Model: 52YFT-809NW | Brand: Ovclaim

## INTRODUCTION

This manual provides detailed instructions for the installation, operation, and maintenance of your Ovclaim 52 Inch Wood Ceiling Fan. Please read this manual thoroughly before installation and use to ensure safe and efficient operation.

## Key Features:

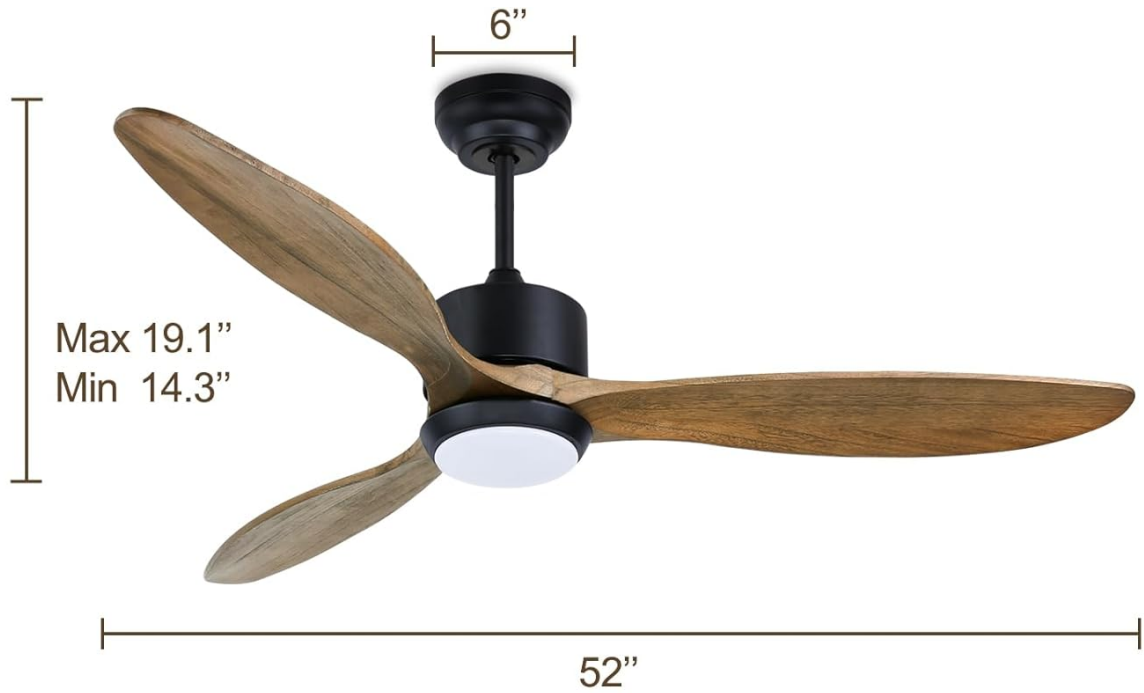

- ETL Listed; Solid Wood Blade; IP44 Indoor Outdoor; 3 Ways Control Smart Fan
- Silicon Steel DC Motor: Providing higher airflow with quieter motion. Adjust the fan speed from 1-6 gears, fast gear 5977 CFM, slow gear 2970 CFM. Highly energy efficient, up to 70% less power than AC Motor.
- Ceiling Fan with Dimmable Light & Remote Control: Light control separate from fan control. The memory function can keep the previously set color temperature (3000k-4500k-6000k) and brightness when you turn on the light next time. Remote control with wall mounted base, no need to look around for remote control.
- Reversible Function: The reversible function can cool your room in summer and help rotate warm air in winter by pressing the reversible button on the remote control. Use Ovclaim ceiling fans all year round.
- 3 Solid Wood Blades: It can grace your space well and make your room more beautiful. Designed for medium to large rooms such as bedrooms, living rooms, patios or common areas.
- Easy to Install: Come with 2 down-rods (5 & 10 inch) for different ceiling height. And the Ceiling fan can be installed on a ceiling with maximum slope of 15 degree.

## SETUP AND INSTALLATION

The Ovclaim 52 Inch Wood Ceiling Fan is designed for straightforward installation. It includes two down-rods (5 and 10 inches) to accommodate various ceiling heights. The fan can also be installed on ceilings with a maximum slope

of 15 degrees.

The fan features three solid wood blades, designed for durability and a natural aesthetic. These blades are lightweight and damp-proof, making them suitable for both indoor and outdoor covered spaces.

### OPERATING INSTRUCTIONS

Your Ovlaim ceiling fan offers multiple control methods and features for optimal comfort.

#### Control Methods:

- **Remote Control:** The fan comes with a dedicated remote control, including a wall-mounted base for convenient storage.
- **App Control:** Control your fan from anywhere using the Smart Life APP on your mobile device.
- **Voice Control:** Compatible with Amazon Alexa and Google Assistant for hands-free operation.

The image highlights the smart control capabilities of the fan, showing integration with popular voice assistants like Amazon Alexa and Google Assistant, as well as control via the Smart Life mobile application.

### **Fan Speed and Reversible Function:**

The DC motor provides 6 adjustable fan speeds, from a gentle breeze (2970 CFM) to powerful airflow (5977 CFM). The reversible function allows you to change the direction of the blades to optimize air circulation for both summer and winter. Press the reversible button on the remote control to switch modes.

The fan features a reversible motor, allowing for downward airflow to create a cooling effect in summer and upward airflow to circulate warm air in winter, enhancing comfort year-round. This function is easily controlled via the remote.

### **Dimmable LED Light with Memory Function:**

The integrated LED light offers three color temperature settings (3000K Warm White, 4500K Natural Light, 6000K Cool White) and is fully dimmable (0-100%). The memory function retains your last chosen color temperature and brightness setting when the light is turned back on.

## MAINTENANCE

To ensure the longevity and optimal performance of your Ovlaim 52 Inch Wood Ceiling Fan, regular maintenance is recommended. Keep the fan blades and motor housing clean by wiping them with a soft, damp cloth. Avoid using harsh chemicals or abrasive cleaners, as these can damage the finish. Periodically check all connections and mounting hardware to ensure they are secure. No lubrication is required for the motor.

## TROUBLESHOOTING

If you experience any issues with your Ovlaim 52 Inch Wood Ceiling Fan, please refer to the following common troubleshooting steps:

- **Fan does not start:** Check the power supply to the fan. Ensure all wiring connections are secure. Verify that the remote control batteries are functional.
- **Fan makes excessive noise:** Ensure all screws on the motor housing and blade attachments are tightened. Check if the blades are balanced; an unbalanced blade can cause wobbling and noise.
- **Light does not work:** Check the power supply to the fan. Ensure the light is turned on via the remote or app.
- **Remote control not responding:** Replace the batteries in the remote control. Ensure there are no obstructions between the remote and the fan receiver.
- **Fan wobbles:** Ensure the mounting bracket is securely fastened to the ceiling joist. Check that all blade screws are tight. Use the included balancing kit if necessary.

If the problem persists after attempting these steps, please contact customer support for further assistance.
