SETUP AND TRANSFORMATION

The BLUE COP S figure can be transformed between its robot mode and police car vehicle mode. Follow the steps below for transformation. Handle all parts carefully to avoid damage.

Transformation from Vehicle Mode to Robot Mode:

1. Carefully extend the front section of the police car to form the robot's legs.
2. Rotate and position the side panels to form the robot's arms and shoulders.
3. Lift the roof section to reveal and position the robot's head.
4. Adjust all joints and panels until the robot stands securely in its full robot mode.

Transformation from Robot Mode to Vehicle Mode:

1. Fold the robot's head down and secure it within the chest cavity.
2. Collapse the arms and shoulders, aligning them with the body to form the sides of the vehicle.
3. Bring the legs together and fold them to form the front and rear sections of the police car.
4. Ensure all panels snap into place to form a compact and secure police car vehicle.

OPERATING MODES AND WEAPON ENGAGEMENT

The BLUE COP S offers two primary play modes: Robot Mode and Vehicle Mode. Additionally, it features a unique weapon engagement system using Metal Cards.

Robot Mode:

In robot mode, the BLUE COP S is ready for action. Its articulated joints allow for various poses. You can attach the included Metal Cards to activate special weapon features.

Vehicle Mode (Police Car):

In vehicle mode, the BLUE COP S transforms into a police car. The wheels are functional, allowing for rolling play. Ensure all parts are securely locked in place for a smooth vehicle form.

Engaging Secret Weapons with Metal Cards:

The BLUE COP S comes with special Metal Cards that can be used to transform into secret weapons. The specific weapon for BLUE COP S is the **Supernova Smash!**

1. Identify the designated slot or attachment point on the robot figure for the weapon card.
2. Insert the BLUE COP S Weapon Card into the slot.
3. Follow the visual cues on the card or the figure to transform the card into the "Supernova Smash"

weapon, such as "Burst Armor" or "Burst Gauntlet" as shown in the transformation image.

4. Once transformed, the weapon can be attached to the robot for enhanced play.

MAINTENANCE AND CARE

To ensure the longevity and optimal performance of your Metal Cardbot S BLUE COP S, please follow these maintenance guidelines:

- **Cleaning:** Wipe the figure with a soft, dry cloth. Avoid using harsh chemicals or abrasive cleaners, as these can damage the paint and plastic.
- **Storage:** Store the figure in a cool, dry place away from direct sunlight and extreme temperatures.
- **Handling:** Handle the transforming parts gently. Do not force any joints or connections, as this may cause breakage.
- **Joints:** If joints become stiff, do not apply lubricants. Gentle manipulation should suffice. If a joint is too loose, it may indicate wear.

TROUBLESHOOTING

If you encounter any issues with your BLUE COP S figure, please refer to the following common solutions:

- **Difficulty Transforming:** Ensure you are following the transformation steps carefully. Do not apply excessive force. Sometimes, parts need to be aligned precisely before they can move. Refer to the visual guide in the "Setup and Transformation" section.
- **Loose Parts:** Check if any parts are not fully snapped into place. For transforming toys, some parts are designed to be detachable for transformation and can be reattached.
- **Weapon Card Not Engaging:** Ensure the Metal Card is inserted correctly into the designated slot and that the transformation mechanism for the weapon is properly aligned.

If problems persist, please contact customer support (see "Warranty & Support" section).
