Feandrea PCL003W01

Feandrea Cat Litter Box Enclosure PCL003W01 Instruction Manual

Model: PCL003W01

1. PRODUCT OVERVIEW

The Feandrea Cat Litter Box Enclosure is designed to discreetly house a cat litter box, providing privacy for your cat and integrating seamlessly into your home as a piece of furniture. It features a removable divider for flexible configurations and shutter doors for accessibility.

by SONGMICS HOME

The Feandrea Cat Litter Box Enclosure provides a discreet and stylish solution for housing your cat's litter box, blending seamlessly into your home decor.

2. SAFETY INFORMATION

- **Do not step or sit on the litter box enclosure.** This product is not designed for human weight support.
- Ensure the enclosure is placed on a flat, stable surface to prevent tipping.
- The maximum static load capacity of the top surface is **60 kg (132 lb)** when the inner divider is installed.
- If the inner divider is removed, the maximum static load capacity of the top surface is reduced to **10 kg (22 lb)**.
- The maximum static load capacity of the bottom surface is **30 kg (66 lb)**.
- Keep small parts and assembly tools away from children and pets during assembly.

3. PACKAGE CONTENTS

Please verify that all components are present before beginning assembly.

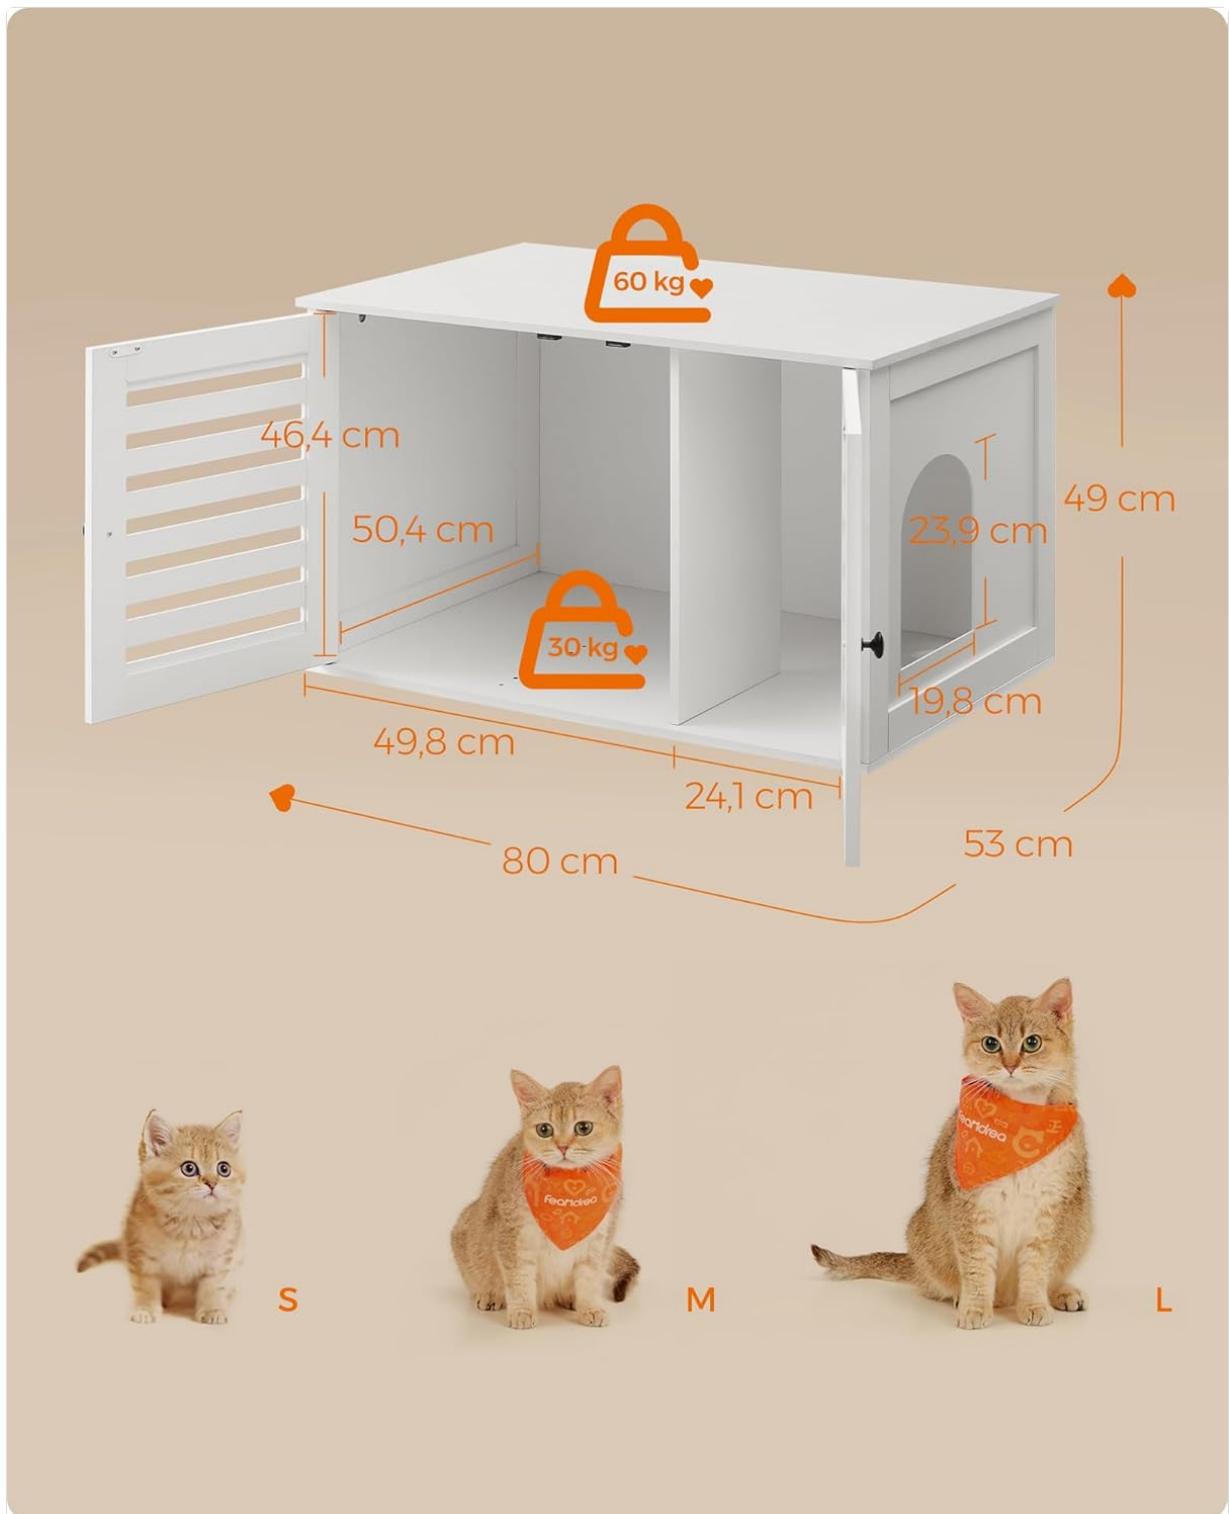

- 1 x Litter Box Enclosure (disassembled components)
- 1 x Accessory Kit (screws, dowels, magnetic locks, etc.)
- 1 x Instruction Manual

4. ASSEMBLY INSTRUCTIONS

Assembly typically takes approximately 30 minutes. Follow the detailed instructions provided in the included manual and use the labeled parts for correct installation.

General Assembly Steps:

1. Unpack all components and verify against the parts list in the included manual.
2. Attach the side panels to the bottom panel using the provided hardware. Ensure the cat entry hole is positioned as desired.
3. Install the inner divider if a two-compartment setup is preferred. This divider is removable for a larger single space.
4. Secure the top panel to the assembled structure.
5. Attach the shutter doors using the hinges and install the magnetic locks to ensure secure closure.
6. Apply the feet protectors to the bottom of the enclosure to prevent floor scratching.

This image illustrates the overall dimensions of the enclosure (80 x 53 x 49 cm) and the maximum static load capacities for the top surface (60 kg with divider, 10 kg without) and bottom (30 kg).

5. OPERATING INSTRUCTIONS

Configuring the Interior:

- **Single Litter Box Setup:** For a large litter box, remove the inner divider to create one spacious compartment.
- **Dual Litter Box Setup:** Keep the inner divider installed to create two smaller compartments, suitable for two smaller litter boxes or separating litter from other items.
- **Cat House/Bed Setup:** The enclosure can also be used as a private resting area for your cat by placing a cat bed inside, with or without the divider.

The enclosure can be configured to accommodate a single large litter box, two smaller litter boxes with the divider, or a comfortable cat bed.

This versatile enclosure can also serve as a comfortable cat house or a private resting spot for your pet.

Odor Control and Ventilation:

The shutter doors and design promote air circulation, which helps in reducing odors. For optimal odor control, ensure regular cleaning of the litter box and use high-quality litter.

The design of the enclosure promotes air circulation, helping to reduce odors and maintain a fresh environment for your cat.

6. MAINTENANCE

- **Cleaning:** Wipe down the surfaces of the enclosure regularly with a damp cloth and mild cleaner. Avoid abrasive cleaners that may damage the finish.
- **Litter Box Access:** The double shutter doors with magnetic locks allow for easy access to the litter box for scooping and cleaning.
- **Magnetic Locks:** Periodically check the magnetic locks to ensure they are functioning correctly and keeping the doors securely closed.
- **Cable Management:** A dedicated hole at the back allows for organized routing of power cables if using an automatic litter box.

The smooth surfaces are easy to wipe clean. Magnetic locks ensure doors remain securely closed, and a rear opening allows for cable management, such as for an automatic litter box.

7. TROUBLESHOOTING

- **Doors not closing properly:** Check if the magnetic locks are aligned correctly. Ensure hinges are securely fastened.
- **Enclosure wobbles:** Verify that all screws are tightened. Ensure the enclosure is on a level surface. Adjust feet protectors if necessary.
- **Cat not using the enclosure:** Introduce your cat to the enclosure gradually. Place familiar items inside, such as a favorite toy or a small amount of used litter. Ensure the litter box inside is clean and accessible.

8. SPECIFICATIONS

Feature	Specification
Model	PCL003W01
Color	Cloud White
Material	Engineered Wood (Particleboard)
Product Dimensions (L x W x H)	80 x 53 x 49 cm (31.5" x 20.9" x 19.4")
Product Weight	14.3 kg (31.5 lb)
Max. Static Load Capacity (Top, with divider)	60 kg (132 lb)
Max. Static Load Capacity (Top, without divider)	10 kg (22 lb)
Max. Static Load Capacity (Bottom)	30 kg (66 lb)
