

Cheerdots CHP04

Cheerdots2 CHP04 Bluetooth Detachable Air Mouse User Manual

Brand: Cheerdots | Model: CHP04

INTRODUCTION

The Cheerdots2 CHP04 is a versatile 4-in-1 device combining an air mouse, touchpad, wireless presenter, and voice recorder. Its sleek, magnetic detachable design makes it lightweight and portable, ideal for various professional and personal uses. This manual provides instructions for setting up, operating, and maintaining your Cheerdots2 CHP04.

WHAT'S IN THE BOX

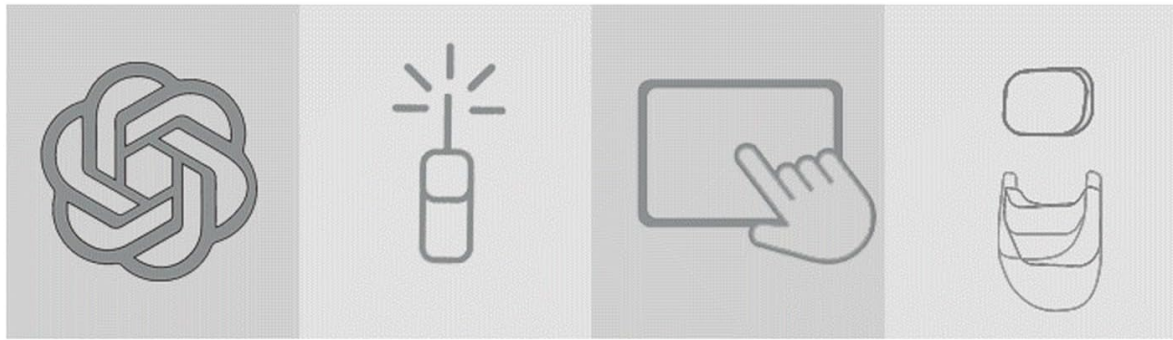

- Cheerdots2 CHP04 Main Mouse Unit
- Magnetic Base/Cradle
- 2.4G USB-A Wireless Receiver
- USB-C Charging Cable

KEY FEATURES

- **4-in-1 Functionality:** Combines air mouse, touchpad, presentation clicker, and voice recorder.
- **Detachable Design:** Sleek magnetic design allows the main unit to detach for handheld use.
- **Professional Presentation:** Features a laser pointer and spotlight for effective presentations.
- **Dual Connectivity:** Supports quick Bluetooth connection and 2.4G wireless.
- **Long Battery Life:** Up to 20 days of use on a single USB-C charge.
- **Wide Compatibility:** Compatible with macOS 10.15+ and Windows 10/11.
- **AI Integration:** Voice recording and integration with AI tools like ChatGPT (requires software)

installation).

SETUP

1. Initial Charging

Before first use, fully charge the Cheerdots2 mouse using the provided USB-C cable. Connect the USB-C end to the mouse and the USB-A end to a power source (e.g., computer USB port, wall adapter). The indicator light will show charging status.

2. Power On

Locate the ON/OFF switch on the underside of the main mouse unit. Slide it to the 'ON' position.

3. Connectivity Options

The Cheerdots2 offers two primary connection methods: Bluetooth and 2.4G Wireless.

Bluetooth Connection:

1. Ensure the mouse is powered on.
2. On the underside of the main mouse unit, switch to BT1 or BT2 mode.
3. Press and hold the 'BT Pairing' button until the blue indicator light starts flashing rapidly.
4. On your computer (Mac or Windows), go to Bluetooth settings and search for available devices.
5. Select 'Cheerdots2' (or similar pairing name) from the list and click 'Connect'.
6. Once paired, the blue light will become solid or turn off, indicating a successful connection.

2.4G Wireless Connection:

1. Ensure the mouse is powered on.
2. Locate the 2.4G USB-A wireless receiver (usually stored within the magnetic base).
3. Plug the 2.4G receiver into an available USB-A port on your computer.
4. On the underside of the main mouse unit, switch to 2.4G mode.
5. The mouse should automatically connect to your computer.

OPERATING MODES

1. Desktop Mode (Touchpad)

When the main mouse unit is attached to its magnetic base, it functions as a traditional desktop mouse with a touchpad. Use your fingers on the top surface for cursor control, scrolling, and gestures.

- **One-Finger Click:** Left/right side for left/right mouse click.
- **One-Finger Vertical Slide:** For page scrolling.
- **Two-Finger Swipe (Left/Right):** To switch desktops.
- **Two-Finger Swipe (Up/Down):** For multitasking selection.
- **Two-Finger Pinch/Expand:** For zooming.

2. Air Mode (Wireless Presenter & Laser Pointer)

Detach the main mouse unit from its base for handheld operation. This mode is ideal for presentations, allowing you to control your screen wirelessly and highlight key points.

- **Air Cursor Control:** Move the detached unit in the air to control the cursor on your screen.
- **Laser Pointer:** Activate the red laser pointer to draw attention to specific areas during presentations.
- **Presentation Controls:** Navigate slides and use spotlight features (may require companion software).

3. AI Voice & Recording

The detachable unit also functions as a voice recorder and integrates with AI tools for enhanced productivity.

- **Voice Recording:** Capture thoughts, meeting notes, or lectures directly through the device.
- **Speech-to-Text:** Convert spoken words into text (requires companion software).
- **ChatGPT Integration:** Interact with ChatGPT by speaking into the device (requires companion software and proper language settings).

MAINTENANCE

- **Cleaning:** Use a soft, dry cloth to clean the mouse and its base. Avoid harsh chemicals or abrasive materials.
- **Battery Care:** To prolong battery life, avoid fully discharging the mouse frequently. Charge it regularly.

- **Storage:** When not in use, store the mouse in a cool, dry place. Ensure the main unit is securely attached to its base to prevent loss.

TROUBLESHOOTING

- **Connection Issues:** If the mouse fails to connect, ensure it is charged and within range. Re-attempt pairing via Bluetooth or re-insert the 2.4G receiver. Check your device's Bluetooth settings.
- **Unresponsive Cursor:** Ensure the mouse is in the correct mode (Desktop or Air). Clean the optical sensor if in Desktop Mode.
- **AI/Voice Features Not Working:** Verify that the companion software is installed and updated. Check language settings within the software.
- **Detachable Unit Falling Off:** Ensure the magnetic connection is clean and free of debris.
