OIEXI W6

OIEXI 4K Digital Camera

MODEL W6 USER MANUAL

1. Introduction

Thank you for choosing the OIEXI 4K Digital Camera, Model W6. This camera is designed to capture high-quality photos and videos with its 12X optical zoom, 64MP sensor, and 4K video capabilities. It features autofocus, anti-shake technology, a built-in fill light and flash, and can also function as a webcam for live streaming. This manual provides detailed instructions on how to set up, operate, and maintain your camera to ensure optimal performance.

2. What's in the Box

Please check the contents of your package to ensure all items are present:

- OIEXI 4K Digital Camera Body (Model W6)
- 64GB SD Card
- Lithium Ion Battery
- Type-C USB Cable
- Brown Leather Camera Case
- Lens Cap
- Cleaning Cloth
- User Manual

Ideal Gift for Beginners

3. Setup

3.1 Inserting the Battery and SD Card

1. Locate the battery and SD card compartment on the bottom of the camera.
2. Open the compartment cover.
3. Insert the Lithium Ion battery, ensuring the correct orientation as indicated inside the compartment.
4. Insert the 64GB SD card into the designated slot until it clicks into place. Ensure the card is inserted correctly to avoid damage.
5. Close the compartment cover securely.

3.2 Charging the Battery

- Connect the provided Type-C USB cable to the camera's USB port.

- Connect the other end of the USB cable to a USB power adapter (not included) or a computer's USB port.
- The charging indicator light will illuminate. It will turn off or change color once charging is complete.
- The camera supports dual charging options: via USB-C cable or an external battery charger (not included).

3.3 Initial Power On

Press and hold the Power button located on the top of the camera until the screen illuminates. Follow any on-screen prompts for initial setup, such as setting the date and time.

4. Operating Instructions

4.1 Basic Photography

- **Power On/Off:** Press the power button.
- **Mode Selection:** Use the mode dial or menu to select between photo, video, and other modes.
- **Zoom:** Utilize the zoom lever to adjust the 12X optical zoom for distant subjects. The camera also supports digital zoom.
- **Autofocus:** The camera features autofocus to ensure sharp images. Half-press the shutter button to focus before fully pressing to capture.
- **Flash:** The built-in flash can be activated for low-light conditions.
- **Fill Light:** Use the built-in fill light for additional illumination in dim environments.

12X Optical Zoom

Even at the highest magnification, the picture in the shot is still clear.

4.2 Video Recording

- Switch to video mode.
- Press the record button to start and stop recording 4K UHD video at 30FPS.
- The anti-shake function helps stabilize video footage.
- Supports external microphone connection via 3.5mm jack (microphone not included).
- Video pause function allows for seamless recording breaks.

4.3 Webcam Function for Live Streaming

- Connect the camera to your computer using the USB cable.
- Select "webcam" mode on the camera when prompted.
- The camera can now be used for live streaming, vlogging, online teaching, and video calls.

5. Maintenance

5.1 Cleaning the Camera

- Use the provided cleaning cloth to gently wipe the camera body and screen.
- For the lens, use a lens brush or air blower to remove dust, then gently wipe with a specialized lens cleaning cloth and solution if necessary. Avoid touching the lens directly with fingers.
- Do not use harsh chemicals or abrasive materials.

5.2 Battery Care

- Charge the battery fully before first use.
- Avoid exposing the battery to extreme temperatures.
- If storing the camera for an extended period, remove the battery.

5.3 Storage

Store the camera in a cool, dry place, away from direct sunlight and excessive humidity. Use the provided leather case for protection when not in use or during travel.

6. Troubleshooting

Problem	Possible Cause	Solution
Camera does not power on.	Battery is dead or not inserted correctly.	Charge the battery. Reinsert the battery correctly.
Cannot take photos/videos.	SD card is full, locked, or not inserted.	Delete unnecessary files. Unlock the SD card. Reinsert the SD card.
Images are blurry.	Autofocus issue, dirty lens, or camera shake.	Ensure autofocus is engaged. Clean the lens. Use anti-shake function or a tripod.
Wi-Fi connection fails.	Incorrect password, camera Wi-Fi not enabled, or app issue.	Verify password. Enable Wi-Fi on camera. Restart app/camera.
