

Graco Turn2Me 3-in-1

Graco Turn2Me 3-in-1 Rotating Convertible Car Seat

MODEL: TURN2ME 3-IN-1

Introduction

The Graco Turn2Me 3-in-1 Rotating Convertible Car Seat is designed to adapt as your child grows, offering three modes of use: rear-facing harness, forward-facing harness, and highback booster. Its innovative rotating feature simplifies getting your child in and out of the vehicle. This manual provides essential information for proper installation, operation, and maintenance to ensure your child's safety and comfort.

Key Features

- **3-in-1 Design:** Transitions from rear-facing harness (4-40 lb) to forward-facing harness (26.5-65 lb) to highback booster (40-100 lb).
- **One-Hand Rotation:** Allows the seat to rotate from rear-facing for easy loading and unloading.
- **SnugLock Technology:** Facilitates secure installation using either the vehicle seat belt or LATCH system in under one minute.
- **Graco ProtectPlus Engineered:** Tested to meet or exceed US safety standards, including side-impact testing.
- **No-Rethread Simply Safe Adjust Harness System:** Headrest and harness adjust together in one motion for a proper fit.
- **10-Position Headrest:** Provides customizable headrest height for growing children.
- **4-Position Recline:** Smoothly adjusts for comfort and installation.
- **Integrated InRight LATCH:** Offers a one-second attachment with an audible click for secure installation.
- **Dual Cup Holders:** Two easy-to-clean cup holders for convenience.
- **Steel-Reinforced Frame:** Enhances strength and durability.

Modes of Use

The Graco Turn2Me car seat adapts to your child's growth through three distinct stages:

1. **Rear-Facing Harness:** For infants weighing 4-40 lb.
2. **Forward-Facing Harness:** For toddlers weighing 26.5-65 lb.
3. **Highback Booster:** For children weighing 40-100 lb.

Safe rides as they grow 4-100 lb

Installation

Proper installation is crucial for your child's safety. Always refer to the full instruction manual for detailed steps and warnings. Below are general guidelines and a video demonstration for rear-facing installation using the vehicle seat belt.

Rear-Facing Installation (Vehicle Seat Belt)

1. **Prepare the Seat:** Ensure the car seat is rotated to the rear-facing position. The blue indicator on the side of the base should be visible.
2. **Recline Adjustment:** Adjust the recline to one of the four rear-facing positions using the actuator at the back of the seat. Check the level indicator to ensure the bubble is within the blue range.
3. **Position in Vehicle:** Place the car seat in the back seat of your vehicle, ensuring at least 80% of the car seat base is on the vehicle seat.
4. **Open SnugLock:** Open the SnugLock lock-off by pressing the gray lever.
5. **Route Seat Belt:** Route the vehicle lap and shoulder belt through the rear-facing belt path, marked in blue. Ensure the belt is flat and not twisted.
6. **Buckle and Tighten:** Buckle the vehicle seat belt. Remove slack by pressing down on the center of

the car seat and pulling the shoulder belt to push back into the retractor.

7. **Close SnugLock:** Close the SnugLock lock-off firmly.
8. **Check for Tightness:** Grasp the car seat at the rear-facing belt path and attempt to move it side-to-side and front-to-back. It should not move more than 1 inch in either direction.
9. **Final Check:** Recheck the level indicator to confirm it is still within the blue range.

Operating Instructions

Rotation Feature

The Graco Turn2Me car seat features a 180-degree rotation for easy access to your child. To rotate the seat, simultaneously squeeze the blue trigger and the gray lever located underneath each armrest. Rotate

the seat towards the vehicle door for easy loading or unloading. You will hear a click when the seat is securely locked into position.

Figure 4: The car seat rotated for easy access.

Harness and Headrest Adjustment

The No-Rethread Simply Safe Adjust Harness System allows you to adjust the headrest and harness height simultaneously. Locate the adjustment lever at the top of the headrest. Squeeze the lever and slide the headrest up or down to the desired position. For rear-facing mode, the harness straps should be at or just below your child's shoulders. For forward-facing mode, they should be at or just above the shoulders.

Figure 5: Adjusting the harness and headrest for a proper fit.

Securing Your Child

Place your child in the seat, buckle the harness, and attach the chest clip at armpit level. Tighten the harness by pulling the strap at the front of the car seat until it is snug. Perform the pinch test: you should not be able to pinch any slack at the child's shoulders.

Care and Maintenance

Regular cleaning helps maintain the car seat's condition and hygiene. The seat pads and infant inserts are removable and machine washable. Refer to the care tag on the fabric for specific washing instructions. The cup holders are also removable for easy cleaning. Wipe down the plastic and metal parts with mild soap and water.

Safety Information

The Graco Turn2Me car seat is Graco ProtectPlus Engineered, meaning it has been rigorously tested to meet or exceed US safety standards, including side-impact testing with the built-in 5-point harness system. Always ensure the car seat is correctly installed and your child is properly secured according to the instructions to maximize safety.
