XIEBro T8S Robot Vacuum Cleaner Replacement Mop Board Instruction Manual

INTRODUCTION

This manual provides comprehensive instructions for the installation, operation, and maintenance of your XIEBro T8S Robot Vacuum Cleaner Replacement Mop Board. Please read this manual thoroughly before use to ensure proper function and longevity of the product.

PRODUCT OVERVIEW

The XIEBro T8S Replacement Mop Board is designed to seamlessly integrate with your T8S Robot Vacuum Cleaner, ensuring continued optimal mopping performance. This component is crucial for the wet cleaning function of your robot vacuum.

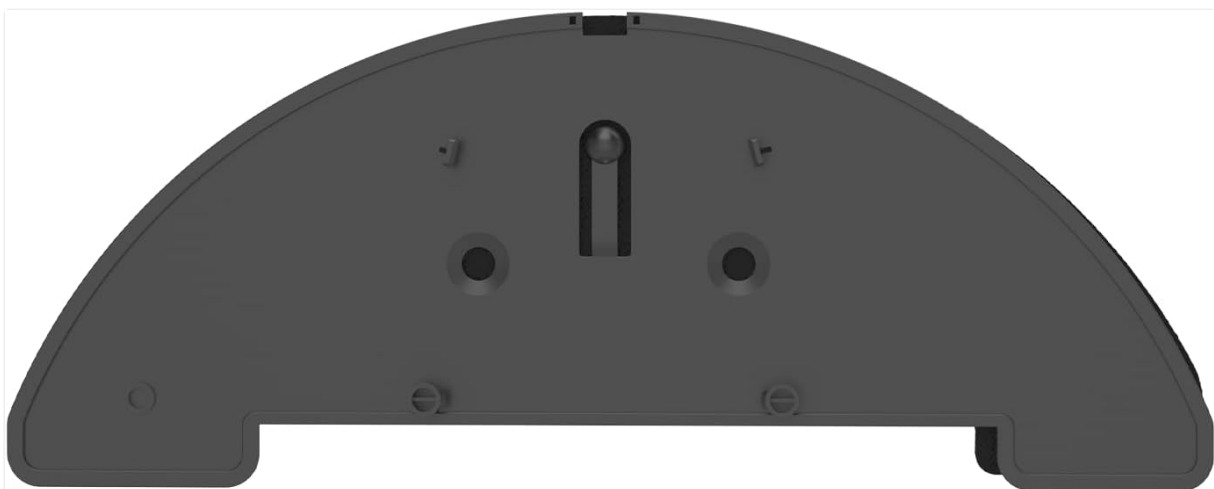

Figure 1: XIEBro T8S Robot Vacuum Cleaner Replacement Mop Board. This image displays the underside of the black, semi-circular mop board, showing attachment points and a central slot.

SETUP AND INSTALLATION

1. **Power Off:** Ensure your T8S Robot Vacuum Cleaner is powered off and disconnected from its charging base before beginning installation.
2. **Remove Old Mop Board (if applicable):** If replacing an existing mop board, gently detach it from the underside of the robot vacuum. Refer to your robot vacuum's original manual for specific removal instructions if needed.
3. **Attach New Mop Board:** Align the new XIEBro T8S Replacement Mop Board with the designated attachment points on the underside of your robot vacuum. Press firmly until it clicks securely into place. Ensure all clips or fasteners are engaged.
4. **Prepare Mop Pad:** Attach a clean mop pad to the mop board. Most mop pads use a hook-and-loop (Velcro) system for easy attachment.
5. **Fill Water Tank (if applicable):** If your robot vacuum has a water tank for mopping, fill it with clean water according to your robot vacuum's instructions. Do not add cleaning solutions unless explicitly stated by the robot vacuum manufacturer.
6. **Power On:** Place the robot vacuum back on its charging base or power it on manually.

Video 1: This video demonstrates the installation of various robot vacuum accessories, including a mop pad, which can provide visual guidance for attaching the mop board and pad.

OPERATING THE MOP BOARD

Once the replacement mop board is securely installed and the mop pad is attached, your T8S Robot Vacuum Cleaner will utilize it during its mopping cycles. Ensure the water tank is filled (if applicable) for wet mopping.

- **Initiate Cleaning:** Start a cleaning cycle via the robot vacuum's power button, remote control, or the companion mobile application.
- **Monitor Performance:** Observe the robot vacuum's mopping performance. If streaks or insufficient cleaning occur, check the mop pad for saturation or dirt.
- **Avoid Carpets:** Ensure the robot vacuum is set to avoid carpeted areas during mopping cycles to prevent damage to carpets and the mop board.

MAINTENANCE AND CARE

Regular maintenance of your mop board and pads is essential for optimal cleaning results and product longevity.

1. **Clean Mop Pad After Each Use:** Remove the mop pad from the mop board after every mopping cycle. Wash the mop pad thoroughly with water and mild detergent. Allow it to air dry completely before reattaching or storing.
2. **Inspect Mop Board:** Periodically inspect the mop board for any debris, hair, or residue buildup. Clean with a damp cloth. Ensure the attachment points are free from obstruction.
3. **Replace Mop Pads:** Mop pads wear out over time. Replace them every 1-3 months, or sooner if you notice reduced cleaning effectiveness or damage.
4. **Empty Water Tank:** If your robot vacuum has a water tank, empty any remaining water after each mopping session to prevent mold or mildew buildup.

TROUBLESHOOTING

- **Mop Board Not Attaching Securely:**

- Ensure the mop board is correctly aligned with the robot vacuum's chassis.
- Check for any debris obstructing the attachment clips or slots.

- **Poor Mopping Performance (Streaks, Insufficient Water):**

- Verify the mop pad is clean and properly attached.
- Ensure the water tank (if applicable) is filled and correctly installed.
- Check for clogs in the water dispensing nozzles on the robot vacuum (refer to your robot vacuum's manual).
- Replace the mop pad if it is old or worn out.

SPECIFICATIONS

Brand	XIEBro
Model Name	Mop Board Compatible for T8S
Compatible Model	T8S Robot Vacuum Cleaner
Color	Black
Product Dimensions	6.93"L x 5.43"W x 0.94"H
Included Components	T8S Robot Vacuum Cleaner Replacement Mop Board Compatible for T8S

WARRANTY AND SUPPORT

If the item arrived defective, please contact us in time to ask for a replacement. For any questions or support regarding your XIEBro T8S Robot Vacuum Cleaner Replacement Mop Board, please contact XIEBro customer service.
