

Adol

User Manual: ASUS Adol Noise Cancelling Earbuds

Model: Adol | Brand: Generic

INTRODUCTION

The ASUS Adol Noise Cancelling Earbuds are designed to provide a superior audio experience with advanced features for daily use. These earbuds feature 13mm dynamic drivers for rich, clear sound, advanced touch controls for easy management, and effective noise-canceling technology for an immersive listening experience. With an ergonomic design and long-lasting battery life, they offer both comfort and functionality, powered by Bluetooth 5.0 technology for stable wireless connectivity.

WHAT'S INCLUDED

Your package should contain the following items:

- ASUS Adol Noise Cancelling Earbuds (Left and Right)
- Rotatable Charging Case
- USB Type-C Charging Cable
- User Manual

PRODUCT OVERVIEW

The ASUS Adol earbuds are engineered for optimal performance and user comfort. Key features include:

- **Superior Sound Quality:** Equipped with large 13mm dynamic drivers for rich, clear, and powerful audio.
- **Advanced Touch Control:** Intuitive touch system for media management and call handling.
- **High-Quality Microphone:** Ensures clear voice transmission during calls and gaming, with effective noise reduction.
- **Type-C Charging Interface:** Fast and efficient charging with the included charging bay.
- **Ergonomic Design:** Lightweight PP material and in-ear style for comfortable, secure fit during extended use.
- **Effective Noise Cancelling:** Sound isolation technology to minimize background noise for focused listening.
- **Long Battery Life:** Rechargeable UN 3481 battery provides extended audio playback.
- **Latest Bluetooth 5.0 Technology:** Stable and quick wireless connection with enhanced audio quality and reduced latency.
- **Sleek Aesthetic:** Classic white color with a minimalist design.

Lightweight and more breathable

The image features a woman with brown hair and blue eyes wearing a white earbud. Two callout boxes are overlaid on the image. The top callout box shows a diagram of an ear with a white earbud inserted, with a 45-degree angle marked between the earbud and the ear canal. The bottom callout box shows a close-up of the earbud's tip, which has rounded corners. The background is a soft, purple and pink bokeh.

Super-large moving coil

Image: An exploded view of the earbud highlighting the "Super-large moving coil" component, indicating advanced speaker technology for sound quality.

Image: A comparison chart detailing the advancements in Bluetooth chip technology, contrasting features like transmission speed, power consumption, and communication distance between Bluetooth 5.0 and 5.3. The ASUS Adol earbuds utilize Bluetooth 5.0 technology.

SETUP GUIDE

1. Initial Charging

Before first use, ensure the earbuds and charging case are fully charged.

1. Place both earbuds into the charging case.
2. Connect the USB Type-C charging cable to the charging port on the case and the other end to a compatible USB power source (e.g., computer USB port, wall adapter).
3. The indicator light on the case will show charging status. Once fully charged, the light will change or

turn off.

2. Bluetooth Pairing

Follow these steps to pair your earbuds with a Bluetooth-enabled device:

1. Ensure the earbuds are charged and inside the charging case.
2. Open the charging case. The earbuds will automatically enter pairing mode, indicated by a flashing light (refer to specific light indicators in the product's quick start guide if available).
3. On your device (smartphone, tablet, computer), go to Bluetooth settings and turn Bluetooth on.
4. Search for available devices. You should see "ASUS Adol" or a similar name appear in the list.
5. Select "ASUS Adol" to connect. Once connected, a voice prompt or indicator light will confirm successful pairing.
6. If pairing fails, place the earbuds back in the case, close it, wait a few seconds, and then repeat the steps.

OPERATING INSTRUCTIONS

The ASUS Adol earbuds feature intuitive touch controls for managing audio playback, calls, and voice assistant functions.

Touch Controls

Action	Gesture	Function
Play/Pause	Click the left or right earbud once.	Starts or pauses audio playback.
Next/Previous Track	Double-click any earbud.	Skips to the next track or returns to the previous one (functionality may vary by app).
Voice Assistant	Long press (2 seconds) the left or right earbud.	Activates your device's voice assistant (e.g., Siri, Google Assistant).
Reject/Hang Up Call	Click the left or right earbud once during an incoming call or active call.	Rejects an incoming call or ends an active call.
Increase/Decrease Volume	Tap the left or right earbud three times.	Adjusts the volume level.

MAINTENANCE AND CARE

Proper maintenance ensures the longevity and optimal performance of your ASUS Adol earbuds.

- **Cleaning:** Regularly clean the earbuds and charging case with a soft, dry, lint-free cloth. Do not use abrasive cleaners, alcohol, or chemical solvents. Gently remove any earwax or debris from the earbud tips and speaker mesh using a small, soft brush or cotton swab.
- **Storage:** When not in use, always store the earbuds in their charging case to protect them from dust, dirt, and physical damage. Store the case in a cool, dry place away from direct sunlight and extreme temperatures.

- **Charging:** Use only the provided USB Type-C cable and a certified power adapter. Avoid overcharging or completely draining the battery frequently, as this can reduce battery lifespan.
- **Water Exposure:** These earbuds are not waterproof. Avoid exposing them to water, sweat, or high humidity. If they get wet, dry them thoroughly before placing them back in the charging case or using them.
- **Handling:** Handle the earbuds and case with care. Avoid dropping them or subjecting them to strong impacts.

TROUBLESHOOTING

If you encounter issues with your ASUS Adol earbuds, try the following solutions:

Problem	Possible Cause	Solution
Earbuds not pairing/connecting.	Earbuds not in pairing mode, out of range, or low battery.	<p>Ensure earbuds are charged.</p> <p>Place earbuds in case, close, then open to re-enter pairing mode.</p> <p>Ensure Bluetooth is enabled on your device and within range (approx. 10 meters).</p> <p>Forget "ASUS Adol" from your device's Bluetooth list and re-pair.</p>
No sound or low volume.	Volume too low, earbud placement, or debris blocking speaker.	<p>Increase volume on both earbuds and connected device.</p> <p>Ensure earbuds are properly seated in your ears.</p> <p>Clean any debris from the earbud speaker mesh.</p> <p>Reconnect the earbuds to your device.</p>
Charging case not charging.	Faulty cable, power source, or dirty charging port.	<p>Check if the charging cable is securely connected.</p> <p>Try a different USB port or power adapter.</p> <p>Ensure the charging port on the case is clean and free of debris.</p>
One earbud not working.	Low battery, connection issue, or earbud not properly seated in case.	<p>Ensure both earbuds are charged.</p> <p>Place both earbuds back in the case, close, then open again.</p> <p>Try resetting the earbuds (refer to specific reset instructions if available in a quick start guide).</p>
