Pifco Medium Ironing Board Model 211330 User Manual

Your guide to setting up, operating, and maintaining your Pifco ironing board.

INTRODUCTION

Thank you for choosing the Pifco Medium Ironing Board, Model 211330. This ironing board is designed for practicality and efficiency, featuring a lightweight, foldable design, adjustable height, and a durable carbon steel frame with a 100% cotton cover. This manual provides essential information for safe and effective use of your new ironing board.

PRODUCT OVERVIEW

Image 1: Top-down view of the Pifco Medium Ironing Board. The board features a white surface with a blue abstract pattern cover. The white frame and legs are visible at the top and bottom. This image illustrates the overall design and surface area of the ironing board.

The Pifco Medium Ironing Board is engineered for stability and ease of use. It features a robust 4-leg carbon steel frame, a steam-permeable mesh surface, and a fixed iron rest for convenience and safety. Its foldable design allows for compact storage, and the height is adjustable to suit various user preferences.

SETUP INSTRUCTIONS

1. **Unpack the Ironing Board:** Carefully remove the ironing board from its packaging. Ensure all components are present and undamaged.
2. **Unfold the Legs:** Place the ironing board on a flat, stable surface. Locate the leg release mechanism (usually a lever or button underneath the board). Press or pull the mechanism to release the legs.
3. **Extend the Legs:** Gently pull the legs outwards until they are fully extended and locked into place. Ensure all four feet are firmly on the ground to prevent wobbling.
4. **Adjust Height:** The ironing board's height is adjustable between 75 cm and 89 cm. Locate the height adjustment lever or button on one of the legs. Press the lever/button and raise or lower the board to your desired working height. Release the lever/button to lock the height in position. Verify that the board is stable at the chosen height.
5. **Position the Iron Rest:** The board includes a fixed iron rest. Ensure it is clear and ready for use.

Image 2: Detail of the fixed iron rest at the top of the ironing board. This rest provides a safe place to temporarily set down a hot iron during use. The image also hints at the leg structure and adjustment points.

OPERATING INSTRUCTIONS

Using your Pifco Medium Ironing Board is straightforward. Follow these guidelines for optimal ironing results:

- **Prepare Your Garments:** Ensure clothes are clean and damp, if required for ironing.
- **Heat Your Iron:** Set your iron to the appropriate temperature for the fabric you are ironing.
- **Place Garment on Board:** Lay the garment flat on the ironing surface. The 100% cotton cover and mesh structure are designed to allow steam to pass through efficiently, aiding in wrinkle removal.
- **Iron Safely:** Iron your garments as usual. When pausing, always place the hot iron on the fixed iron rest provided at the end of the board. **Do not leave a hot iron unattended on the fabric cover.**
- **Folding for Storage:** Once ironing is complete and the board has cooled, release the height adjustment and leg locking mechanisms to fold the board flat for compact storage.

MAINTENANCE

Proper maintenance will extend the life of your ironing board:

- **Cleaning the Cover:** The 100% cotton cover is machine washable at 40°C. Remove the cover from the board before washing. Allow it to dry completely before placing it back on the board.
- **Frame Cleaning:** Wipe the carbon steel frame with a damp cloth as needed. Avoid abrasive cleaners.
- **Storage:** Store the folded ironing board in a dry place away from direct sunlight and extreme temperatures.

TROUBLESHOOTING

If you encounter any issues with your Pifco Medium Ironing Board, consider the following:

- **Board is Unstable/Wobbly:**
 - Ensure all four legs are fully extended and locked into their designated positions.
 - Verify that the height adjustment mechanism is securely locked.
 - Place the board on a flat, even surface. Uneven flooring can cause instability.
 - Check the non-slip feet for any damage or wear.
- **Difficulty Adjusting Height:**
 - Ensure the height adjustment lever/button is fully engaged when attempting to move the board up or down.
 - Do not force the mechanism. If it feels stiff, check for any obstructions.

SPECIFICATIONS

Brand	Pifco
Model Number	211330
Color	White
Dimensions (L x W x H)	110 x 34 x 90 cm (unfolded, max height)
