Electactic JC-90

Electactic 50 Cans Beverage Refrigerator Cooler User Manual

Model: JC-90

INTRODUCTION

This manual provides essential information for the safe and efficient operation of your Electactic 50 Cans Beverage Refrigerator Cooler. Please read it thoroughly before installation and use, and retain it for future reference. This compact beverage cooler is designed to keep your favorite drinks at their ideal temperature, perfect for home, dorm, or bar settings.

SAFETY INSTRUCTIONS

- Ensure the appliance is properly grounded.
- Do not operate if the power cord is damaged.
- Keep ventilation openings clear of obstruction.
- Do not store explosive substances such as aerosol cans with a flammable propellant in this appliance.
- Unplug the appliance before cleaning or maintenance.
- This appliance is not intended for use by persons (including children) with reduced physical, sensory or mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction concerning use of the appliance by a person responsible for their safety.

SETUP AND INSTALLATION

1. Unpacking

Carefully remove all packaging materials, including foam and adhesive tape. Inspect the cooler for any shipping damage. Retain packaging materials for future transport if needed.

2. Placement

Place the cooler on a flat, stable surface strong enough to support its weight when fully loaded. Ensure there is adequate air circulation around the unit. Allow at least 4 inches (10 cm) of space on the back and sides for proper ventilation. Avoid direct sunlight or heat sources.

The compact design makes it suitable for countertops, home bars, dorm rooms, or offices. Its dimensions are approximately 16.46"D x 16.93"W x 18.5"H.

Figure 2: Illustration of the compact beverage cooler's dimensions (16.46"D x 16.93"W x 18.5"H) and its 1.3 cu.ft capacity, capable of holding up to 50 cans.

3. Leveling

The cooler is equipped with adjustable leveling legs. Rotate the legs to ensure the unit is perfectly level, which is crucial for proper door sealing and efficient operation.

4. Door Reversal (Optional)

The door hinge is reversible, allowing you to change the door's opening direction from right to left, or vice versa, to suit your space. Refer to the detailed diagram below for instructions on relocating the hinge.

Figure 3: Diagram illustrating the reversible door hinge design, allowing the door to open from either the left or right side.

5. Power Connection

Plug the cooler into a dedicated, grounded 115 Volt AC outlet. Do not use extension cords or adapter plugs. Allow the unit to stand upright for at least 2-4 hours before plugging it in to allow refrigerating fluids to settle.

OPERATING INSTRUCTIONS

1. Digital Temperature Control

Your Electactic beverage cooler features a digital thermostat with a touch control panel for precise temperature management. The temperature range is adjustable from 40°F (4.4°C) to 61°F (16.1°C).

COMPACT BEVERAGE COOLER

Ideal for Tight Space

1.3
CU.FT

Figure 4: Close-up of the digital thermostat control panel, showing buttons for LED light, temperature increase, temperature display, and temperature decrease.

- **Temperature Adjustment:** Use the + and - buttons on the control panel to set your desired temperature. The current temperature will be displayed.
- **LED Light:** Press the light bulb icon button to turn the internal blue LED light on or off.

2. Loading Beverages

The cooler has a 1.3 cu.ft capacity, capable of holding up to 50 standard 12oz cans. It includes a sturdy metal partition (shelf) to help organize your drinks. The shelf is removable for accommodating taller bottles or larger items.

**50can
Capacity**

**Removable
shelves**

**Double Pane
Glass Door**

**LED Soft
Light**

Figure 5: Internal view of the beverage cooler, demonstrating the removable shelf and capacity for various drink sizes.

- Arrange beverages to allow for proper air circulation.
- Avoid overloading the shelves to prevent damage and ensure efficient cooling.
- The double-pane glass door provides airtight sealing to maintain consistent internal temperature.

MAINTENANCE

1. Cleaning

- Always unplug the cooler before cleaning.

- Clean the interior with a soft cloth and a mild detergent solution. Rinse with clean water and dry thoroughly.
- Wipe the exterior with a soft, damp cloth. Do not use abrasive cleaners or solvents.
- Clean the glass door with a glass cleaner.
- Periodically vacuum the condenser coils at the back of the unit to ensure efficient operation.

2. Defrosting

This unit features manual defrost. Frost buildup can occur over time, especially with frequent door openings. When frost accumulation reaches about 1/4 inch (6 mm) thick, manually defrost the unit:

1. Unplug the cooler.
2. Remove all beverages and the shelf.
3. Leave the door open to allow frost to melt naturally. You can place towels at the bottom to absorb water.
4. Once defrosted, clean and dry the interior thoroughly before plugging the unit back in and reloading beverages.

FROST-FREE SYSTEM

Low Noise
 ≤ 36

Constant
Temperature

40°F-61°F

Figure 6: Diagram illustrating the constant temperature maintenance and low noise operation, with arrows indicating air circulation for efficient cooling within the 40°F-61°F range.

TROUBLESHOOTING

Before contacting customer service, please refer to the following table for common issues and their solutions:

Problem	Possible Cause	Solution
Cooler does not operate.	Not plugged in; circuit breaker tripped; temperature set too high.	Ensure plug is secure; check circuit breaker; lower temperature setting.

Problem	Possible Cause	Solution
Temperature is not cold enough.	Door not closed properly; frequent door openings; poor ventilation; too many items.	Check door seal; reduce frequency of openings; ensure adequate space around unit; do not overload.
Excessive noise.	Unit not level; loose parts; normal compressor operation.	Adjust leveling legs; check for loose components; slight humming is normal.
Water on floor.	Drainage issue; excessive humidity.	Check drain pan (if applicable) and ensure it's not overflowing; reduce humidity in room.

SPECIFICATIONS

Feature	Detail
Brand	Electactic
Model Number	JC-90
Capacity	1.3 Cubic Feet (approx. 50 standard cans)
Dimensions (D x W x H)	16.46" x 16.93" x 18.5"
Item Weight	32.3 Pounds
Temperature Range	40°F - 61°F (4.4°C - 16.1°C)
Installation Type	Countertop
Defrost System	Manual
Door Material Type	Glass
Shelf Type	Tempered Glass (1 shelf included)
Voltage	115 Volts
Certification	ETL
