Qubo HPA02

Qubo Car Air Purifier Pro

Model: HPA02

1. PRODUCT OVERVIEW

The Qubo Car Air Purifier Pro is designed to enhance the air quality within your vehicle. It features a multi-stage filtration system and negative ion technology to remove various airborne pollutants.

Key Features:

- **Negative Ion Technology:** Emits up to 50 million negative ions to eliminate 99.8% of viruses, bacteria, PM2.5, PM10, and dust.
- **3-Layer Filtration:** Includes a Pre-filter, HEPA13 filter, and Activated Carbon filter for comprehensive air purification.
- **3 Modes of Purification:** Offers Silent, Active, and Turbo modes to adapt to varying air quality levels.
- **Easy Plug and Use:** Operates by plugging into your car's USB port, designed without an in-built battery for safety.
- **Ergonomic Design:** Built with premium aluminum alloy and a tumbler-style base to fit securely in standard car cup holders.

**Trusted by many.
Built for every drive.**

2. SETUP AND INSTALLATION

Follow these steps to set up your Qubo Car Air Purifier Pro:

- 1. Unpack the Device:** Carefully remove the air purifier and its accessories from the packaging. Ensure all components listed in the 'What's in the Box' section are present.
- 2. Place in Cup Holder:** Position the air purifier securely in a standard car cup holder. The tumbler-shaped base is designed for a stable fit.
- 3. Connect Power:** Plug the provided USB cable into the air purifier's power input and then into an available USB port in your car. The device is designed for safe operation without an internal battery, reducing fire risk.

Easy Plug and Use

Turn on the purifier by simply **plugging its cable** in the USB port of the car.

Super Convenient

3 Modes of Air Purification

Easily **switch purification modes** based on ambient air quality with just a tap on the Car Air Purifier Pro.

3. OPERATING INSTRUCTIONS

The Qubo Car Air Purifier Pro features a simple one-button operation to control its purification modes.

Power On/Off and Mode Selection:

- Once connected to power, the device will automatically turn on.
- To cycle through purification modes (Silent, Active, Turbo) or to turn off the device, press the top-mounted mode button.

Purification Modes:

- **Silent Mode (Blue Light):** Ideal for normal air quality conditions, providing quiet operation.
- **Active Mode (Yellow Light):** Suitable for moderate air quality, offering increased purification.
- **Turbo Mode (Red Light):** For high pollution levels, providing maximum purification power.

4. MAINTENANCE

Regular maintenance ensures optimal performance and longevity of your air purifier.

Filter Replacement:

The Qubo Car Air Purifier Pro uses a 3-layer filter system (Pre-filter, HEPA13, Activated Carbon) that requires periodic replacement. The frequency of replacement depends on usage and air quality conditions. Typically, filters should be checked every 3-6 months.

- To replace the filter, twist the bottom section of the purifier counter-clockwise to detach it.
- Remove the old filter and insert a new Qubo replacement filter, ensuring it is seated correctly.
- Reattach the bottom section by twisting clockwise until secure.

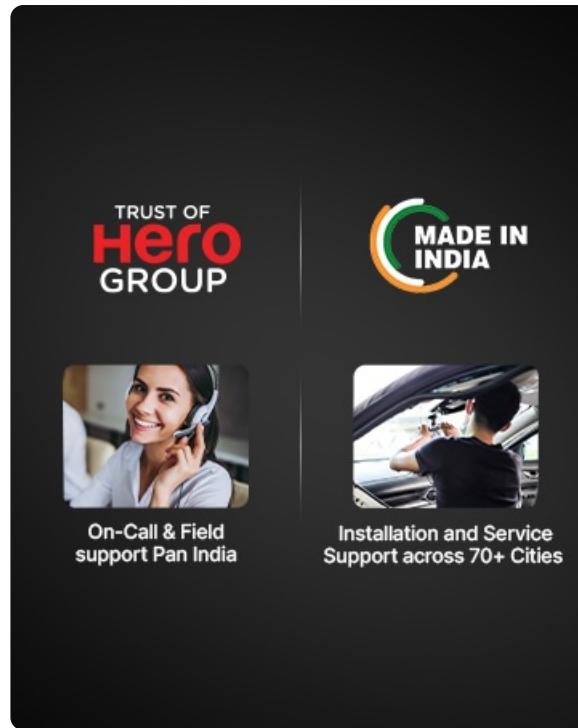

Image: An exploded view diagram showing the three layers of the filter: Pre-filter, True HEPA 13, and Dynamic Activated Carbon.

Cleaning the Device:

- Wipe the exterior of the purifier with a soft, dry cloth.
- Do not use abrasive cleaners or immerse the device in water.
- Ensure the device is unplugged before cleaning.

5. TROUBLESHOOTING

If you encounter issues with your Qubo Car Air Purifier Pro, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Device does not power on	No power supply; Loose USB connection; Faulty USB port/cable	Ensure the USB cable is securely connected to both the purifier and the car's USB port. Try a different USB port or cable. Check if the car's ignition is on.
Low airflow or purification efficiency	Clogged filter; Air intake/outflow blocked	Check and replace the filter if it appears dirty. Ensure the air intake and outflow vents are not obstructed by objects or the cup holder.
Unusual noise during operation	Foreign object inside; Improperly seated filter	Turn off and unplug the device. Carefully check for any foreign objects. Ensure the filter is correctly installed. If the noise persists, contact customer support.
Indicator light not working	Device malfunction	If the device is otherwise functioning, this may be a minor issue. If the device is not purifying, refer to 'Device does not power on' or contact support.

6. SPECIFICATIONS

Feature	Detail
Model Number	HPA02
Dimensions (LxWxH)	6.3 x 6.3 x 18.7 Centimeters
Item Weight	396 Grams
Power Source	Corded Electric (USB)
Filtration Type	3-Layer (Pre-filter, HEPA13, Activated Carbon)
Technology	Negative Ion Technology
Included Components	Car Air purifier with Filters (1N), 0.5 meter USB Cable (1N), QR Card (Warranty & Digital User Manual)
Manufacturer	Hero Electronix Pvt. Ltd
Country of Origin	China
