Before first use, fully charge the mouse using the provided USB Type-C cable. Connect the cable to the Type-C charging port on the mouse and to a USB power source. A full charge takes approximately 1.5 hours and provides up to 75 hours of battery life.

Connecting the Mouse

The FFJ Elite10 mouse supports three connection modes: 2.4GHz Wireless, Bluetooth, and Wired.

1. 2.4GHz Wireless Mode:

Locate the USB receiver on the underside of the mouse. Plug the USB receiver into an available USB port on your

computer. Slide the mode switch button on the bottom of the mouse to the "2.4G" position. The mouse should connect automatically.

2. Bluetooth Mode:

Slide the mode switch button on the bottom of the mouse to the "BT" position. On your device (PC, laptop, tablet, etc.), go to Bluetooth settings and search for new devices. Select "FFJ Elite10" from the list to pair. If you need to reset Bluetooth connection, ensure the switch is on BT mode, then press and hold the left click, right click, and middle click buttons simultaneously.

3. Wired Mode:

Connect the USB Type-C cable to the mouse and the other end to a USB port on your computer. The mouse will function as a wired mouse and charge simultaneously. The position of the mode switch does not affect wired operation.
