BUGATTI BG-ES-10-300-BK

Bugatti Electric Scooter User Manual

Model: BG-ES-10-300-BK | Brand: BUGATTI

1. Introduction

Welcome to the Bugatti Electric Scooter user manual. This document provides essential information for the safe and efficient operation, maintenance, and troubleshooting of your new electric scooter. The Bugatti Electric Scooter combines advanced engineering with elegant design, offering a powerful and smooth riding experience.

Figure 1: Bugatti Electric Scooter (Black model).

Key features of your Bugatti Electric Scooter include a touch screen display, powerful 1000W motor, three distinct speed modes, long-range battery life, 10-inch self-repairing off-road tires, dual shock absorption, and a dual brake system for enhanced safety.

2. Setup and Initial Use

2.1 Unpacking and Assembly

The Bugatti Electric Scooter is designed for easy assembly. Carefully remove all components from the packaging. Follow the included quick start guide for step-by-step assembly instructions. Ensure all connections are secure before proceeding.

2.2 Initial Charging

Before your first ride, fully charge the scooter's battery. A full charge typically takes approximately four hours. The battery management system is designed to prevent overheating and short-circuiting, ensuring safe charging.

2.3 Touch Screen Display and Passcode Protection

The scooter features a touch screen display that shows speed, mode, battery power, cruise control status, and headlight functions. For security, the scooter includes passcode protection. Refer to the quick start guide for initial setup of your personal passcode.

3. Operating Instructions

3.1 Speed Modes

Your Bugatti Electric Scooter offers three distinct speed modes to suit various riding conditions and preferences:

- **Eco Mode:** Up to 15 MPH (24 km/h) - Ideal for energy efficiency and longer rides.
- **Comfort Mode:** Up to 18 MPH (29 km/h) - A balanced mode for everyday commuting.
- **Sport Mode:** Up to 22 MPH (35 km/h) - For maximum performance and speed.

Figure 3: The scooter's display showing the three available speed modes.

3.2 Cruise Control

To activate cruise control, long-press the power throttle for more than 6 seconds while maintaining your desired speed. The scooter will then maintain this speed automatically.

3.3 Turn Signals and Lighting

The scooter is equipped with turn signals on both the front and back for enhanced visibility and safety. Utilize these signals when changing direction. The integrated LED lights provide illumination for night riding.

Figure 4: The Bugatti logo projection from the scooter, enhancing visibility and brand presence.

3.4 Braking System

The Bugatti Electric Scooter features a dual brake system for reliable stopping power. This includes a colored mechanical drum brake with a left mechanical brake lever and E-ABS electronic brakes for immediate and effective stops.

3.5 Folding Mechanism

For easy transport and storage, the scooter can be folded in seconds. Locate the folding mechanism on the stem and follow the instructions in the quick start guide to safely fold and unfold the scooter.

Figure 5: Overview of the scooter's key performance metrics: 286 lbs max capacity, 22 MPH max velocity, and 1000 Watt power.

4. Maintenance

4.1 Battery Care

To maximize battery life and performance, always charge the scooter using the provided charger. Avoid completely draining the battery before recharging. The integrated battery management system protects against overcharging, overheating, and short-circuiting.

4.2 Tire Maintenance

Your Bugatti Electric Scooter is equipped with 10-inch pneumatic tires featuring a self-repairing function. Regularly inspect tires for proper inflation and any signs of wear or damage. While self-repairing, severe punctures may still require professional attention.

4.3 General Cleaning and Storage

Clean the scooter regularly with a damp cloth. Avoid using harsh chemicals or abrasive materials. Store the scooter in a cool, dry place, away from direct sunlight and extreme temperatures, especially during long periods of non-use.

5. Troubleshooting

This section addresses common issues you might encounter with your Bugatti Electric Scooter. For problems not listed here, or if solutions do not resolve the issue, please contact customer support.

5.1 Scooter Not Turning On

- **Check Battery:** Ensure the battery is charged. Connect the charger and verify the charging indicator.
- **Power Button:** Press and hold the power button firmly for a few seconds.
- **Connections:** Verify all visible cable connections are secure.

5.2 Reduced Performance/Range

- **Battery Level:** Ensure the battery is fully charged. Performance can decrease with low battery.
- **Tire Pressure:** Check tire pressure. Under-inflated tires can significantly reduce range and speed.
- **Riding Conditions:** Steep inclines, heavy loads, and frequent stops can impact performance.

5.3 Display Issues

- **Restart Scooter:** Turn the scooter off and then on again.
- **Clean Screen:** Ensure the touch screen is clean and free of debris.

6. Specifications

Feature	Specification
Brand	BUGATTI
Model Name	BG-ES-10-300-BK
Color	BLACK
Age Range (Description)	Adult

Feature	Specification
Special Feature	Foldable
Weight Limit	286 Pounds
Product Dimensions	47"L x 19"W x 43"H
Number of Wheels	2
Wheel Material	Rubber
Frame Material	Aluminum
Handlebar Type	Flat
Wheel Size	10 Inches
Wheel Type	Pneumatic
Suspension Type	Rear Suspension
Grip Type	Ergonomic
Brake Style	Rear Braking
Maximum Distance Range	37 Miles
Manufacturer	BYTECH
UPC	805112117208
Item Package Dimensions L x W x H	50.9 x 26 x 9.2 inches
Package Weight	33.11 Kilograms
Item Dimensions LxWxH	47 x 19 x 43 inches
Material	Magnesium Alloy
Suggested Users	unisex-adult
Included Components	Charger, Manual
Size	10" Wheel
