MAINTENANCE

- Keep the power bank away from extreme temperatures, direct sunlight, and liquids.
- Clean the surface with a soft, dry cloth. Do not use harsh chemicals or abrasive materials.
- Store in a cool, dry place when not in use.
- Avoid dropping or subjecting the device to strong impacts.
- For optimal battery life, fully charge and discharge the power bank at least once every three months if not used regularly.

TROUBLESHOOTING

Device not charging wirelessly:

- Ensure your device is MagSafe compatible (iPhone 12 or later) and properly aligned with the power bank's magnetic area.
- Check if there are any foreign objects between the power bank and your device that might obstruct charging.
- Remove any thick cases that might interfere with wireless charging.
- Ensure the power bank itself has sufficient charge.

Slow charging speed:

- Verify that your device supports the fast charging protocols of the power bank (15W Qi2 wireless, 22.5W USB-A, 20W USB-C).
- Ensure you are using a high-quality cable that supports fast charging.
- Note that wireless and wired charging cannot be used simultaneously, which may affect charging speed if attempted.

Power bank or device overheating:

- Overheating can occur during charging, especially with wireless charging. If your device displays an overheating warning, charging may pause until temperatures decrease.
- Ensure proper ventilation and avoid charging in direct sunlight or hot environments.
- Remove any cases that might trap heat.
- If overheating persists, discontinue use and contact customer support.

Power bank not turning on/off:

- Press the power button to check the battery indicator lights.

- If the power bank is completely drained, it may take a few minutes of charging before the indicators light up.
