## NUTOMO M3

# NUTOMO Keyless Entry Door Lock User Manual

## MODEL: M3

Comprehensive guide for your NUTOMO Smart Lock.

### 1. Product Overview

---

The NUTOMO Keyless Entry Door Lock with Knob (Model M3) offers advanced security and convenience for your home or office. This smart lock provides multiple access methods, including fingerprint, passcode, APP control, IC cards, mechanical keys, and voice control via Alexa (with gateway). Designed for ease of use and robust performance, it ensures reliable access control and peace of mind.

## 2. Setup and Installation

---

The NUTOMO M3 lock is designed for straightforward installation on most standard doors. All you need is a screwdriver.

### 2.1 Door Compatibility

This lock is compatible with doors 1-1/4" to 1-3/4" in thickness and comes with two adjustable metal door latches (2-3/8" or 2-3/4"). It supports both right and left handing doors.

## Easy to Install

Image: A diagram illustrating the required door measurements and latch compatibility for installation, including backset and door thickness.

### 2.2 Installation Steps

1. Ensure your door meets the compatibility requirements.
2. Follow the detailed instructions provided in the included Installation Instruction manual.
3. Install the exterior lock, interior deadbolt, latch, and mounting plate using the provided screws.
4. Complete the basic digital lock setup by following the voice prompts from the lock.
5. Add the lock to the companion APP by going to Settings and choosing the correct door opening direction (Left/Right).

*Note: A screwdriver is the only tool required for installation.*

### 3. Operating Instructions

The NUTOMO M3 Smart Lock offers multiple convenient ways to access your property.

### 3.1 Unlocking Methods

- **Fingerprint:** Quick recognition in 0.1 seconds with high accuracy.
- **Passcode:** Set up to 250 unique codes. Utilize the anti-peeping feature by entering random numbers before or after your actual code to prevent unauthorized viewing.
- **APP Control:** Remotely control and manage your lock via the Next Lock APP.
- **IC Cards:** Use up to 1000 IC cards for convenient tap-to-unlock access.
- **Mechanical Keys:** Three physical keys are included for traditional backup access.
- **Alexa Voice Control:** Unlock using voice commands through Alexa (requires a separate gateway).
- **Ekey:** Digital keys can be shared for temporary or permanent access.
- **Remote Control:** (Gateway sold separately)

## 3.2 Auto-Lock Feature

For enhanced security, the lock can be set to automatically lock after a specified period (5-900 seconds) once the door is closed.

## Auto Lock for Safety

Image: A visual depiction of the auto-lock mechanism, showing the deadbolt extending automatically after a set time.

### 3.3 Real-time Notifications and Logs

The Next Lock APP allows you to check the lock status and usage history in real-time, providing notifications for unlocks and other activities.

# Real-time Notification

Check the lock status and usage history anytime

## 4. Maintenance

The NUTOMO M3 lock is powered by 4 AA batteries (not included) that can last up to 6 months. The Next Lock APP will notify you when the battery level is low, and you can monitor the battery status within the app at any time.

- Replace batteries promptly when low battery alerts are received.
- Keep the lock clean by wiping it with a soft, dry cloth. Avoid abrasive cleaners.
- Ensure the door alignment is correct for smooth operation of the deadbolt.

## 5. Troubleshooting

If you encounter issues with your NUTOMO M3 Smart Lock, please refer to the following common solutions:

Problem	Possible Cause / Solution
---------	---------------------------

Problem	Possible Cause / Solution
Lock not responding / No power	Check battery level in the APP or replace the 4 AA batteries. Ensure batteries are inserted correctly.
Fingerprint recognition failure	Ensure your finger is clean and dry. Try re-registering your fingerprint. Ensure the sensor is clean.
Keypad not working / Incorrect code lockout	If 5 incorrect passcodes are entered, the keypad will lock for 3 minutes. Wait for the lockout period to end. Ensure you are using the correct passcode.
Deadbolt not extending/retracting smoothly	Check door alignment and ensure there is no obstruction. The door frame strike plate might need adjustment.
APP connectivity issues	Ensure Bluetooth is enabled on your phone and you are within range. If using Wi-Fi (with gateway), check gateway connection and Wi-Fi signal. Try restarting the APP.
Lock needs to be reset	Refer to the "Reset" instructions in the full user manual or contact support.

For further assistance, please contact NUTOMO customer support.

## 6. Specifications

Feature	Detail
