## 4. Setup

Follow these steps for initial setup of your Hododou record player:

1. **Unpacking:** Carefully remove the record player from its packaging. Remove all protective materials, including the foam block under the tone arm and any plastic wrapping.
2. **Power Connection:** Connect the provided power adapter to the 'DC IN' port on the rear of the unit and plug it into a wall outlet.
3. **Placing a Record:** Open the lid. Place your vinyl record on the turntable platter. If playing a 7-inch single, place the 45 RPM adapter over the spindle before placing the record.
4. **Powering On:** Turn the 'On/Off & Volume' knob clockwise to power on the unit. The power/Bluetooth indicator light will illuminate.

## 5. Operating Instructions

---

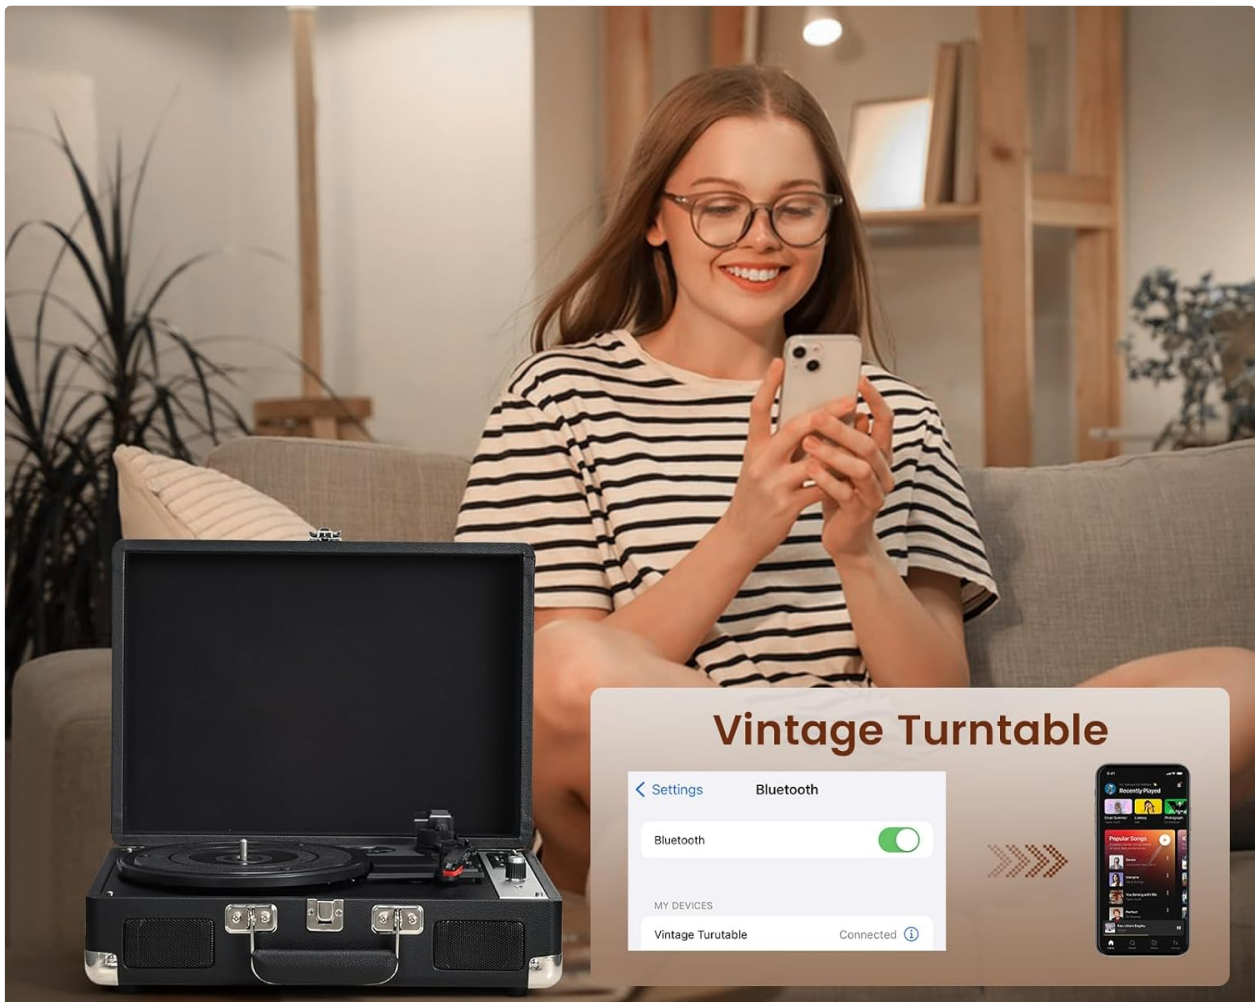

### 5.1 Playing Vinyl Records

1. **Select Speed:** Use the 'LP Speed Switch' to select the appropriate speed for your record (33-1/3, 45, or 78 RPM).
2. **Lift Tonearm:** Gently push the 'Lift Lever' backward to raise the tone arm.
3. **Position Tonearm:** Manually move the tone arm over the desired track on the record.
4. **Lower Tonearm:** Gently push the 'Lift Lever' forward to slowly lower the tone arm onto the record. Playback will begin.
5. **Adjust Volume:** Rotate the 'On/Off & Volume' knob to adjust the sound level.
6. **Auto-Stop Function:** The 'Auto Stop Switch' can be set to ON or OFF. When ON, the turntable will automatically stop spinning when the record finishes. When OFF, the platter will continue to spin.

### 5.2 Bluetooth Connectivity

Stream music wirelessly from your Bluetooth-enabled devices:

1. **Activate Bluetooth:** Turn on the record player. The power/Bluetooth indicator light will blink, indicating it's in pairing mode.
2. **Pair Device:** On your smartphone or other Bluetooth device, search for 'Vintage Turntable' in the Bluetooth settings and select it to pair.
3. **Play Music:** Once paired, the indicator light will stop blinking. You can now play music from your device through the record player's built-in speakers.

### 5.3 USB/SD Playback and Recording

The record player supports playback from USB drives and SD cards, and can record vinyl directly to these formats.

1. **Insert Media:** Insert a USB flash drive into the 'USB Playback' port or an SD card into the 'SD Card' slot.
2. **Select Mode:** Press the 'MODE' button to switch to USB or SD playback mode.
3. **Playback Controls:** Use the play/pause, next, and previous buttons to control your music.
4. **Recording Vinyl:** (Specific recording instructions are typically detailed in the full manual. Generally, this involves selecting the recording function and playing the vinyl.)

## 7. Maintenance

Proper care will ensure the longevity and optimal performance of your record player.

- **Cleaning the Stylus:** Gently clean the stylus regularly with a soft brush designed for turntable needles, brushing from back to front. Avoid touching the stylus with your fingers.
- **Cleaning the Unit:** Wipe the exterior of the record player with a soft, dry cloth. Do not use abrasive cleaners or solvents.
- **Record Care:** Keep your vinyl records clean and free of dust. Store them vertically in their sleeves to prevent warping.
- **Storage:** When not in use, ensure the tone arm is secured with the tone arm clip and the lid is closed to protect the components from dust and damage.

## 8. Troubleshooting

If you encounter any issues, please refer to the following common problems and solutions:

- **No Power:** Ensure the power adapter is securely connected to both the unit and a working power outlet. Check if the 'On/Off & Volume' knob is turned clockwise to the ON position.
- **No Sound:** Verify the volume is turned up. If using external speakers, ensure they are properly connected and powered on. If using headphones, ensure they are fully plugged in.
- **Skipping Record:** Ensure the record player is on a stable, level surface. Check if the record is clean and free of dust or debris. Ensure the stylus is clean and not damaged.
- **Bluetooth Not Connecting:** Make sure the record player is in Bluetooth pairing mode (indicator light blinking). Ensure your device's Bluetooth is enabled and within range. Try restarting both the record player and your Bluetooth device.
- **Poor Sound Quality:** Check the record for dust or scratches. Ensure the stylus is clean and properly seated. For vinyl playback, ensure the correct speed is selected.
