

Pigeon 19003882

Pigeon Elegant BLDC 1600W 2-in-1 Hair Dryer User Manual

Model: 19003882

1. INTRODUCTION

Thank you for choosing the Pigeon Elegant BLDC 1600W 2-in-1 Hair Dryer. This advanced hair dryer is designed to provide efficient and gentle hair drying with its powerful brushless motor and ionic technology. Please read this manual thoroughly before use to ensure safe and optimal performance.

2. IMPORTANT SAFETY INSTRUCTIONS

When using electrical appliances, especially when children are present, basic safety precautions should always be followed, including the following:

- **DANGER:** Keep away from water. Do not use while bathing or in a shower.
- Always unplug the appliance immediately after use.
- Do not place or store the appliance where it can fall or be pulled into a tub or sink.
- Do not use near water.
- Do not reach for an appliance that has fallen into water. Unplug immediately.
- Do not operate any appliance with a damaged cord or plug, or if the appliance malfunctions or has been dropped or damaged in any manner.
- Keep the cord away from heated surfaces.
- Never block the air openings of the appliance or place it on a soft surface, such as a bed or couch, where the air openings may be blocked.
- Never use while sleeping.
- Never drop or insert any object into any opening.
- Do not use outdoors or operate where aerosol (spray) products are being used or where oxygen is being administered.
- Do not use an extension cord with this appliance.
- Do not direct hot air towards eyes or other heat-sensitive areas.

- The appliance is not intended for use by persons (including children) with reduced physical, sensory or mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction concerning use of the appliance by a person responsible for their safety.
- Children should be supervised to ensure that they do not play with the appliance.

3. PRODUCT OVERVIEW

Familiarize yourself with the components of your Pigeon Elegant Hair Dryer.

Key Features:

- **BLDC Brushless Motor:** 1600 Watts with 130,000 RPM for powerful, high-velocity airflow.
- **Ionic Technology:** Releases negative ions to reduce frizz, smooth hair, and enhance shine.
- **3 Speed Settings:** Adjustable airflow for different drying needs.
- **4 Temperature Settings:** Includes hot, warm, and cool options, plus a dedicated cool shot button.
- **Concentrator Nozzle:** For focused airflow and precise styling.
- **360 Degree Rotating Cord:** Provides flexibility and ease of use.
- **Lightweight Design:** Ergonomic and comfortable for extended use.

4. SETUP

1. **Unpack:** Carefully remove the hair dryer and all accessories from the packaging.
2. **Inspect:** Check the appliance for any signs of damage. Do not use if damaged.

3. **Attach Nozzle:** Align the concentrator nozzle with the magnetic attachment point on the front of the dryer. It will snap into place securely.
4. **Power Connection:** Ensure your hands are dry. Plug the power cord into a suitable electrical outlet (220-240V, 50/60Hz).

5. OPERATING INSTRUCTIONS

The Pigeon Elegant Hair Dryer features intuitive controls for customized styling.

BLDC HAIR DRYER 2-IN-1

Meet all your styling needs

Magnetic Smoothing Nozzle
for smoothing hair, hair styling

Without Nozzle
for drying hair, supple caring

Figure 5.1: Close-up of the control panel, showing the power, speed, and temperature buttons.

5.1 Power On/Off

- To turn on the dryer, press the power button located on the handle.
- To turn off, press the power button again.

5.2 Adjusting Air Speed

- The dryer has 3 speed settings: Low, Medium, and High.
- Press the speed control button (often indicated by fan icons) to cycle through the desired airflow intensity.
- LED indicators will show the current speed setting.

Figure 5.2: Visual representation of the LED indicators for wind speed and temperature settings.

5.3 Adjusting Temperature

- The dryer offers 4 temperature settings: Hot, Warm, Cool, and a dedicated Cool Shot.
- Press the temperature control button (often indicated by a thermometer icon) to select the desired heat level.
- LED indicators will display the current temperature setting.
- For a burst of cold air to set your style, press and hold the Cool Shot button.

5.4 Using the Concentrator Nozzle

- Attach the concentrator nozzle for precise styling and to direct airflow to specific sections of hair.
- The nozzle rotates 360 degrees for flexible styling.

6. MAINTENANCE AND CLEANING

Regular cleaning ensures optimal performance and extends the life of your hair dryer.

1. **Unplug:** Always unplug the hair dryer from the power outlet before cleaning.
2. **Cool Down:** Allow the appliance to cool completely before handling.
3. **Clean Exterior:** Wipe the exterior surfaces with a soft, damp cloth. Do not use abrasive cleaners or solvents.
4. **Clean Air Filter:** The rear air inlet filter should be cleaned regularly to prevent dust and hair buildup, which can affect performance. Gently twist or pull off the filter cover (refer to product design for specific removal method). Use a soft brush or vacuum cleaner to remove any accumulated debris. Reattach the filter cover securely.
5. **Storage:** Store the hair dryer in a cool, dry place, away from moisture and direct sunlight. Do not wrap the cord tightly around the appliance, as this can damage the cord.

7. TROUBLESHOOTING

If you encounter any issues with your hair dryer, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Dryer does not turn on.	No power supply; power button not pressed.	Ensure the plug is securely in the outlet. Press the power button firmly. Check the household fuse/circuit breaker.
Low airflow or overheating.	Air inlet filter is blocked with dust/hair.	Unplug the dryer and allow it to cool. Clean the air inlet filter as described in the Maintenance section.
Unusual noise during operation.	Debris in the motor or fan area.	Unplug the dryer. If the noise persists after cleaning the filter, contact customer support. Do not attempt to disassemble.
Hair not drying effectively.	Incorrect speed/temperature setting; improper technique.	Adjust to a higher speed or temperature setting. Ensure you are using the dryer correctly, directing airflow to sections of hair.

If the problem persists after trying these solutions, please contact customer support.

8. SPECIFICATIONS

- **Model Name:** ELEGANT
- **Model Number:** 19003882
- **Wattage:** 1600 Watts
- **Motor Type:** BLDC Brushless Motor
- **Airflow Speed:** 3 settings
- **Temperature Settings:** 4 settings (including Cool Shot)
- **Special Features:** Ionic Technology, 360 Degree Rotating Cord
- **Product Dimensions:** 35.5 x 8.15 x 13.7 cm
- **Item Weight:** 600 g
- **Material:** Plastic
- **Power Source:** Corded Electric
