SETUP GUIDE

Installing Batteries and SD Card

1. **Open the Battery Cover:** Locate the battery compartment on the bottom of the camera and slide the cover open.
2. **Insert Battery:** Insert one of the provided rechargeable batteries into the compartment, ensuring the correct orientation as indicated inside the compartment.
3. **Insert SD Card:** Insert the 64GB SD card into the designated slot next to the battery, pushing gently until it clicks into place.
4. **Close Battery Cover:** Close the battery compartment cover securely.
5. **To Remove Battery:** Push the battery lock lever to release the battery.

OPERATING INSTRUCTIONS

Basic Operation

- **Power On/Off:** Press and hold the Power Button (located on top) to turn the camera on or off.
- **Taking Photos:** Frame your shot using the rear display. Lightly press the Photo Button to focus, then press fully to capture the image.
- **Recording Videos:** Switch to video mode using the Mode Button (M). Press the Photo Button to start/stop recording.
- **Selfie Mode:** Long press the "OK" button for 3 seconds to switch to the front screen for selfies.
- **Zoom In/Out:** Use the Zoom In/Out buttons (T/W) to adjust the 18X digital zoom.
- **Navigation:** Use the directional pad (Up/Flash, Right/Timed Photo, Down/Delete, Left/Continuous Shooting) and OK button to navigate menus and select options.

Advanced Settings

- **Menu Access:** Press the Menu/Return button to access camera settings.
- **Image Rotation:** Find this option in the settings menu to rotate captured images.
- **Continuous Shooting:** Select this mode for capturing a series of photos rapidly.
- **Self-Timer:** Set a delay (e.g., 2s, 5s, 10s) before the photo is taken.
- **Fill Light:** Activate the built-in fill light for improved illumination in low-light conditions.

Image: Detailed diagram of camera controls and dimensions.

MAINTENANCE

- **Cleaning:** Use a soft, dry cloth to clean the camera body. For the lens and screens, use a specialized lens cleaning cloth and solution. Avoid abrasive materials.
- **Storage:** Store the camera in a cool, dry place away from direct sunlight and extreme temperatures. Remove batteries if storing for extended periods.
- **Battery Care:** Fully charge batteries before first use. Do not expose batteries to high temperatures or dispose of them in fire.
- **SD Card Care:** Format the SD card periodically to maintain optimal performance. Back up important data regularly.

TROUBLESHOOTING

Problem	Possible Cause / Solution
Camera does not turn on.	Battery is low or not inserted correctly. Ensure batteries are charged and properly seated.
Images are blurry.	Insufficient light, camera shake, or subject too close/far. Use fill light, enable anti-shake, ensure proper focus.
SD card error.	SD card not inserted correctly, full, or corrupted. Reinsert, delete files, or format the card (backup data first).
Cannot transfer files to computer.	USB cable connection issue or driver problem. Ensure cable is secure. Try a different USB port or computer.
