Setup & Assembly

The Dream On Me Luna 4-in-1 Convertible High Chair is designed for no-tool assembly, making setup quick and straightforward. Follow these general steps for initial assembly and conversion between modes.

Initial High Chair Assembly

The high chair arrives with components ready for simple assembly. Connect the legs to the main seat unit and the footrest/table base. Ensure all connections click securely into place. The seat pad and tray are then attached.

Your browser does not support the video tag.

Converting to Toddler Chair and Table

To convert the high chair into a toddler chair and activity table, detach the upper seat unit from the lower table base. The lower base with its shorter legs forms the activity table. The upper seat unit, with its own set of shorter legs, becomes the toddler chair. Ensure all parts are securely separated and reassembled in their new configurations.

LUNA

4 in 1 Convertible Highchair

- Grows with your child
- Converts to sturdy table and chair
- Non-slip padded feet
- Five point safety harness
- Three adjustable tray positions

Operating Instructions

Securing Your Child

Always use the 5-point safety harness to secure your child in the high chair or toddler chair. Adjust the straps to ensure a snug and comfortable fit, preventing your child from climbing out.

5-Point Safety Harness

Adjusting the Tray

The tray features three adjustable positions to accommodate your growing child. To adjust, press the release buttons on either side of the tray and slide it to the desired position. To remove the tray for cleaning or child placement, press the release buttons and pull the tray forward.

3 Level Tray Adjustment

Maintenance

Cleaning the Seat Cover

The PU seat cover is fully removable and designed for easy cleaning. Simply wipe it down with a damp cloth and mild soap. For stubborn messes, the cover can be detached for a more thorough cleaning. Ensure the cover is completely dry before reattaching.

Cleaning the Tray and Frame

The removable tray can be washed with warm soapy water. The plastic frame and wooden-look legs can be wiped clean with a damp cloth. Avoid abrasive cleaners that may damage the finish. Regularly check for food debris in crevices and clean thoroughly.

Troubleshooting

Difficulty with Assembly/Conversion

- Ensure all components are aligned correctly before applying pressure. Listen for a "click" sound to

confirm secure attachment of legs and seat units.

- Refer to the visual guides and videos in the Setup & Assembly section for detailed steps.

Tray Not Adjusting Smoothly

- Check for any food debris or obstructions in the tray's sliding mechanism. Clean thoroughly if necessary.
- Ensure both release buttons are pressed simultaneously when adjusting or removing the tray.

Instability

- Verify that all legs are fully inserted and locked into place.
- Ensure the anti-skid padded feet are clean and making full contact with the floor surface.

Important Safety Information

- Always supervise your child when they are in the high chair or using the table and chair set.
- Ensure the 5-point harness is properly secured and adjusted for your child's size.
- Never leave your child unattended.
- Regularly inspect all parts for wear, damage, or loose connections. Discontinue use if any damage is found.
- Do not use the product if any components are missing or broken.

- Keep children away from the product during assembly and disassembly.
