Feonase 620

Feonase Queen Bed Frame Instruction Manual

Model: 620

1. SETUP AND ASSEMBLY

The Feonase Queen Bed Frame is designed for straightforward assembly. All necessary components, including the installation manual, wingback, installation tools, accessories, solid wood slats, and metal bed frame, are neatly packed in a single box. Assembly typically takes approximately 1.5 hours with two people.

Assembly Steps:

1. Unpack all components and verify against the included parts list in the installation manual. Ensure all parts are present and undamaged.
2. Begin by assembling the main frame structure according to the detailed instructions provided.
3. Attach the upholstered wingback headboard. The headboard features a classic button-tufted design and is made with soft, breathable linen fabric and high-density foam for comfort.
4. Install the sturdy wooden slats. These slats are designed to provide sufficient bearing capacity and support for your mattress without the need for a box spring.
5. Secure the noise-reducing EVA foam and velcro strips to the slats and frame. This design element helps to create a stable and quiet sleeping environment by preventing creaks and movement.
6. Attach the thicker side legs and stable leg pads to ensure increased support and stability for the entire bed frame.

2. OPERATING AND USAGE

The Feonase Queen Bed Frame is designed for optimal comfort and functionality. Its robust iron frame and reinforced wooden slats provide exceptional durability, supporting up to 1000 lbs without requiring a box spring. The thoughtful design ensures a noise-free experience for restful nights.

Key Features:

- **Noise-Free Design:** Equipped with velcro-secured slats, noise-reducing EVA foam, and stable leg pads to prevent creaking and ensure a quiet sleeping environment.
- **Under-Bed Storage:** Features an 8-inch clearance from the floor, providing convenient space for storage of seasonal items or other essentials, helping to keep your room organized.
- **Sturdy Support:** The heavy-duty wooden slats and robust frame are engineered to provide reliable and long-lasting support for your mattress.

3. MAINTENANCE

To ensure the longevity and appearance of your Feonase Queen Bed Frame, follow these simple maintenance guidelines:

- **Fabric Care:** The upholstered linen fabric should be dry cleaned only. Do not machine wash or tumble dry.
- **Frame Cleaning:** Wipe the metal and wooden components with a soft, damp cloth. Avoid harsh chemicals or abrasive cleaners.
- **Regular Inspection:** Periodically check all bolts and screws to ensure they remain tight. Re-tighten if necessary to maintain stability and prevent noise.
- **Weight Limit:** Adhere strictly to the maximum weight recommendation of 1000 pounds to prevent damage to the frame and ensure safety.

4. TROUBLESHOOTING

If you encounter any issues with your Feonase Queen Bed Frame, please refer to the following common solutions:

Problem	Possible Cause	Solution
Bed frame is creaking or making noise.	Loose connections or insufficient EVA foam/velcro application.	Ensure all bolts and screws are securely tightened. Verify that the EVA mute bar and velcro strips are properly installed along the slats to minimize friction and noise.
Frame feels unstable or wobbly.	Loose connections or uneven leg placement.	Re-check all assembly points and tighten any loose fasteners. Ensure the bed frame is placed on a flat, even surface. Adjust leg pads if necessary.
Difficulty assembling certain parts.	Misalignment or incorrect part orientation.	Refer to the detailed installation manual. Ensure parts are oriented correctly before tightening. If possible, have a second person assist with alignment.
Accidentally hitting feet on bed posts.	User error due to unfamiliarity with bed frame dimensions.	Exercise caution when moving around the bed, especially in low light. Over time, familiarity with the bed's footprint will reduce such incidents.

For issues not covered here, please contact Feonase customer support.

5. SPECIFICATIONS

Feature	Detail
Size	Queen
Model Number	620
Color	Black
Upholstery Fabric Type	Linen
Product Dimensions (L x W x H)	82"L x 60"W x 48"H
