

70mai A800S

70mai 4K Dash Cam A800S User Manual

Model: A800S

INTRODUCTION

This manual provides comprehensive instructions for the installation, operation, and maintenance of your 70mai 4K Dash Cam A800S. Please read this manual thoroughly before using the product to ensure proper functionality and safety.

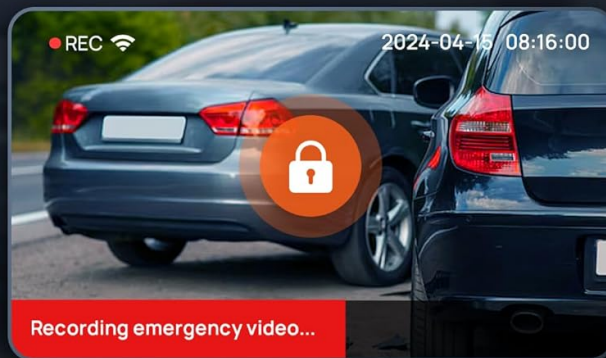

PACKAGE CONTENTS

Verify that all items listed below are included in your package:

- Dash Cam x 1
- Rear camera x 1 (if included in package)
- Mount x 1
- Power cord x 1
- Car charger x 1
- Wiring trim tool x 1
- Electrostatic sticker x 2
- Adhesive sticker x 2
- User manual x 1
- Rear cam User manual x 1 (if included in package)
- Memory Card (256GB) x 1

G-SENSOR

Collision detection parking mode, G-sensor could detect collision and lock the video

Loop Recording

When the SD card is full, the loop recording auto overwrites the oldest file

This image displays the complete contents of the 70mai 4K Dash Cam A800S package, including the main dash cam unit, rear camera, mount, power cord, car charger, wiring trim tool, electrostatic stickers, adhesive stickers, user manuals, and a 256GB memory card.

SETUP AND INSTALLATION

1. Prepare the MicroSD Card

Insert the provided 256GB MicroSD card into the dash cam's MicroSD card slot. Ensure the card is inserted correctly with the contacts facing the proper direction. For optimal performance, it is recommended to format the MicroSD card within the dash cam settings upon first use.

The image shows the 70mai 4K Dash Cam A800S, a 256GB MicroSD card, and a smartphone displaying the 70mai app interface, indicating the integration of the memory card and app control.

2. Install the Front Dash Cam

1. Clean the windshield area where the dash cam will be mounted.
2. Attach an electrostatic sticker to the windshield, then attach the adhesive mount to the electrostatic sticker.
3. Slide the dash cam onto the mount.
4. Adjust the lens angle to ensure a clear view of the road ahead.

3. Install the Rear Camera (Optional)

If your package includes a rear camera (RC06), install it on the rear windshield. Connect the rear camera to the main dash cam unit using the provided cable. Ensure the cable is routed safely and does not obstruct your view or interfere with vehicle operations.

Night Owl Vision

Capture Clear Footage Even in Low Light Environment

aperture

7-layer
Lens

This diagram illustrates the installation of both front (4K) and rear (1080P) cameras, highlighting their respective 140-degree and 130-degree wide-angle views for comprehensive road coverage.

4. Power Connection

Connect the power cord to the dash cam and plug the car charger into your vehicle's cigarette lighter socket. Route the power cable neatly along the windshield and dashboard using the wiring trim tool to avoid obstruction.

OPERATION

Power On/Off

- The dash cam will automatically power on and begin recording when your vehicle's engine starts.
- It will automatically power off when the engine is turned off.
- To manually power on/off, press and hold the power button.

Key Features

4K Ultra HD Recording

The 70mai A800S records in 4K (3840x2160) resolution, capturing clear and detailed footage of your journeys. The rear camera records in 1080P, providing dual-vision recording.

Recording

This image highlights the main features of the 70mai Dash Cam 4K A800S, including 4K UHD resolution, Sony IMX415 sensor, Night Owl Vision, 24-hour parking monitor, Wi-Fi & app control, G-sensor lock, and loop recording.

Super Night Vision

Equipped with a Sony IMX415 sensor and F1.8 aperture 7-glass lens, the A800S provides enhanced night vision capabilities, ensuring clear recordings in low-light conditions.

3840*2160 Dual Cameras

Delivering incredibly clear frames when you are on a road trip.

Front: 4K

Rear: 1080P

Front 140°

Rear 130°

The image demonstrates the "Night Owl Vision" feature of the 70mai Dash Cam A800S, capturing clear footage of a car at night, with the license plate clearly visible, indicating its performance in low-light environments.

Built-in GPS & Route Tracking

The integrated GPS module records real-time driving data including speed, time, and coordinates, which can be viewed via the 70mai app. This data is stored locally on the device.

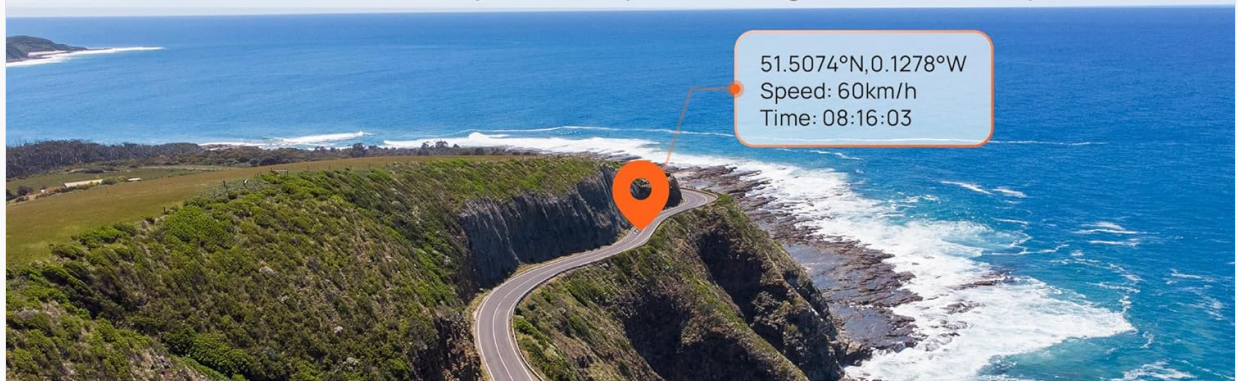

Built-in Wi-Fi & APP Control

Sharing is made easy with the 70mai App.

Built-in GPS Tracking

Built-in GPS accurately records your driving location and speed

This image illustrates the built-in Wi-Fi and GPS tracking capabilities of the 70mai Dash Cam A800S, showing how the device connects to a smartphone app for sharing and how GPS accurately records driving location and speed on a map.

G-Sensor & Emergency Recording

The built-in G-sensor automatically detects sudden movements or collisions. In such events, the dash cam will automatically lock the current video segment to prevent it from being overwritten by loop recording.

The image depicts the G-Sensor and Loop Recording functionalities. It shows a collision being detected and recorded, with the video being locked, and also illustrates how loop recording overwrites older files when the SD card is full.

Loop Recording

When the MicroSD card reaches its storage limit, the dash cam automatically overwrites the oldest unlocked video files to ensure continuous recording.

24H Parking Mode

With the optional 70mai hardware kit UP02 (sold separately, ASIN: B08R5SBKZR), the dash cam can monitor your vehicle for 24 hours. It detects motion and collisions, initiating recording to protect your parked vehicle. This mode includes motion detection, collision detection, and time-lapse recording.

Smart Parking Guardian Mode

Motion Detection

Collision Detection

Time-Lapse Recording

*To ensure proper functionality, the 70mai hardwire kit UP02 is required and sold separately. (ASIN: B08R5SBKZR)

This image illustrates the "Smart Parking Guardian Mode" of the 70mai Dash Cam A800S, detailing its capabilities such as motion detection, collision detection, and time-lapse recording. It also notes that the 70mai hardwire kit UP02 is required for this functionality.

ADAS (Advanced Driving-Assistance System)

The ADAS feature provides real-time voice alerts for safety issues such as lane departure warnings and forward collision warnings, helping to prevent accidents.

Wi-Fi & App Control

Connect the dash cam to the 70mai app on your smartphone via Wi-Fi. The app allows you to view live footage, play back recorded videos, download files, and adjust settings.

MAINTENANCE

MicroSD Card Management

- **Formatting:** Regularly format the MicroSD card (e.g., once a month) within the dash cam settings to maintain optimal performance and prevent data corruption.
- **Capacity:** The dash cam supports MicroSD cards from 32GB to 256GB. Ensure you use a high-endurance card for reliable recording.

Capacity options from 32GB to 512GB

Flexibly meet your different storage needs
without wasting storage space

				
512GB	24 hours	78 hours	150,400	78,800
256GB	12 hours	39 hours	75,200	39,400
128GB	6 hours	20 hours	37,600	19,400
64GB	3 hours	10 hours	18,800	9,900
32GB	-	5 hours	9,400	4,900

This image displays a table outlining MicroSD card capacity options from 32GB to 512GB and their corresponding recording durations for 4K and HD video, as well as storage for photos and music, demonstrating flexible storage solutions.

Cleaning

- Wipe the dash cam lens and screen with a soft, dry cloth to remove dust or smudges.
- Do not use chemical cleaners or abrasive materials.

TROUBLESHOOTING

Problem	Solution
---------	----------

Problem	Solution
Dash cam does not power on.	Ensure the power cable is securely connected to both the dash cam and the car charger. Check if the car charger is properly inserted into the cigarette lighter socket and if the vehicle's power outlet is functional.
Recording stops unexpectedly.	Check the MicroSD card. It might be full, corrupted, or not a high-endurance card. Format the card or replace it if necessary. Ensure the dash cam's firmware is up to date.
Video footage is blurry or unclear.	Clean the dash cam lens. Ensure the protective film has been removed from the lens. Check if the lens angle is correctly adjusted.
Wi-Fi connection issues with the app.	Ensure Wi-Fi is enabled on the dash cam and your smartphone. Restart both devices. Try reconnecting through the 70mai app.
Parking mode not working.	Verify that the 70mai hardwire kit UP02 is correctly installed and connected. Ensure parking mode is enabled in the dash cam settings.

SPECIFICATIONS

Model: A800S

Brand: 70mai

Video Capture Resolution: Front: 4K (3840x2160), Rear: 1080P

Image Sensor: Sony IMX415

Lens: F1.8 Aperture, 7-Glass Lens

Field of View: Front: 140°, Rear: 130°

Display: 3" IPS LCD

Connectivity: Wi-Fi

Special Features: Built-in GPS, Super Night Vision, 24H Parking Mode (requires hardwire kit), ADAS, G-Sensor, Loop Recording

Storage: Supports MicroSD cards from 32GB to 256GB (UHS-1 or above recommended)

Mounting Type: Windshield Mount

Color: Black

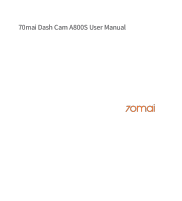

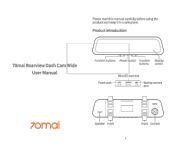

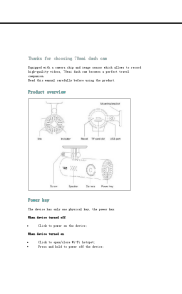

WARRANTY AND SUPPORT
