Sunhouse AM20M6E

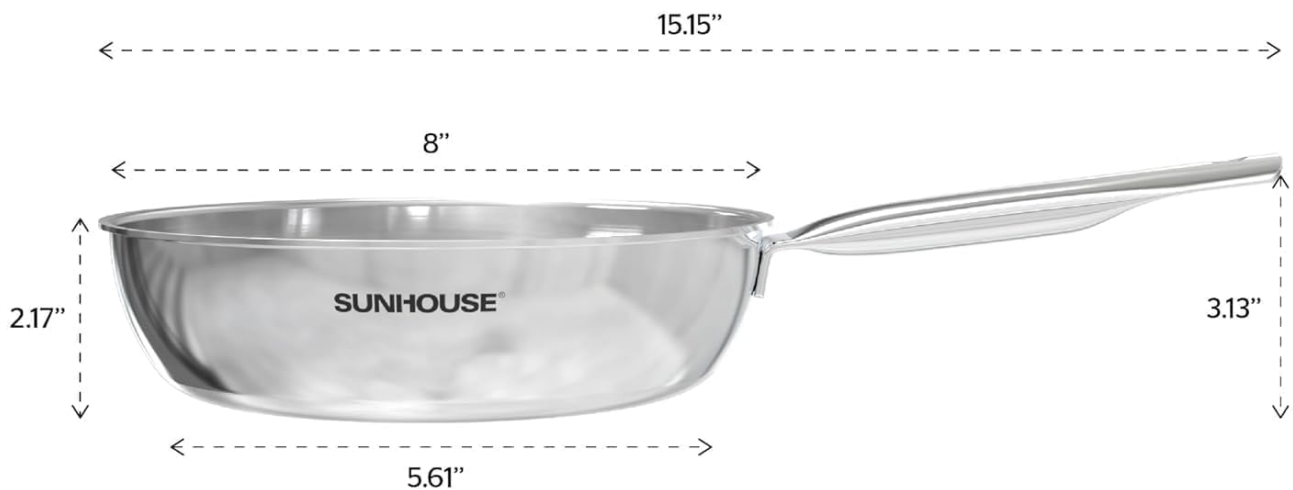

Sunhouse 18/10 Stainless Steel Pan 8 Inch Instruction Manual

Model: AM20M6E

INTRODUCTION

Thank you for choosing the Sunhouse 18/10 Stainless Steel Pan. This 8-inch, 3-ply clad frying pan is designed for durability, even heat distribution, and versatile cooking. It is compatible with various cooktops, including induction, and is oven and dishwasher safe. This manual provides essential information for the proper use and care of your new pan.

8 Inches | For 2-3 People

Innovative Hollow Handle

Reduce Heat Transfer

Key Features:

- **Coating-Free Design:** This pan offers non-stick performance without synthetic coatings when properly used, making it ideal for various cooking tasks.
- **Superior Heat Distribution:** The 3-ply clad construction ensures even heating, preventing hot spots and promoting consistent cooking results.
- **Multi-Purpose Versatility:** Suitable for frying, searing, omelets, and more.
- **Professional-Grade Durability:** Crafted from high-quality 18/10 stainless steel for long-term use.
- **Easy Care:** Dishwasher safe and oven safe up to 500°F (260°C).

SETUP

Before First Use:

1. **Unpack:** Carefully remove the pan from its packaging and dispose of all packing materials.

2. **Wash:** Wash the pan thoroughly with warm, soapy water and a soft sponge.
3. **Rinse and Dry:** Rinse the pan completely and dry it immediately with a clean towel to prevent water spots.

Free of harmful chemicals

Cook with stainless steel for more peace of mind

OPERATING INSTRUCTIONS

Achieving Non-Stick Performance:

While this pan does not have a synthetic non-stick coating, you can achieve excellent non-stick results by following these steps:

1. **Preheat:** Place the empty pan on medium heat for 2-3 minutes. To test if it's ready, sprinkle a few drops of water into the pan. If the water beads up and dances across the surface, the pan is sufficiently preheated. If it evaporates immediately, the pan is too hot; remove it from heat, let it cool slightly, and try again.
2. **Add Oil:** Once properly preheated, add a thin layer of cooking oil or butter to the pan. Swirl to coat the bottom evenly.
3. **Cook:** Add your food to the pan. Ensure food is at room temperature for best results.

Caution

Prying pans don't have a non-stick coating

Follow THE USER MANUAL* and these tips:

Test heat with water drop

Use oil or butter

Use medium heat

Room temperature food

**Applied in product guides and documents*

Cooktop Compatibility:

Your Sunhouse pan is compatible with all cooktop types:

- Gas
- Induction
- Electric
- Ceramic
- Glass

MAXIMUM HEAT CONTROL

The lightweight aluminum core offers peerless heat conduction, while a stainless exterior promises superior circulation and retention. The result: faster 360-degree heating.

MAINTENANCE AND CLEANING

Dishwasher Safe:

The Sunhouse stainless steel pan is dishwasher safe for effortless cleanup. Place it securely in the dishwasher, ensuring it does not block spray arms.

Hand Washing:

For best results and to maintain the pan's luster, hand washing is recommended. Use warm, soapy water and a non-abrasive sponge or cloth. For stubborn food residue, allow the pan to soak in warm water for a few minutes before cleaning. A paste of baking soda and water can help remove discoloration or stuck-on bits.

TROUBLESHOOTING

Food Sticking:

If food is consistently sticking, ensure you are properly preheating the pan and using an adequate amount of cooking oil or butter. Stainless steel requires proper heat management to prevent sticking. Refer to the "Operating Instructions" section for detailed steps on achieving non-stick performance.

Discoloration:

High heat can sometimes cause a rainbow-like discoloration on stainless steel. This is harmless and can often be removed by cleaning with a mixture of white vinegar and water, or a specialized stainless steel cleaner.
